**Ascension!: An Analysis of the Art of Ascension as Taught by the Ishayas** Maharishi Sadasiva Isham

This book clearly explains the teachings of the Ishayas, an ancient order of monks who were entrusted by the Apostle John to preserve the original teachings of Christ until the third millenium.

The Ishayas hold that the original teachings of Jesus were not a belief system at all, rather a mechanical series of techniques to transform human life into a constant perception of the perfection within the human heart. Real expansion of consciousness occurs only through direct, personal experience.

Ascension! is an invitation to awaken to the innermost Reality of your true Self. This text also includes a description of the Ishayas' 27 Ascension Attitudes.

Ascension! An Analysis of the Art of Ascension ISBN 13:978-0-9843233-0-2 ISBN 10: 0-9843233-0-9 LC 95-061427 (Old ISBN: 0-931783-51-8) This short book succinctly informs of the True Nature of Reality while describing the spider web woven by the mind that keeps one falsely separated from That. While the concepts are not new, they are more profoundly, clearly and plainly stated than I've ever seen. MSI predominately emphasizes the power and authority of one person's choice in changing the entire universe. That each person and each choice they make is the only factor that can change one's reality.

### **Brad VanAuken says**

This is a short and easy read. There were a couple of typos in the Overview. Don't let that dissuade you from reading further. The book is full of insight on the nature of reality and the underlying conditions necessary for entering into unity consciousness. This is a gem of a book for people interested in living in unbounded presence.
