HOT HOT HOT!! If you like a short book that is just sex, listen to this one! If you love the Good Doctor Series, listen to this one!

Renea gave us one encounter with our favorite foursome in this short novella. The boys give Elaine their version of what Paris is like while they are stuck in NY. And we all know Paris is sexy so you can only image what these seriously sexy guys do to her! As always the writing was fantastic, the story hot, and the narration off the charts! I love that I got to have a short visit with these characters in between books! KEEP THEM COMING RENEA!!!!

Tasting Paris was a perfect short read. Although I read it out of order it was still a nice touch to the series! It was 39 pages of pure steam! What girl would not want a taste of Paris if Xavier, Marco and Sebastian was what it had to offer!! ;)

### Lyn says

Two words describe this story "Extremely HOT". The Good doctor (Xavier), Marco, and Sabastian show Elaine what Paris taste like. This story can be read as a stand-alone but definitely should be read in conjunction with the The Good Doctor Trilogy.

#### Tasting Paris (The Good Doctor Trilogy #2.5)

by Renea Mason

**Hot damn, I want a taste of Paris too!!!!**

This was such a perfect little interlude between books 2 & 3. It's not often that I give 5 stars to short reads but this one deserves it! How have I never heard of Renea Mason before starting this series I'll never know.

I was lucky enough to have had all three books loaned to me through [booklending.com](http://booklending.com) but after finding out how good the audible version of these books are I decided I am going to treat myself and purchase them. That's saying a lot because I never listen to books on audio, I never really liked them much. Renea Mason has a sample of her audible books on her site, check 'em out and I highly suggest the audio versions if you want to start reading her books. They are that good!

This is a quick and delicious look at our favorite quad...our polyamorous Elaine, and her trio of hot men spend a night to remember for many many nights to come!! it was great! The narration was flawless and I cant wait for the next one!!

I just finished reading this short story in audio format. I read this already in eBook. The audio version is 20 times better! I thought the eBook was good, but the narrators turn this story into an event! The voices, the emotions... I feel like I was looking into a window! The story itself is already very good, but when the dual narrators add their parts in, this book comes to life with so many explosions (pun intended). I could listen to it again and again!

The author, Renea Mason is an incredible writer with such a wild imagination. I am amazed at all the ideas she comes up with. Her words are so well planned that just reading it in print is enough to make a girl swoon! Add into that factor the 2 perfect co-narrators, Noah Michael Levine and Erin de Ward into this picture and you get spontaneous combustion! These two narrators raise the bar in the audiobook world. The heat is at incredible levels and the action....OMG!!!

I really enjoyed this short story. I really love the characters so this was great to see them having fun and enjoying themselves. You get to know the fun side of the characters and it's another fun, hot steamy short story that will help hold you over to the next book.

This little novella is provides you with a little one-handed reading inspiration. After the stunning closing of

book two, this sexy scene really allowed a break in the tension before we get lost in the details of the conclusion of the series.

Xavier, Sebastian and Marco plan on showing Elaine the beauty of Paris from the comfort of the kitchen counter in X's NY penthouse. And it is crazy hot. Like, I'm not into food play with sex and the imagery that is created when a character titty-fucks with chocolate syrup and nutella isn't really that appealing, but fuck me, I was mentally creating a shopping list in my head.

A steamy hot as fuck read but as erotic as the series is, there is still this deep devotion and love that develops between these characters that ensures that this becomes more than just a fun smutty read. I can't wait to get back to the crazy world and find out how these characters will sort out the mess they found.

This is such a great series..... this short story quickie is quite possibly the most yummy of desserts to come across your table. With our favorite characters from The Good Doctor Trilogy Series.....Elaine, Dr. Vincent, Marco and Sebastian presenting some very hot sexy after dinner goodies for the kinky sweet tooth in all of us.

After reading this sumptuous tale you'll be craving to go back and read the rest of this panty melting series.....

This was one hot, sexy read and I loved it. Marco, Sebastian and Xavier allow Elaine to experience their own creative yet naughty version of Paris. I don't think I can ever get enough of these three gorgeous men - I'm literally left drooling lol.

What an awesome short story to give us a bit more of dear Dr. Vincent, Elaine, Marco and Sebastian while we wait for Surviving Doctor Vincent.

This story brings us a little more of what the 4 of them have learned about each other and what they want to learn about each other. The relationship that is building and how close can they really get. Leaves me wanting more and I can hardly wait for the next adventure to begin.

### **Caryn A says**

I believe that Paris is a very lucky girl! She's in love and gets pleased by three cocks, three tongues, and 30 dexterous fingers routinely. What more could a girl want?

---

## **Bobbi says**

The trio strikes again in this hot collection. Dr. Xavier, Marco, and Sabastian show Elaine what Paris is all about in their own special way. You are sure to get hot, sweet, and salty all in one taste of this book. This is just a small taste of what you can get with Renea Mason's books especially with The Good Doctor Trilogy.

## **Sarah says**

### **What a tasty little tidbit**

This novella is definitely packed full of hot steamy sex . Really it is just one elongated sex scene , but it is just a novella out of a richer tapestry of storyline about The Doctor and his love. It definitely can be read as a standalone though you will wonder who some of the characters are and how it all ties together and just enjoy the hot steamy sex or you can read it as a sideline with great pleasure as part of the series

## **MWLgal says**

No surprise here. Dr. Vincent and company kick up the heat and Ms. Mason does not disappoint. I like her writing style - very respectful of characters, the dynamics between them, great dialog, and yes there is that heat component. But you gotta have it all for success. Great series. Cant wait for next installment.
