Short story. Very well written and well edited, which you don't find often in some of the shorter, free books. Realistic plot which is enjoyed - no witches, magic animals, etc. The Easter Bunny is murdered, but is it a case of mistaken identity? The search is on to find the killer who shot the Bunny full of arrows! Good story!

This was a very interesting story . Chloe solves another murder and this was a strange one indeed. I love the way Chloe thinks through a murder. And she has some talented help between, mom and dad and Alex her husband. I am enjoying reading about Chloe's adventures. This time the victim is dressed in a bunny suit for Easter and is murdered by a arrow.
