A hiker's dream bucket list is embodied in this lavishly illustrated celebration of more than eighty of the world's most iconic trails.

Celebrating the most important, popular, and diverse hiking trails in the world, this book invites readers to take a walking tour through the planet's natural wonders. Divided into six sections, the book groups trails by theme: pilgrimages, historic hikes, mountain hikes, wilderness trails, trails through diverse environments, and long-distance trails. From Mount Kenya to subarctic hikes in Scandinavia, and from exotic hikes in the Himalayas to more familiar trails in the United States and Canada, this book invites readers to explore the history, environment, and cultures of the world on foot.

Each featured trail has its own section, with a map and photo gallery focusing on what makes it one of the most magnificent hiking trails anywhere in the world. Included are detailed descriptions and trail highlights. This book is perfect for anyone interested in conservation, outdoor recreation, or the myriad ways that walking through a landscape is an intimate exploration of its soul.

I'm only 100 pages into this book, but it is so beautiful and well written that I already love it. It gives me the travel itch.

Angie Carter says

Gorgeous pictures, wonderful hiking trails. Makes me want to be outdoors now. However its more of a coffee table type book. The text meanders as you would on a trail. Still enjoyable.

Jim Blessing says

My wife checked this out and I picked it up for a quick read. Beautiful pictures of trails around the world. I have walked parts of several trails in the USA and one in New Zealand.

Leonard says

I didn't read every entry in this fine and irresistible book, but if you are in the least interested in hiking you won't want to miss this one. Very beautiful and informative.
