Snow Kissed by the Billionaire Lizabeth Scott

The Kissed Series kicks off in the snow! Brrrr. And then things heat up quickly!

Reed Hamilton, a home restoration expert, is more comfortable in her steel-toed boots than teetering on heels at a shopping mall. She usually kills her relationships from neglect, so she's taken herself off the market. An unexpected assignment to evaluate a potential project in upstate New York has Reed leaving the Victorian she's working on to meet with the client. A client she discovers spooning her from behind when she wakes up in his bed! Reed finds Mason charming, and tempting. So why not take advantage of all that HOTNESS! An early snowstorm dumps an irresistible woman at the Mason Tate's door. As beautiful and enticing as he finds her, career-focused Mason doesn't do entanglements of any type. So, he proposed that while snow falls outside, they make their own heat inside, then go their separate ways with only pleasant memories of their time together. No emotions allowed.

They both agreed. They'd be like two snowplows meeting in the night. At least that was the plan. Until that kiss.

Karen Mossman says

I really enjoyed this book. I haven't read anything by this author before and I knew it was going to be romantic but hadn't expected the erotica.

Her male hero was dashing, confident and good looking, everything you would expect. Her female lead was likable, despite the odd name, and that's explained in the story. She was sassy and petite, in fact, both were quite stereotypical. But that isn't a bad thing as long as it is written well and the characters are fully formed.

These characters are exactly that and it's not a long read, either. If you like romance and erotica, then this is great series to start on. I haven't read any of the others, but if they are up to this standard and all standalone, as I guess they are, then go ahead, you're in for a good read.

You can read the full review on my blog - <https://www.amazon.co.uk/Sun-Kissed-B...>

Angel says

This is a book that will suck you in from the first chapter. Reed catches our interest as the ultimate tom boy who catches the heart of the billionaire Mason. What will happen when they are snowed in for a week? Can they find true love? They say that opposites attract and Reed and Mason are very opposite. Read this to find the answers and a great story!

Viper Spaulding says

Reed is a tomboy who had no idea how attractive she is to men. Mason's job is working with beautiful women so he knows what he wants. And after rescuing Reed from her wrecked car only to be snow-bound with her for a week, he knows only two things: He wants Reed, but he can't have her forever.

This is a hot and sexy story filled with enough steam to melt the three feet of snow that surrounds their cabin retreat, but it also has enough emotional depth and heartfelt personal introspection that make these transformative romances so addictive. As they each realize hidden truths about themselves, they have to rethink the reasons behind their no-strings-attached relationship.

This story is very well-written with complex characters and a captivating story line. This is a standalone with a HEA, and we get a glimpse of the couple that will star in the next book in the series. I voluntarily reviewed an ARC of this book.

MARY WILSON says

Great book!!

I love this story! Reed is a tomboy and renovations contractor. She has 4 brothers who have helped shape her into the tomboy. Mason is a business man and workaholic. He wants to remodel his parents cabin. Reed goes to give him a bid and they are snowed in. The sparks start flying between them!! Great romance with some very steamy times!

Cynthia says

Loved It

Read was a woman at heart but with 4 older brothers she turned into a tomboy and worked at her family home renovation business. She is going to New York do kook at a cabin renovation for a friend of her father's. Tate wants to do an update on his parents cabin as a gift. He's waiting for Reed to show when he see something out the window. It has been snowing and she crashed & he rescues her and they get showed in.

So, he proposed that while snow falls outside, they make their own heat inside, then go their separate ways with only pleasant memories of their time together. No emotions allowed. They both agreed. They'd be like two snowplows meeting in the night. At least that was the plan. Until that kiss.

Kathleen Booker says

From tomboy to girley girl

Reed grew up with four brothers in her family's construction business and didn't seem to care about finding love. Mason grew up thinking his dad was absent too much and vowed to never put a woman thru what his mother went thru. Reed wrecked her car in snow storm on way to give Mason estimate on renovation of family cabin. Well of course they were just what the other never knew they were missing. HEA.

Debbie Taylor says

Snow Kissed - Like two snowplow meeting in the night!?

Wow! Loved this book. Read in one setting. It is about two people Who didn't think they could fall in love. But the snow came and they were stuck together. Have to read to see what happens. ?
I love this author. Have read several of her books love them. ?

Vicki says

This morning it was chilly and I decided to rad a snow kissed book. I needed a sweet romance and this one was perfect. I really liked the chemistry between Reed and Mason. They were so fun and kept the fire burning throughout.

I felt for Reed as she struggled with the missing childhood princess every girls should experience. But I loved the strong woman she is s an adult. I liked mason so much. He had a charm about him that shone through. I am going to check out the rest of this series.

Donna says

Emotional, heartbreaking, angst-ridden story. Reed was a renovating expert working for her father in his company along with her four exasperating brothers. She went to meet a client in upstate New York to renovate his "cabin". It was a large house not to be confused with a cabin in any way. She was caught in a blizzard and had an accident. Mason, the client rescued her and warmed her up thus saving her life. They were there passing the time talking and other things for a week. their chemistry was so intense they did not need any other heat. What would happen when they had to part and go their separate ways? You need to read Liz Scott's Snow Kissed by the Billionaire to find the answer.

Michelle Ferrari-Johnson says

Made For Each Other

Wrecked, rescued and worshipped all at once. Reed and Mason have instantaneous sparks and enjoy learning about each other before her crazy brothers crash their party. Fear of becoming his father, Mason lets her leave and a whole bunch of trying times arise for him.

A fast and enjoyable read. Be ready for LOLs and smirks jumping on your face~

Vicki Johnson says

An opposites attract beginning

I thoroughly enjoyed this book, an adventure in love. L.Scott certainly knows how to build on a story line until you cannot wait to turn the page.... I read a great deal and she has become my new, favorite author. Her characters are real, they come off the page for me, and make me apart of the story by being a silent observer. SO GOOD!!!

Katja says

She is a tomboyish construction worker whose brothers are a pest. When she broke her leg they wouldn't bring her a book and she didn't ask. She got bored with all her previous boyfriends and never even noticed they broke up. He's a super hot billionaire sex god who can make a girl come by only touching her breasts and has sworn off relationships for no particular reason. She wrecks her vehicle and instead of being worried about her injuries he lusts over her unconscious body. They are snowbound in a cabin but fortunately they have steaks and a hot tub. When they have sex he forgives her for getting on top. She gives up a hot TV career for him. They live happily ever after. The end.

Stories in which strangers are stranded and forced to get to know each other can be great but I didn't care for this one.

K.M. Lowe says

Good!

This was the first book that I've read by this author, and I have to say, for a quick read it was enjoyable. I liked Reed and Mason. They were addictive characters. The story and the plot was also flowing nicely. Definitely worth a read if you like a quick contemporary romance.

Margaret Watkins says

A fun, romantic bit of escapism, Snow Kissed by the Billionaire made me sigh and wish it had happened to me. Only I don't wear workmen's boots or carry a tool belt. I enjoyed the characters and the complete opposites attract theme. Mason saw through Reed's facade and was able to reach in to her inner princess and as much as she needed to be in control, Mason was able to meet her at every level. Reed's brothers while amusing, really needed a head slap. This is a quick, lighthearted read and is reasonably well written, with a delightful HEA, leaving a smile on the reader's face.
