Loving Styles Lynn Hagen

[Siren Everlasting Classic ManLove: Erotic Alternative Paranormal Romance, M/M, werewolves, shape-shifters, public exhibition, HEA]

Styles hated wolves with a passion. They had been nothing but trouble to him since he was a small pup. It was wolves who had killed his parents. It was wolves who had messed with him in his young adult life. So when fate decided to give Styles a wolf for a mate, he finds himself at a crossroad, uncertain of which road to take.

Robby was determined to make Styles his. He knew about the coyote's tragic past, but he wasn't going to let that stand in his way of going after what was his. The harder Styles pushes him away, the harder Robby fights to get near the man.

Loving Styles is easy, but getting the man to tear down his walls is proving tough.

When someone breaks into Robby's house, trashing the place, Styles agrees to let Robby stay the night. He had sworn that all wolves were his mortal enemy, until Robby touches a place Styles thought long dead.

His heart.

I love Robby. He's sweet and hilarious and strong. No angst with him so far. Oh wait. Yeah, he goes from little alpha male to typical little mate within a few chapters.

That first message seems like the opposite of what to send to someone scared of wolves. It kind of sounds like he's going to claim him (rapey) and take him now matter what.

No helmet? So not sexy.

Carnations, the flower of funerals, would definitely be the wrong message.

Oh that was hot.

Christian's second is Christo. That's asinine. Couldn't come up with another name? This happens all the time with her books such as Kenway and Kenyon, both being ongoing characters with one being evil.

[What would have happened if Styles just left? Said fuck Brac Village and took off? If only for a little bit. Would Maverick had gone after him? What if he said hate instead of mate? What if he renounced his claim? I find it hard to believe he had a change of heart so quickly. Not saying I don't love Styles and Robby. I do. I just kind of wanted a little more resistance from Styles

Well, the title pretty much says it all. Styles is a coyote shifter who hates all wolves due to the fact that wolves had killed his parents, and have caused him grief throughout his life. Naturally, Robby is his mate, but also a wolf shifter. Poor Robby fights like crazy to break through the walls of hatred that Styles refuses to let down. Robby was funny and imaginative with the little ways he tried to romance his mate. I loved it when they finally mated and began to deal with a common threat to all paranormals, and Robby in particular.

Again with the human hunters (which I so dislike), but in this case, that's okay since the story focused mostly on Robby and Styles. For the record, unlike many readers, I seriously don't mind insta-lust, or insta-mating , (or at least getting to know each other earlier on) in the plot simply because I enjoy seeing the mated couple facing the world together, instead of having to wait through most of the story before they can even have a conversation. I really don't like the slow burn. With that being said, Styles had so much to deal with, or work through, but the ending was so sweet and totally enjoyable. =)

4.5 Styles and Robby were so cute. Styles was a werewolf hating coyote. He had to earn Robby's love.

A friend asked me why I never give up on anything that involved Brac. To answer frankly: I love anything Brac. It was one of the first MM romance books I read and Lynn Hagen is actually one of the major reason why I decided to seriously look into this genre and from her I got to discover and read the other MM authors, some of whom have become my favorites. As for anything that involves Brac, let me just say that this is one arc that has developed in such a way where new things fantastical develop, some not so well, some very well, and has been the basis of some offshoots as well as the development of the Brac Village Website which I go to often to while my time away and imagine. It is also a great way to imagine how my interiors should look like so I do use the images on a personal level.

Brac Village as a series is an offshoot of Brac Pack and is one that I follow and read. So yes, I am a fan and it is a great series to while the time away to relax in bed. It is filled with gorgeous men but then there are some I cannot personally stand which makes this series all the more interesting.

In Loving Styles, we have this cayote who does not hunt his mate and instead attempts to reject him. Robby,

on the other hand, is one wiley wolf and goes on ahead to woo his mate. It is one of the more romantic and funny efforts I had ever read. I wish men were like Robby, never giving up, all alpha and yet sweet and romantic and funny. Holding a fried chicken hostage and making sure the FBI does not get to know the whereabouts is just an example of what I wish men were in reality.

So yes, I am a big fan of Brac Village. That should answer my dear friend's question. And yes, I have read all the Lynn Hagen books, whether I do manage to write a review or not. And yes, I will continue to read her works for she is one of those authors who does manage to make me always smile at the end of each page.

This was one of the better ones so far in my opinion. Styles (one of Kenway's friends) has had tons of bad experiences with wolf shifters and therefore reacted pretty badly when meeting his wolfy mate. Robby, a Wolf shifter is bound and determined to win over and wiggle his way into Styles' heart.

I liked the way Robby went about courting Styles. Robby has a hilarious personality! I feel like this story was more focused on Styles and his issues with wolves. We learned so much about Styles but not as much abt Robby's background. This whole book was basically Robby trying to get Styles to admit his feelings and separating his hatred for 1 group of wolves as opposed to the entire species.

But despite my feelings of lopsided-ness in this book I think it was really good. Romantic and a great display of getting what you need as opposed b to say you think l you need....

Styles gave in way too early.

Honestly, if you have never read the previews stories from any the series this author has released, don't even bother to read this one, you will think this doesn't make any sense at all.

This series is for those who really enjoy this author's books, and to get the story line you need to be quite familiar with many of the other books because sooner or later those characters will show up also in here, very confusing for a beginner, but for us, who got it all work it out and we are familiar with all the books, this is something we look forward to read.

Another great sequel that I highly enjoyed.

I recommend it only to those readers who like these series, and are familiar with Brac Pack (32 books)

Christian's Coven (7 books)

Brac Village (15 books) and the list goes on and on :)?
