The Case for Catholicism: Answers to Classic and Contemporary Protestant Objections Trent Horn

This is the most up-to-date, comprehensive, and thorough defense of the Catholic Church against Protestant objections in print. This book is especially relevant as the 500th anniversary of the Protestant Reformation draws near and discussion of the arguments made against the Church during that time in history receive renewed interest.

The Case for Catholicism answers arguments put forward by early Reformers like Luther and Calvin as well as contemporary defenders of Protestantism like Norm Geisler and R.C. Sproul. It provides a meticulous defense of the biblical and historical nature of Catholic doctrines from Scripture and church history. Finally, in both answering Protestant objections to Catholicism and in providing evidence for the Faith, *The Case for Catholicism* cites modern Protestant scholars who question Reformation assumptions and show how evidence from Scripture and church history support aspects of Catholic theology.

This book is divided into four sections, with each answering a key question Christians have asked about the nature of their faith. Those key questions are:

What is my authority? What is the Church? How am I saved? Who belongs to the body of Christ?

The Case for Catholicism will become a reliable, resource for any Catholic who desires a well-researched, readable, and persuasive answer to Protestant arguments made against the Catholic faith.

Nancy Robinson says

Excellent

Point by point referenced to scripture and history. Valuable introduction to the various ways to interpret Catholic positions and Protestant objections. Well done.

John Swaringen says

Powerful and Revealing

I came at this book with an open mind having read similar books. None has been as exhaustive or logical as this presentation. It's defense of Catholic doctrine is very thorough. I'm still left with a few questions about Mary and Purgatory but beyond that I feel reasonably certain that Protestant objections are nothing more than attempts to be non-catholic. I feel as though I've been duped in some way for a very long time.

Jon Wisnieski says

Exhaustively researched. Some of his arguments were more convincing than others. This book really gets down to the nitty gritty differences (exegesis, syntax/translation of Bible passages, patristics, etc.) and so it was pretty cumbersome to read through. Better used as a reference book than something to read cover to cover. Nevertheless, it hits on almost everything. Karl Keating's Catholicism and Fundamentalism is much more readable though.

Herb Dulzo says

As always Trent does a great job proving the truths of the Catholic Church. Good read and great reference.

Rebecca The Files of Mrs. E, says

I really appreciated the way Trent Horn approached the major issues of disagreement between Catholics and Protestants and then offered very clear evidence for why Catholics believe the way they do. While he tackled historical debates he also answered questions that I have had Protestants ask me before. I think this book is great for those who want to grow stronger in their Catholic faith, those who want to be able to discuss their faith with Protestant friends more, and even those who are not Catholic but looking to better understand the church and why we feel the way we do.
