Johan says

Enjoyed seeing what happened to Captain King after the happenings of the previous adventures.
Truly surprised by the events in it

Peace out

Marlyn V. Tennant says

Good reading!,

I have really liked the whole series and cannot wait read the next group. t he car actors are believable and the story flows so you get that anticipation for what happens next.

Kevin C says

I enjoyed this book as well as the first series. It was entertaining and I really like the characters. The only thing that took away from it for me was the very real similarities of some of the story aspects to other tv shows and movies I have seen, and books I've read.

Other than that, it was very enjoyable, and I look forward to reading the third series...in fact I've already started it.

Tony Healey - Far From Home

A very good read. Many nights I would tell myself too go to sleep at10:PM, only to continue reading until midnight. Looking for next series. Wayne A.

Martin says

After reading series one, I just had to carry on and read the second series.
More of the same, but with some twists I wasn't expecting. Great cliffhanger finish.....

NICKY MARRIOTT, MRS says

Would you have guessed this? Not me!

More please!

Can't wait to read the next box set (no: 3) and I've now got it.

Role on the next instalment of a multitudinal-course meal!

Ted Roberts says

Recommended reading from a journeyman author

There are few plot surprises in this story but the quality of the writing more than makes up for this and the book kept me turning the pages from start to finish.

Pierrette says

Change of venue welcomed

Much less fighting, which gets tiresome and more strategies and mystery... On to book 3! I love discovering interesting writers.

Joseph Bachner III says

Good story. Very bad editing - it became a distraction.

Tim Stinnett says

Wonderful story, BUT....

I found greatly annoying the way Healey lifts long passages and repeats them. I doubt I will read anything else by him because of this. He should assume this reader's are I interested enough in the story to remember what happened earlier without a "rerun" to remind them. If the reminder is essential to the story, at least write something fresh to accomplish that. I would not recommend the books because of this flaw.

Susan Grace says

I'm only rating this 3 stars because SPOILER ALERT!!!! my favorite character was killed!!! I don't really care for the direction the story has turned. I don't know if I will continue with the series.....we shall see...

Adam Mahler says

Great second story

The way the story developed through this book in the series really brings the world to light. It builds so great. I can't wait for the rest of the story.
