Wolf Within, Book One Jocelyn Thomas

"Do you like the way I make you feel?" His delicious voice carried assurance. She could barely speak but she managed to utter a weak, quivering"yes."

Brian Hall is always used to getting what he wants, when he wants it. Owner of one the largest banks, he exudes confidence and power. When he sets eyes on his newest prey there is no giving up and nothing will stop him.

23 year old Leah Johnston is beautiful and vibrant with one flaw - feeling used and hopeless by her ex - she has given up on finding Mr. Right. Her innocence makes her vulnerable, yet still wanting and falling for someone that will allow her to explore her sexual innocence. Her heart may not survive her encounter with Brian - The Big Bad Wolf, as he brings her to a height of sexual desires that she did not know even existed.

This is Book 1 of an ongoing Serial and is a short story.

>>> Warning: This book contains explicit sexual scenes <<<

Djg says

Seriously, it's more of a 2 1/2 but I got sucked in and bought the next three for .99 each.

Leah is headed for a night out with her sexually adventurous friend Crystal. She describes herself as sexual repressed and that her break up with her ex was amicable because he wanted more than she did in the bedroom and she couldn't seem to please him.

She meets Brian, sexy billionaire who gives her his number. When she calls him he offers her a job (really, not a date or something?). He then tells her she needs new clothes and invites her in his office to take her measurements(!) by the way she is a BBW :) He starts groping but before he can get her off they're interrupted (damn!), he invites her to stay late after everyone leaves and finish what they've started. He gives her the first big O of her life but doesn't do the deed. She notices his eyes changing color and he appears to have fangs but she says nothing (really!?).

They have phone sex, and he invites her to go away with him. Then her ex boyfriend drunk-calls her the end.

So some inconsistencies, at the beginning of the book she says the break-up with her boyfriend was mutual but when he calls she says he cheated on her. Then she just quits her job to take one with Brian after a phone conversation. Some grammar and spelling mistakes. Still it ended on a cliffhanger and I was hooked.

Virgen Caraballo says

I loved reading the book and getting to know the characters of the story. I found the book entertaining to read and it was a pleasure to read the book. At times I even found myself laughing as I was reading. Liked the style in which the author wrote the story as well. I would recommend this book for you to read.

Diana Rising says

The story has just begun in this book. There are interesting hints that the hero is different--glowing eyes, sharpened teeth, etc. I never got to know the hero very well. I assume he is a werewolf, but that didn't actually get said. He is very attracted to the heroine, and does what he can to give her pleasure and gives her a better job.

The story is written from the point of view of the heroine, who is written as quite sexually repressed, but not a virgin. she seems to be almost under a spell when the hero is touching her.

I'm afraid the story didn't pull me in, and I felt like more was needed before the end of the first book to entice me to buy the second book.

Linda says

Good

The story was extremely good. I'll liked Leigh and Brian. I just felt that the story was rushed and that it ended before it began.

Melody says

nice read!

alice reuss says

Wolf Within

This was a sex book with no story line. He is a golf and he's teaching her all about sex and how she should feel about her body If that is what you like then by all means read this book.

Dawn says

This is an amazon freebie. The story is about a woman who really has the lowest sense of self-esteem especially in regard to relationships. One day at a bar her best friend who appears to be the resident slut tells her to get it together and get out there. The heroine does as she is told and meet a man who is a billionaire banker. He basically begins to run her life.

The story is ok, not a lot of depth to anything - not the characters not the plot. It is one of those freebie teasers which end rather abruptly in the hopes you will purchase book 2. Personally I am not interested the book was boring.

Louise Nunn says

A great start

With well developed characters and a storyline that steers itself, this story will hold your attention throughout. The character revelation occurs surreptitiously so you feel as if you actually know these real people. You will actually hate her scrappy ex boyfriend and simultaneously love her free loving best friend. The plot moves forward and a relationship develops but we are left just as it is beginning. I have bought part two because I have to know how things continue. This is a well written story, buy it, read it, you will love it!

Mary Winstead says

Poor Leah 23 never been truly loved just used goes to a bar to meet her friend Crystal. She meets Brian a bank owner and werewolf. He shows her what love really is. Great read you won't be disappointed

Cindy says

Totally empathize

Leah is just realizing who she is and becoming comfortable with a curvy body. I understand where she's coming from since I also have a strict religious background.

Norma Quick says

Sexy but short

Was a really interesting book but could've been longer. Very sexual book wouldn't recommend younger kids to read. Ready for the next book to see where this takes them.

Joy Luxely says

Leah is a beautiful bbw with a few insecurities (sigh. Aren't we all?) She's out with her vivacious and a bit forward, best friend Crystal at a local bar. There they met the sexy Brian. Crystal is the one to approach, but Leah is the one who catches his eye. Conversation turns to a job offer turns to a sexy office romp that starts to turn the tides on Leah's sexuality. This is a short, and does have a cliffhanger! There are three more books in the Wolf Within series. However, Jocelyn Thomas is a great author with lovely heroines and strong Alpha males. So dive in and enjoy!

Daria says

Interjecting a bit of real life for a moment. For many years women have suppressed their sexual nature and or needs for different reasons. I for one... I'm glad we can not beat that suppression on the ground.

That said (smiles) I've had the pleasure of reading Ms Thomas work before and loved it and I can had this one to my list of fav books.

Brian a banker billionaire plus something a bit extra, very sure of himself without being a ass. When he sees Leah at the bar with a friend, he notices her sadness in her eyes. Leah is such a sweet girl even if she wasn't with the belief you body in temple for sin... or some such silliness. Her friend Cheryl.. hey if she wasn't a best friend, now she should be. Inadvertently Brain smoothly let Cheryl down, in favor of Leah. Brian can sense with a bit of pushing, he could get a smile on Leah's face and he does, and he is of mind to bring her out of the shell she has created for herself.

A new job, a new hot sexy alpha male for a boss., life couldn't get any better ...right. Now now..with Brian's help Leah with discover fridget isn't a word that can now be used to describe her. Brian wanted to get Leah's measurements, her fashion sense was totally lacking. Not everything will is roses and butterflies... as she is at home packed for a Dover trip.

A quick hot read, loved it..even with the cliff hanger. I cant wait to get my hands on the second one. Enjoy

Vicky says

Lacking

I expected much more after the first chapters such a good set up. But, the more I read the more I realized it just wasn't going to get better. It was predictable and I found the main female, Leah, to be almost too naive for a book like this. Where her supposed best friend was nothing more than a catty slug trying to push her into uncomfortable situations.

Jeri says

Cliffhanger just when it was starting to get interesting.
