Virgil Joyee Flynn

[Ménage Amour ManLove: Erotic Alternative Paranormal Ménage a Trois Romance, M/M/M, vampires, fae, HEA]

Virgil has been hiding something... But then again that isn't anything new to him. He doesn't fit in with the family that doesn't even know who he really is. Learning long ago that he wasn't normal, he strives to just fit in. Fate just doesn't seem to have it in the cards for him.

Mareo and Foma have been searching for their other mate for centuries. Now that they think they've found him, Virgil's running from them. Panicked that he's only staying in Greece a few days and confused by his reaction, they decide to take desperate measures. After their plan backfires instead of opening up Virgil to being their mate, can they convince him they were only trying to help? Or will it be the last straw to push Virgil over the edge and leave everything behind to start over somewhere else, saying good-bye to the Mariuses forever?

Note: This book is written in first-person point of view.

Note: This book contains double anal penetration.

Kavisha says

Let me start by saying that I have already read the majority of the books in this series and was following it for a long time. I lost track of it and realized recently that I had about 4 new books in the Marius World Series to read. But it has been a long time since I read some of them, and I couldn't really remember much of the overarching plot. I also hadn't read much of the "Beyond the Marius Brothers" stories and never even added the ones I read onto Goodreads.

I decided to take up the challenge of re-reading all the books (21 so far) in this series chronologically and writing a few thoughts on each. So I will set new dates to the "read date" section as I go along.

Previous Read Date: May 10 2013

Ok, so I cheated on this book. I just couldn't read it! I hated every bit of this book. I hated Virgil. I mean he was so whiny and fussy and just annoying. I get that Joyee Flynn wanted Virgil to have an important role and be super awesome and shit. But doing that at Riley's expense, indicating that some of Riley's most important inventions were tweaked by Virgil was totally the wrong way to do it. Riley is a favorite character, why would you try to build up one character by diminishing the value of another? Makes absolutely no sense to me.... GRRRRRR

I read this book before and was dreading re-reading it. And I couldn't. I just skimmed through it, trying to get the salient plot points. But it was so hard because this ended up being the turning point where everything was explained, and now I feel as though I have missed all that... damn.

Flynn could have let Virgil's genius come out without messing with Riley and this story would have been pretty great.

Current Rating: 0 stars : I HATED THIS BOOK

Previous Rating: 1 star

Candice says

Virgil. Poor guy. I cried for him. His own family didn't understand him. Considering he had such a big one it had to be awful to be the only one who felt left out. On the other hand, he had such a big family and nobody noticed how withdrawn he was?

I would've liked to have gotten to know Mareo and Foma a little more. Also the menage scenes weren't all that great. Seemed kind of glossed over. Which to be honest, was fine with me since I am not all that interested in menage's.

What I didn't like? Virgil was too forgiving!

I am going to be moving onto the Beyond the Marius Brothers series, but I wished I knew there was reading order because I think that would have helped me in some books.

What do you get when you take two VERY large fae warriors, a reclusive vampire, and add a pint of werewolf blood? You get one round of HOT, steamy, and passionate sex after another. Virgil by Joyee Flynn is the eighth book in the Marius Brothers series. This book isn't a standalone, and it's best to read them in sequence. The blurb covers the gist of the story, so adding anything more would be a spoiler.

This is a character and plot driven tale that concentrates on three men in particular from among the many solid, three dimensional, and fascinating primary and secondary characters who live, love, and fight in the world that Ms. Flynn has so skillfully and deftly built. Told in first person POV, it alternates between the three MCs. The plot flow is a little rough, and one thing that I dislike about this book is that if you're not paying attention, you can get lost. The storyline lays out a bit of the backstory, but it can be a little confusing trying to figure out just who all the myriad secondary characters are without a score card.

The author's writing style is humorous, simple, and concise, with a deft ability to combine all the myriad threads of so many races and species, their histories, and personalities into a seamlessly taut whole. The sex between the three MCs is HOT, HOT, HOT, and just enough kink to add spice. I do love how Ms. Flynn weaves angst, anger, action, love, forgiveness, and passion into a cohesive whole. The story does have a HEA ending after a pulse pounding rescue. If you looking for a story that has hot men, hotter sex, and enough action to satisfy, then this is a book for you.

Linda Aldred says

good

Marnie says

I have loved all of the Marius brothers stories and couldn't wait to read this one. I wasn't disappointed. Virgil's was by far the best of them all. It was touchingly sweet, heartrending, sexy and romantic. I was in tears many times. Well written, well paced- I couldn't wait to read the climax but was really sad that the journey had to end. I will be re-reading this one many times in the future (I've already read it twice!)

Mae Hanley says

The story picks up from the ending of the series so you need to read in order.

Virgil's self-esteem issues really rang true for me. I could feel and relate to his sadness that I found myself crying in a couple of places. That said, this is not a sad story by any stretch of the imagination.

Loved the fae Virgil is destined to be with. They are definitely tasty. :)

multitaskingmomma says

Virgil is finally happy.

We all knew, those who followed the Marius Brothers Series, that of all the brothers vampires, it is Virgil who is different.

In Virgil (Marius Brothers, #8 by Joyee Flynn, Virgil has been hiding something... But then again that isn't anything new to him. He doesn't fit in with the family that doesn't even know who he really is. Learning long ago that he wasn't normal, he strives to just fit in. Fate just doesn't seem to have it in the cards for him.

Mareo and Foma have been searching for their other mate for centuries. Now that they think they've found him, Virgil's running from them. Panicked that he's only staying in Greece a few days and confused by his reaction, they decide to take desperate measures. After their plan backfires instead of opening up Virgil to being their mate, can they convince him they were only trying to help? Or will it be the last straw to push Virgil over the edge and leave everything behind to start over somewhere else, saying good-bye to the Mariuses forever?

After reading A Very Marius Christmas, all readers, including yours truly, felt that here was one brother who was lonely, sad, unhappy, jealous, envious, and basically unhappy. Okay, so he was happy that he got those gifts that the other brothers got, thanks to the mates, but all was not right.

After reading this, now we know the why of it.

To be honest, I was quite lost when it was mentioned that (view spoiler). In fact, I was quite dense then, reading all those books before this one, that I totally missed out on it. I had to dig in through the files once more and do an actual and manual search to find those clues. Well, duh me, I found some, I know there were others, but how could I have missed them? Maybe I was too busy smiling after reading about the different Marius brother adventure installment. In any case, mystery solved.

One thing that I did not really like about this book was that Virgil sort of whined too long and I had to be tell myself to be patient to get to the end of his whinging. When it finally happened, I made a huge sigh of relief. From then onward, the book made me smile.

Note: This book is written in first-person point of view.

Warning: This book contains double anal penetration.

Erticchic378 says

I was so excited to read this, it just was a little of a let down. Hopefully since it was stated that the Mariuses would be in some of the spinoffs, we will get a little more that's actually about Virgil and less about everyone else and politics. This could have been a huge ending to a great series and a lead into what's to come, but I feel a bit let down. I mean how do you mention a mate has a brother he hasn't seen in ages, then mention you should see him, then never mention it again???

Julie scott says

Virgil [Marius Brothers 8]

This was great again the second time around and I can't wait to read the next one again too....And I will be reading it next...

Sabi says

I did like it. The only thing that bothered me was this instant forgiveness. Virgil was so hurt and no open to listen no anybody and just one session with Ayden and EVERYTHING is right with his mates. I would have taken like a couple of pages at least, to get things right. It was to instant forgiveness and love and just jump into sex.....

Hc says

[Yes, Virgil was 'seen' previously with two men engaging both at the 'same bat time, same bat **channel**' and while some of the sex scenes with his mates seemed a tad skimpy on details.. I found the *other* issues to drag it down. I had mixed reactions to learning that Virgil is as good or better than Riley's 'genius'. I know there has to be SOME kind of conflict for them to over

Sanet says

The last few books in this series have been pretty mild... and Ive kinda liked that... also the fact that we have the not sooo much stupid warrior consent... that was really really a nice twist.

Nice easy read :)

Ericka Walden says

I enjoyed Virgil and all the revelations that finally were revealed and discussed. Glad this isn't really the last of the Marius family, and we'll see them again in future books.
