A Quest for Treasure

With dreams of scuba diving in the relaxing warm waters of Bermuda, Kate Walker left New Jersey for sand, sun and surf. On her very first dive, however, Kate got much more than she bargained for --- she discovered sunken treasure. But when she went to claim her bounty, suddenly all the divers around her disappeared, and Kate found herself staring into a pair of hypnotizing blue-gray eyes! This diver wasn't familiar at all --- he wasn't wearing scuba gear and didn't have an oxygen tank strapped to his back! Frightened, Kate swam off in the direction of the ship she had dove in from, realizing too late that she hadn't even offered to share her life-supporting oxygen with the stranger . . .

The Prize of Love

Shipping entrepreneur Michael Sheridan couldn't believe his own eyes --- he found a mermaid at the bottom of the ocean! All of those ancient sea tales were true . . . even if this was the modern age and the year 1868, he now had reason to believe those old stories. She had fins for feet, a sleek body and the most exquisite flowing hair he'd ever seen. But as quickly as she appeared, she was gone, and Michael vowed to find her again. The underwater beauty became the object of his ultimate fantasy. He would seek the depths of the ocean to touch her skin, to kiss her lips, to caress her curves --- for once loved by a mermaid he would forever burn with Time-Kissed Destiny

First paragraph:

Bermuda, 1987

It was supposed to be her time. Her time, her friends and relatives had proclaimed-to live, to enjoy life. She deserved it, they had murmured comfortingly. She had been a good daughter. Looking about the lovely room, Kate Walker shook her head. They hadn't known her mother, not really, she thought as she made her way to the balcony overlooking Bermuda's Hamilton Harbour. Leslie Walker had been one hell of a woman, before her stroke, and even after. Gazing out to the lush scenery before her, Kate couldn't help experiencing a rush of relief. She was out of it ... all of it . . . for two glorious weeks. In the three- months since her mother's funeral, she'd listened to consolation, advice, and had even had to put up with her ex-husband's frequent calls. But not now... not now. Her well-meaning friends had been right about one thing though-this was going to be her time.

What a neat little gem of a time-travel romance. I selected this book because it was published in 1987 and would enable me to close out a long-standing reading challenge. I thought I might not like the 'dated' feel to the romance writing, but I was wrong. The character of modern-girl Kate Walker was a lot of fun, and her sense of joy and adventure and spirit really made this book for me. Granted, she pulled a couple of stupids, but then again, who wouldn't if they were transported back in time to just after the American Civil War? As usual with these types of books, a heavy dose of suspension-of-belief is necessary to survive the tale.

Quite enjoyable.

I'm sure I would LMAO if I read this today but I adored when I was in high school because the heroine goes back in time and is a con artist so she wins a poker match with the hero. But the hook that really got me was that she had contact lenses. Luckily they were near the ocean so she could use the salt water for her saline solution. That meant I could go back in time even though I had contact lenses! Yay!

This was the first time travel book I've ever read. The storyline is great and the characters were very likable. I would recommend this book for anyone who has a good imagination.

I picked this up in a used bookstore because I remember reading this ages ago, when I first discovered romances thanks to a naughty aunt. This was pretty dated and terrible, but it was fun to revisit for nostalgia's sake.

I WANT TO BE STRANDED ON A DESERTED ISLAND W/MICHAEL!

Constance O'Day-Flannery has lassoed me in & kept me under tight reins w/the rope, I've been snared in. In merely an hour, I read the first 100 pages, I've never read anything that quickly before. This novel will literally have you on the edge of your seat, capturing you're full attention until the very end. The connection & ignited fire Michael & Kate possess is absolutely breath-taking.

Even though this novel was written in "87" it's extremely easy to relate to. I've just bought other novels written by Constance, & I'm literally ecstatic to read them. This novel definitely DESERVES WELL BEYOND A 5 STAR RATING!!
