For those who enjoy the literary side of science. Excellent choice of essays and excerpts to include. It helps if you know a little bit about a lot of different science fields. The quantum mechanics and relativity are probably going to be the most challenging for most people.

Vasha7 says

A really excellent job of choosing the selections. I've been repeatedly dipping into this, and rereading it, ever since I got it.

Mümin says

Tarihin farklı dönemlerinden bilimsel yaz?lar? bir araya getiren güzel bir seçki.
