Marrying Miss Kringle: Frost Lucy McConnell

Frost buried her face in her hands, feeling all the pressure to save Christmas. Neither Stella nor Robyn had the potential for love yet. They were starting from scratch. But she had more than potential; she had an invitation. It was up to her to find Tannon; get him to profess his love to her; and save her family, the North Pole, and Christmas for children all over the world.
Oh, Tannon, I hope you're ready to love me.

Frost Kringle broke one of the North Pole's rules the day she replied to a letter from Tannon Cebu; but, her Kringle-enhanced empathy wouldn't allow her to walk away from the anguish in his words. What began as a disobedient impulse grew into friendship and eventually love. If her secret romance is revealed, she'll be banished from her home and family.

When the Kringles discover Christmas Magic is dangerously off balance, Frost musters up the courage to meet Tannon in person with the hope that they can marry and save Christmas. While she's away from her precious Letters Room, her secret is blown right open and she's exiled. In order to make it home for Christmas, Frost has to bring Christmas cheer to those who need it most.

Tannon, is tired of the corporate grind and wants out. He's decided to sell his paper mill and retire to a quiet corner where he can raise his son in peace. His announcement, right before the holidays, creates an uproar as employees wonder if they'll have a job in the New Year. No one in town feels like celebrating and they have little hope of a happy holiday.

If Frost can get Tannon, and the town of Elderberry, to believe in Christmas once again, she'll make it home and save Santa's workshop from turning into a block of ice and ruining Christmas for children all over the world. Trouble arises when Tannon's interest turn to Frost more than to Christmas. She walks a tinsel-fine line between falling for him and failing in her Christmas quest.

With her whole world out of balance, Frost must look deep inside herself to bring about a Christmas miracle--with a little help from her jolly family.

Anyone who says fairy tales and believing in Santa is for children only hasn't read Marrying Miss Kringle: Frost by Lucy McConnell, this book took me to a place I thought only children went too but this time around the snow may have been falling but so was the love interest for Frost Kringle. There are 3 books in this series but so far I have only read one, that is about to change I need to read the other sisters stories hopefully before Christmas....

Frost is in charge of the mail room she sorts the letters and sorts them into the naughty or nice piles but Frost has a secret years ago she broke one of Santa's rules she became a pen pal to a boy who needed a friend and they have carried on writing to each other as they have grown up and now that secret is about to send the North Pole into melt down.....and Frost finds herself sent into exile so she heads to Elderberry where her pen pal lives she needs to get the North Pole back on an even keel and that means having a man fall in love with her without knowing who she really is. Tannon is the pen pal she has been writing to he is a single father living in Elderberry having a hard time with life he needs some love and joy but how will he react when he finds out Frost is not who she seems...

Will the Christmas Magic work on these two lost souls who have found love with each other, well I guess you need to read the book to find that out. I loved this fun sweet Christmas romance it has everything I wanted and more , it was magical, it was romantic, it was funny and if you love Christmas and romance it's a must read !!!!!

????

Another fun addition to this entertaining series. A light, clean and sweet romance with elements of faith and whimsy. This concept is entertaining, can't wait to see what is planned for the remaining sisters.

How can you not love Frost! I have been anxiously waiting for her story and it was amazing! Frost secretly responded to one of Santa's letter because it pulled at her heart strings. One thing led to another and Frost and Tannon developed a friendship through their letters. I connected to these characters on so many levels. Loved this story so much! Definitely recommend this for a great Christmas read.

Marrying Miss Kringle: Frost was the first book I've read in a long time that transported me to a world where you could believe in Santa, his family and the North Pole. I was in love with this book from the first chapter. The world needs more people to read this story and believe that the love of Christmas is important and healthy for the heart. It made my heart very happy.

I loved this one so much I couldn't put it down. I'll be paying for it today. I was up past 2am ?? The Kringle family is awesome and I love being able to get a personal look at each one. Frosts story was surprising at first, the fact that she kept a secret so long but her and Tanner are so great together! I absolutely adored this one and can't wait for the books of the other Sisters!!!!

Not only does she create a wondrous Christmas setting, but it's not just about reindeer, and Santa and fruit cake. Her stories weave in real world family dynamics that you can relate to. Heartbreaks that resonate and some times she even takes the thoughts right out of my head.

I loved the focus she's had on parenting in these books. I can completely relate to reading parenting books and feeling like they can't accurately help with my individual child and I'm feeling my way through a dark room.

Lucy McConnell not only tackled Christmas Magic and parenting, she wove in a discovery of who we are as individuals and who we are in relationship to our family. Both are necessary and valid things to discover.

The punishments from Christmas magic were clever and added a lightness to some of the heavier aspects of the story. Her story encompasses the sense of wonder at Christmas time.

This is the first book I have read by Lucy. To me this is the third book in a series though this isn't listed as a series. I haven't read the other two books but they can be read as standalones. This is a Christmas book. Santa has five daughter and each book is about one of those daughters and how they find their other half. Frost broke one of the North Pole's biggest rules. She began writing back to one of the children who wrote to Santa. They have been writing to each other for sixteen years now. Their relationship has changed over the years. The balance of Christmas magic is dangerously off balance. Frost must get the courage to go meet Tannon and see if they feel the same way about each other. Could their love balance out the Christmas magic again? This book was an interesting read. When Frost meets Tannon he doesn't seem like the same person

from his letters. Frost needs to get to know the real Tannon. He assumes Frost is someone else. The girls who is supposed to be filling in as his personal assistant. The town of Elderberry is seriously lacking in Christmas spirit. Frost and Tannon need to get to know each other. Only Tannon doesn't realize that he is getting to know his pen pal. Frost needs to restore the balance of Christmas magic before she can go home. I liked the characters in this book. The Kringle family members are great. They each have their own special abilities that have to do with Christmas. I have added the other two books to my TBR list already. This was a sweet christmasy read. It is a clean read. Lots of flirting and a few kisses.

5 star review of Marrying Miss Kringle: Frost by Lucy McConnell

What's not to love? It's the most magical time of the year and also happens to be my most favourite holiday. I love any story that is centred around Christmas; it's a time for family and friends to get together and celebrate life.

This was a fun, quirky, read and one I recommend. I enjoyed Lucy McConnell's writing style and felt as though I was a part of the magic of the holiday season and Elderberry.

Can the magic of the Christmas season bring together two lonely souls and make magic happen in the North Pole? Frost Kringle almost got herself onto the naughty list when she broke the North Pole and Santa's rules and replied to a letter written by an 8 year old boy named Tannon Cebu.

If her father knew that not only did she write to him once but that they continued the correspondence into adulthood she would be in so much trouble.

When the opportunity arises for Frost to visit Elderberry with her sisters, although hesitant at first she finally decides to take the chance to meet the man she has fallen for. However Tannon is jaded and is tired of fighting to keep his company above water.

Frost's world is off balance and when her secret is discovered at home, she is exiled. Frost has to get not only Tannon, but the whole town of Elderberry believing in Christmas again and she finds that it is not as easy as she thought it would be.

Will Tannon and Frost fall in love, bring back the magic of Christmas to Elderberry and thereby save Christmas or will it all be in vain? One click and find out.

I received a copy of this book through the publisher via Netgalley.

This was a delightful Christmas story! Frost Kringle broke the rules when she answered a letter to Santa and began corresponding with Tannon. They'd been pen pals for years when Frost decides to go look Tannon up, marry him, and save Christmas. Of course she can't reveal her true identity, not right away, and Tannon is attracted to her after hiring her as his assistant. So it's just a matter of time before sparks fly, not all of them good!

This has everything you could think of pertaining to Christmas. Loved the characters and the setting. The romance was heartwarming and left me wanting more. Definitely recommend!

Laura Reading says

This is a cute, Christmasy holiday romance that almost isn't (or wasn't?)

Santa has five daughters. Two have found husbands and even have children, well, step-children.

Christmas Magic runs on love, as well as the belief of children.

Taking place over the course of more than fifteen years, daughter Frost's naughtiest deed has the potential to land her permanently on the naughty list, be banished from the North Pole, and possibly be the cause of unbalancing the magic required to allow Christmas to survive. She can not just ask for forgiveness, as she is trying to deny that anyone even knows about what she did.

Full of wonderfully cute phrasing, and with delightful characters, this was a fun romantic adventure to read.

As time is running out, with the chance that Christmas could be lost forever, tension rises.

We all want Christmas to be saved, and for Frost's dreams to come true, but is that the best result?

You'll have to read the book and find out for yourself!

This is the third book in the series and continues the story line (Ginger and Lux). Don't worry. The author has added enough backstory to help you keep up. The Kringle family still have issues and Frost is required to leave her family. Romance and misunderstandings kept me wondering what would happen next. Loved it.

I just couldn't finish it. It was cute but not for me

Ruining Christmas.

Frost has broken so many rules that she's on the verge of ruining Christmas for the entire world, and has been banished from the North Pole. To save Christmas she must bring back the Christmas magic to a town and one family in particular. This is a wonderful and inspiring story.

Aimee (Getting Your Read On) says

Cute!

I love this ongoing series about all the daughters of Santa. They are trying to save their North Pole home one love story at a time. Frost was the perfect picture of all that is good about Christmas. What a fun book to read so close to Christmas!
