City of Lust Debra Dunbar

Italy is for lovers—unless those lovers are on opposite sides of a 900-year-old family feud.

Mastering the intricacies of winemaking isn't the only challenge Amber is facing on her and Irix's trip to Northern Italy. Two prominent families with secrets of their own are on the edge of war, and a young romance might be the spark that ignites their hostilities into flame. Romeo and Juliet ended in tragedy, but Amber and Irix are doing all they can to ensure this young romance has a happily ever after and that these two families come to a peaceful resolution of their ancient grudge.

Think of Italy, and I bet one word springs to mind, and...

Oh yes, Italy might be the romantic backdrop for Irix and Amber's vacation, but neither could have imagined that Amber's tryout for an apprenticeship position at an Italian winery would lead them to play guardian demons to certain beings not **quite** of this world. Let's just say dear old Gregory hasn't rid the world as thoroughly of a certain type of creature as he claimed to Sam. Those Grigori are proving quite incompetent, tsk, tsk;-)

... aaaand when said beings have since adopted the very Italian *passione* for

not to mention greed, possessiveness, young love and Melancholy, poor Amber and Irix are in for one Hell of a stay. (Trying to keep thing nice and vague here...)

If you haven't realized what an (undemonic) sweetheart Irix is on occasions, this book will prove just how far he will go for his Amber, who, for all intents and purposes, has quite a few human ideas regarding pair bonding. I won't spoil the main event for future readers, just leave you with a little gem of a discussion:

"You'll make a wonderful father." No I won't. The kid will electrocute his classmates and I'll end up killing an entire SWAT team to protect him. You'll rue the day you ever talked me into siring your child."

(I'm kinda bummed we won't be seeing their adorable demon spawn in the books, btw!)

I loved how Debra incorporated little tidbits regarding other Imp characters in this book. Like Nyalla, with her almost slip-up regarding her boyfriend's identity, Little Red, even Sam, oh, and the angelic visitation. Poor angels, looks like their acclimatization isn't exactly progressing seamlessly. Mwahaa...

Knowing this is the final book in the Half-Breed series I was a little bummed we wouldn't be treated to the **main event** so to speak. Luckily, that is sure to take place in the novella Debra announced in the afterword. Whew. I'm foreseeing hilarity aplenty in THAT installment! :-D

As always: You can't go wrong with an Imp/Imp World novel and with the foreshadowing that took place at the end of this novel, I'm already looking forward to the next installment; the much anticipated Queen of the Damned! (Squee!)

Such a great book! I absolutely loved how the author brought Italy to life. I really enjoyed the story too. There's humor, romance, mystery, and murder; it's so compelling that you won't want to put the book down!

One of my favorite series

I really enjoy the "Imp" series. Debra Dunbar is one of my favorite authors. Her characters are complex and the stories are not predictable. This is the last of the off shoot series involving Amber, a half elf / half succubus demon , young lady and Irix, her inccubus, boyfriend. Together they tackle Italy and become involved in a fued between dragons. Very fun read, especially since Ms. Dunbar did her research on Italy.

Howard Lowery says

I had a hard time with this book, probably because it is the end of a great series. If you haven't read books 1 - 4, do that. They ate awesome as well but then it's Debra Dunbar... of course it is awesome.

About this one? I can't believe Amber and Irix are so clueless! I mean it is obvious the "bad guys" are... oops, I think I won't mention that. Let's see if you figure it out. As for the rest of it? Love story, make that two of them. A little mystery and some drama, and some really great writing, and some really detailed descriptions of what sounds like beautiful country. Everything about it is typical for this author - 5 stars plus!

Minor warning: If really hot sex scenes (absolutely NOT porn) are a problem, be prepared to skip a couple of paragraphs. They're not in bad taste but they're there. Just saying...

BELLISSIMO!

I'm sad that this is the last of this series and hope that Debra Dunbar hears much more from these characters, a Amber and I fix are among my favorites! This story took me to stunning vistas, kept me turning pages late into the night, and taught me about wine! Win/win! You can never go wrong with a Debra Dunbar authored book, ever, but this one SCORCHED! Bravo!

Amber scores a chance to win an winetasting apprenticeship in Italy. When Amber and Irix get there, the find a Romeo and Juliet story playing out before their eyes. They just have to get involved!

This is the end to the Half-Breed series? *This??* Okay. If you must. I can't believe Dunbar chose to spend the entire last book in this series on a story not about Amber and Irix. Author's prerogative though, I guess.

I wasn't over eager to get into the nitty gritty of winemaking. I guess I'm sort of glad that isn't what I got. Still not happy though. This book is pretty much 10% Amber and Irix, 10% sex, and 80% watching two teenagers fall in love and fight their families for their love. I just cannot fathom why Dunbar decided to turn to what is the most standard tale of all time. The fact that they're not human doesn't make it any better.

The only interesting part of the book was figuring out what the lovebird dumbasses were. It kept me going for a while, at least. Dunbar did do a good job of laying out the mystery, so I won't spoil it. That is basically the only good part of the book, after all.

Nope, I'm going back to it. Why in the hell is this a Romeo and Juliet story instead of a story about Amber and Irix?! This is the last book of the series! AAAAA

The little air time spent actually on on Amber and Irix was put to good use, though. It builds their relationship better than I would have expected from the way their relationship started. They actively talk about what is in store for them in their future.

Overall, severely disappointed that this is the ending to this series. I just don't understand.

Ryan Mangrum says

It's a VERY slow start. The meat of the book doesn't really get started until nearly the halfway point. Prior to that, it's a big setup for a play on Romeo and Juliet. This book is much more of a mystery than an action book like the others. What I like about this store is the solution isn't one that can be powered through, it required empathy, intuition, intelligence, and bravery to pull off.

Excellent As Always

I really love the half -breed series, and everything Debra Dunbar writes. This was set in Lake Comp and I do want to go there now! We get more Amber and Irix in this gorgeous setting, and there are more supernatural beings that have treasured this gorgeous locale. It's a great story and I loved it.
