Epiphany: Part One Gemma James

His mahogany gaze haunts my waking hours. His touch ignites my dreams. I know him in intimate detail, but I've never laid eyes on him.

Until now.

I've always seen things I can't explain, but the reality of Aidan in the flesh blindsides me. His presence is a captivating force I can't fight. What's worse...I don't want to. He burrows under my skin and unearths my biggest secret, even as he hides his own demons.

Then he warns me away. Stubborn man.

I'm already in too deep, and if staying means I'm the next victim of the Hangman's noose, then so be it. Not even the threat of a serial killer can keep me away.

Part one of a three-part serial, at approximately 30,000 words. Intended for mature audiences.

I just finished reading Epiphany: Part One and all I can say is WOAHA! It is a dark, intense, shocking, addictive, raw, emotional, captivating read that once you start reading, you won't be able to put it down. The characters, the storyline and discovering all the dirty secrets suck you in and keeps you turning the pages to see how the story develops. Well-written, this book will have you on the edge of your seat. You'll have the questions piling up as the story unfolds with not one answer in sight. Looking forward to the conclusion of this story.

Wow. Never has a book actually given me goosebumps before.

Epiphany: Part One is an excellent start to the three part series that focuses on a heroine who has a power to see *horrible* things before they take place.

Can we just start with the front cover please?

Yep. B.E.A.U.T.I.F.U.L.

I always appreciate a book immensely when it has the ability to hook me within the first few pages and that's exactly what this book did. I was captivated into the lives of the characters instantly. The plot was original which naturally made me metaphorically sigh a breath in relief. Nobody likes to read carbon copies of the same book over and over again. What made me feel the most feelings i.e feelings of paranoia and made me have goosebumps was the writing. Damn!

Gemma James sure knows how to write those dark scenes well as hell. Some scenes are described in vivid detail and as much as it freaked me out, I loved it. It made the scenes come to life in my head that much more and I felt like I was watching a good suspense drama on Netflix.

The suspense got to me. Halfway through the book I was narrowing down my suspects of who I think the Boise Hangman is. The book ends with a cliffhanger leaving readers in a delicious torture itching to find out what happens next in the plot and between the main two characters Aiden (he's yummy BTW) and Mackenzie who have this insane chemistry between each them.

All in all, it's a great start to a dark suspense series

I was provided an e-copy of this book for an honest review. It's easy to give an honest review when you love what you read!

I just finished and I cannot wait for the next installment of this series!

Gemma keeps me turning the pages and anticipating what will happen next and when I think I know what is going on, she changes it!

Mackenzie is a student. She is an artist. She also has a deep secret. She sees things in her dreams. Not just things but murders.

Aidan is new in town. He seems to pop up everywhere that Mackenzie is. What does he want?

Murders begin to happen in their tiny town and Mackenzie learns some news about Aidan's past.

I love the mystery of the story. I love the dreams that she has. I am still very curious about the significance of the one

drawing she did and the jewelry that is included in that drawing.

Thank you Gemma for another great read! I wasn't sure what to expect when this wasn't in the genre I am used to reading from you, but

I loved it!

Another Gemma James Gem

I really loved this book, it's a very well written and easy to read book. I was hooked immediately from page 1, the story revolves around a serial killer and a young woman named Mac who has dreams of the killings, she also has had dreams of a handsome young man over the years and she wasn't sure he was real until she literally runs into him one night. she feels connected to him immediately. Its an exciting read that will have you guessing who is the Boise Hangman, I have a couple ideas of who it could be, im looking forward to seeing if I'm correct. Anxiously awaiting part 2 I can't wait to see what happens next. I'm really enjoying Mac and Aidan's budding romance too. Gemma James has become one of my all time favorite authors, she's not afraid to take a chance and break out of the norm.

I was provided an e-copy by the author for an honest review.

Loved it! It's a thriller and pseudo dark romance rolled into one...I'm in heaven. Actually, make Aidan (one of my favorite all time names) a vampire THEN I'd be in Heaven but I'm definitely free floating up there right now. I absolutely love the author's writing style. It just flows. Her characters are believable and like-able. Action that takes place is reasonable. I cant wait to start Book 2.... but I'm already late for work.

Good start to this series. I really like the way this is headed. I don't read a whole lot of thriller/paranormal type of books, but this one is written so well, that it immediately drew me in and I didn't want to put it down.

I have a couple other books by this author on my TBR list and I'll be picking those up once I'm done with this one.

Not what i was expecting at all. So this starts off so creepy like serious shivers down the spine, checking the doors of the house are locked kinda shivers. Then bam you go on a sort of mystery romance story with a hint of the paranormal. I say a hint of the paranormal as our central female lead has visions that are disturbing and kinda cool to the way the story goes. The introduction of a mysterious tall dark and handsome man adds a level of romance and intrigue that i rally enjoyed. I was kept guessing right up until the end as i was convinced i knew who this mysterious killer was, and i still have a sneaking suspicion of who the killer is but i will not give you any clues for when you read the boo.k. The ending of part one is seriously creepy i felt the rain on my face and the sweeping of the flash light as it finds that one thing you do not want to find was super heart pounding. Cannot wait for part 2 and wonder where the story will go.

Epiphany part one by Gemma James

Aiden & Mackenzie

GREAT INTRO TO AN AWESOME SERIAL!

I suppose I should talk about Epiphany, but to start out I'd like to talk about Gemma James. The queen of cliffhangers! She delivers such suspenseful stories with close calls, spine chilling situations, and white knuckle reading. I love her and I hate her all in the same breath!

Now for the book, Epiphany Part One. So I'd have to say this is a great intro to an awesome serial set. It has a little bit of everything. Suspense, tension, hilarity, great friendship, and even a little romance. I have to admit that after reading this one I literally wanted to throw my Kindle across the room... so have part two ready to go or you'll freak way the fuck out like I did. There's a serial killer on the loose. The police don't really have any leads and there's no rhyme or reason to his methods of killing at this point which is driving me in-fucking-sane!

Mackenzie is all kinds of awesomeness. She's young, she's gorgeous, and she dreams of real life events... like REALLY dreams (or has nightmares) about some scary shit. Seems to me that in itself would scare the shit out of me but not Mac, she embraces her gift. I firmly believe she uses her talent to help others even when

she really doesn't want to. She's had a rough past but with time and good friends she's moving on. When she finally meets Aidan in the flesh and not in her dreams, things start to change for her. I'm not so sure the changes are welcomed or dreadful at this point but I'll keep reading and find out.

Aiden on the other hand is all kinds of fucked up. He's very mysterious and at the same time a little intimidating. I know he's hiding something, but what? The way Gemma describes Aiden to me feels like if you could look into his eyes you see so much pain and hurt swirling around. He's a man on a mission and nothing and no one is going to stop him from completing that task. Not Mac and definitely not the police.

Great supporting character cast... Six, oh Six... I love that chick! Everyone needs a girlfriend like her. She's someone who can take you from 0 to 60 in 3.5 seconds flat and have you giggling the whole time. Even that Christie was a great supporting character despite the fact that she was an uber bitch and I wanted to put Nair in her shampoo bottle. She just makes the story that much more interesting. Now for the rest of the gang... Brad, the Sheriff, and the rest of the crew that throw 'em back at The Pour House.. I can't wait to see what happens... squeeeeeee!

This opening novella is just right. The pacing is fast and pleasing. The dialogue flows with ease and the characters are very relatable. There is no climax just yet, you have to keep reading to get to that, but this build up is excellent and killing me by the way... Thanks Gemma!

ARC provided by Gemma for an honest review... I'm sure she just wanted to torture me... Thanks hooker!!!

popsugar challenge: a mystery or thriller.

This book starts with a great attention getter!

Mackenzie has visions. unfortunately the recent ones are of a murdered girl. she hopes they're just a bad dream but they're not.

being shy & new in town shes at a disadvantage of recognizing/meeting people so her friend Six helps. She meets Aidan...which shocks her because she's had visions of him for quite some time. when trouble starts to happen too often around her, Aidan steps in.

anything more then thar may ruin this quick read, so i'll stop.

Linda says

Mac is tormented by the dreams that shows her the Hangman's murders. When another dream of her comes true, she doesn't know what to do.

Aidan is new in town, but Mac has seen him in her dreams before.

Can she trust him? And what is his secret?

Quick read, suspense, gruesome, thriller and smut. Need the next books asap! *grabby hands*

The first serial in a three part series, this book definitely grabbed my attention and kept me on the edge of my seat. At only about a hundred or so pages, this serial can be read in one sitting. Suspenseful and mysterious, it will keep you guessing the whole time. Of course, it is only the beginning of this story, so you can expect to be left hanging.

Mackenzie has seen glimpses of the future in her dreams ever since she was a little girl. When her dreams begin taking on a more sinister nature, she realizes that she's witnessing the crimes of a serial killer play out before they happen. As the bodies start adding up, the murderer continues to remain just out of her grasp. Her dreams taunt her, never revealing enough details to help her pinpoint the murderer, but just enough to torment her every night.

When a man that she's seen in her dreams for years walks into her life, she can't believe it. She is immediately taken with the handsome stranger. Also looking to bring the serial killer to justice, for his own personal reasons, Aidan and Mackenzie quickly form a bond.

However, the killer seems to be targeting Aidan and getting close to him might prove to be Mackenzie's biggest mistake. As the victims start getting close to home, Mackenzie worries that she is the killer's next intended victim.

Overall, I really enjoyed this suspenseful serial. It wasn't as dark as I had anticipated, with only a few mentions of the serial killer's crimes. I anticipate that the story will get much darker as it progresses, but so far the dark elements were limited to an impending sense of doom lurking in the background. I will definitely be continuing this series and can't wait to see how everything plays out. So far, a great start to this story.

I'm hooked....

I was just gonna take a peek at this Gemma James serial after reading Vagrant and Fervent....

Well crap, lol now I'm hooked on another series...

I really like Gemma, she has such courage I think to write about some of the more violent side of life, but you, well I get really invested in these characters. You really begin to "feel" for these people.

Only really good authors can do that for me.

Thanks again ...Gemma you rock!
