Sexy Witches -- The Complete Series

Book One: The Sexy & The Undead

A potion gone wrong, or right?

Single, unemployed, and in charge of her very own pet zombie, Ella Perry is cooking up trouble, and it's raining men.

Ella has spent years searching for a cure for a zombie named Freddie. However, when an experimental concoction takes an unexpected turn, she gets a glimpse of the life she's been missing by hanging out with the undead.

Book Two: Wanted: Hexed or Alive

It is said that the man who controls fate controls the world, but what of the person who controls the man? What is said of them? Rowena the Fate has a problem; a problem of the pirate variety. Following the advice of friends, she'll seek out the wizard Randall Cruz for help.

As owner of an apothecary, Randall is used to unusual requests, so Rowena's pirate removal spell doesn't faze him, but what happens afterwards will leave him in a position he never dreamed possible.

Book Three: The Pixie & The Prince

Be careful what you wish for, or better yet, what you allow your friends to wish for.

As Samuel the Dark's ward, Tam the Pixie is living in the mortal realm under the watchful eye of her guardian angel, Thomas. However, when she gives Thomas one free wish, she never expects that he'll use it to turn her life upside down.

Chained to the side of an ex-lover and trapped in the Mirror lands, Tam will have to come to terms with their past in order to break the curse.

Book Four:

Guardian Angel Gideon Black has found a new career since being granted his freedom from the Heavens. Working as a professional fighter has given Gideon a place to release his powers. However, he has another outlet in mind—Skylar Jones.

For Skylar, Gideon is a fantasy man whom she never dreamed could be a reality, but a parking lot collision will end in a very unexpected way.

Find out what happens when desire beyond definition comes to life.

Book Five: The Wizard & The Wanton

A Fate lacking in inhibitions and the wizard who holds her powers in his grasp collide in the latest book in

Bestselling Author Charity Parkerson's "Sexy Witches" series.

Out of the three Fates, Rowena is the wildest. No matter how hard she tries, she can't seem to stay out of trouble. Now, she is in the biggest fix of all time. She's lost one of Heaven's Seers to the Devil, and she needs Randall's help in order to find her.

Once upon a time, Rowena pulled Randall Cruz into a supernatural fight in order to regain her powers. In retaliation, Randall cast a spell that gave him the control she seeks. With the exception of a few angels, a zombie, and an outrageous pixie, Randall enjoyed his quiet life as owner of the local apothecary before Rowena pushed her way in. Since the day they met, he's been forced to battle a pirate, give up wearing glasses, and now deal with the Devil. Every day, he braces for what will come next.

An undeniable attraction, a struggle for dominance, and a love to last through the ages comes to life in The Wizard & The Wanton.

"The Sexy & The Undead" by Charity Parkerson is a paranormal erotic story that is both light-hearted and sexy. The main character is a witch, daughter of a Valkyrie and has a pet Zombie in her life that makes it hard to keep down a job. Enter her love interest, a man with a pixie on his shoulder.

Their meeting sparks attraction and sexual tension, very well portrayed, the tension between them was flying off the pages.

Full of originality and inventive ideas this is a very entertaining sexy story that surprises with more depth as we follow the story later on.

I am not surprised that Parkerson has won awards for her writing, it is confident and competent and a pleasure to read. With the great characters and believable conflicts the story almost writes itself. A great effort

Wanted: Hexed or Alive" by Charity Parkerson, part two of the Sexy Witches series is a short story that follows Randall, the apothecary and side character from book one, and a request by Rowena to remove a spell.

At 27 pages the story needs to be read, it is well written, funny and has a surprising end.

"The Pixie and the Prince (Sexy Witches)" by Charity Parkerson is the third instalment of the series.

This time the focus is on former Zombie Freddie and Pixie Tam.

Once again Parkerson weaves supernatural elements into an entertaining romance story, a blend that works very well especially since she writes such unique, strong and likeable characters.

An excellent play on the theme of a wish fulfilled - 'mirroring' the previously cursed Freddie, this story runs deeper than previous ones but is entertaining as all of Parkerson's work.

"Tasting Temptation" by Charity Parkerson is an inspired cross over between two of her series, focusing on angel and fighter Gideon and his love interest Skylar.

The strong attraction between them forces them to address the issues of their compatibility.

A gripping and short read that needs to be experienced. Parkerson is a master at creating sexual tension and powerful magnetic vibes between her characters and this is no exception.

"The Wizard and The Wanton (Sexy Witches 4)" by Charity Parkerson concludes the series with a turn to darker tones with the widening of the paranormal themes, i.e. Death. but also with several plot surprises and secrets that complicate the already complicated central relationship between Rowena, a seer, and Randall, an apothecary.

As always this is well plotted and has excellent characterisation, has humour and is highly original and entertaining.

Book One: The Sexy & The Undead

This was a really interesting listen. I really like the characters but could have used more world building. There are many things that take a long time to be revealed. At first I was confused about what was happening.

Ella is rather sweet and haphazard. I would have loved more build and flirtation in her relationship with Sam. Perhaps show more of her trying to cure Freddie. I liked what I saw of her, just needed more.

I was a touch thrown by the Fates angle of the plot. It will be interesting to see how that develops through the series. Love the supporting cast, Freddie, Tam and Randall were great! I really hope we get to see their HEA.

There is plenty of sizzle but it is light on the smexy details. Still, quite nice for a short read.

I liked the mixed narrative, it helps you really understand both Ella and Sam. There is a bit of emotional drama, but that is par for the course with a good romance.

Book Two: Wanted: Hexed or Alive

This is an extremely short read. But I hope it is just a teaser for a story to come.

Set in the same world as the first book a little further down the time line. Looks like Randall might get a chance at love. I enjoyed finding out more about him and his magic tricks.

Book Three: The Pixie & The Prince

The great thing about this book is it is two romances for the price of one. The stories are interconnected and really kind of sweet. I was thrilled to get the HEA for Tam and Freddie!

The story has several POV, all the mixed narrative is key for understanding everything. The romances are mostly sweet, there is a bit of smexy detail.

There is a fair share of mythology mixed into this series. I really would like the books to be longer and the world to be a but more fleshed out. They are very intriguing and have huge potential.

Book Four: Tasting Temptation

Oh wow!! I loved this quick little read!!! The story built up from the world of the previous books in the series.

Skylar is a great sassy girl, with curves, and mostly confident. Gideon is deliciously Alpha and rather sweet. They are a great pair and it was great reading them getting together. I do wish it were longer, then we could really see those feelings develop.

The book has a mixed narrative, so you have both leads POV, which is important. It helps you see Gideon trying and understand his feelings for Skylar.

Hello, yummy smexy scenes!! Just enough detail to keep it hot and steamy!! Kicks things up a notch from previous books.

Book Five: The Wizard & The Wanton

It has been a delight seeing this series progress from book to book. We finally pick up in this book with Randall and Rowena, from the earlier short story. And we get a bonus romance of Harper and Death. I love the two for one deal.

This book has a great little story, wish it were longer. I loved the mixed narrative, fantastic knowing where everybody is coming from. All the transition are very smooth.

Hot, hot, hot!! Oh yeah, the smexy scenes have really kicked up! I am talking seriously steamy and plenty of detail. Look out cold shower!

I listened to the audiobook narrated by Hollie Jackson, who has been great through the series. I love her accents and the delicate touch she has with them. She has a swift pace that really fits the smexy scenes and energy of the read. I really enjoyed her work and will have to look for other reads!

Overall, this book has been enjoyable and a great concept. I hope there is more to come, we still have a few supporting charterers that are single. I would just like to see the stories a bit longer, take more time building the world and relationships.

Disclosure- I received a copy of this book in exchange for an honest review. All thoughts, opinions and ratings are my own.
