## From Reader Review Strangers on the High Seas for online ebook

### LeighAnn says

This is the 4th book in the Captain No Beard Series. Captain No Beard isn't too thrilled to have little Cayla on board today. (Isn't that an adorable way to spell that name?) He thinks that she's just a baby who doesn't know a thing about being on a ship or being a part of the crew and that she'll just get in the way. A strange ship with black sails and a scurvy dog approaches and the crew becomes worried. Little Cayla may just save the day when she does her duty. (Pun intended!) ;)

I am in love with this series so far. From the fun but meaningful messages to the wonderful and colorful illustrations, it's sure to put a smile on everyone's face. This story teaches children that they shouldn't speak to strangers and to be accepting of people, no matter how small or inexperienced. You may find help in the most unexpected way or places. The person who is small, doesn't know anything and is a "nuisance" may just save your butt! This was an adorable book that had my kids and I laughing. I know they'll be wanting to read this one again.

### Susan says

"Strangers on the High Seas" is the 4th book in the "Captain No Beard" series, and once again we find our captain and his crew on another journey. In this book we welcome a new crew member "Cabin Girl Cayla". Ms. Roman pens this installment as a valuable lesson about strangers and how not to judge others by their size. The story flows nicely with colorful images to keep the reader interested. Highly recommended for all young readers.

This review is based on a complimentary copy from the author which was provided for an honest review.

Captain No Beard, Mongo, Linus, Friibbit, Polly and First Mate Hallie have a new Cabin Girl on board, the Captains baby sister Cayla!

But there's trouble coming to the Flying Dragon - a black sailed Pirate ship owned by Captain Barnabas the Scurvy Dog and his motley crew!

Guess who saves the day!

These are great little stories for boys and girls.

### **Shannon McGee says**

Captain No Beard has a new crew member named Cayla. As he keeps his eye on her a possible stranger/enemy pirate ship come into view.

It's been awhile since I have a read a Captain No Beard and there were somethings I had forgotten my first read through of this 4th book in the series. I had forgotten that the captain and his mates were children pretending so when I first read I was confused. Now I have read it a second time and I would said this book and series are really cute and are well written. I think it would be well liked for boys and girls.

I love the watercolor illustrations although I feel like there was a couple of times I could not figure out if the images where saying the same the words were but that might be my adult eyes going.

I look forward to reading more Captain No Beard stories. I could also see this series becoming a cartoon in years to come.

### **Gayle Pace says**

In this fourth book of the fun series CAPTAIN NO BEARD has no beard, of course. The Captain is only a young one using his imagination to go about his adventures. All children will like this book because all children use their imaginations to start new adventures. Children will learn while enjoying this book. Anytime they use their imaginations they are learning. The author makes learning fun. Captain No Beard is actually Alexander. He is babysitting Cayla, she is the newer member of his crew. He has made her the cabin girl. She saves Captain No Beard and the crew .

I give this book 5 Stars.

I received a complimentary copy of the book from the author, Carole P. Roman for this unbiased review.

### **Patricia Kemp Blackmon says**

Captain No Beard is on another adventure on the high seas. There is a new crew member on the ship, Cabin Girl Cayla, she keeps everyone busy making sure she stays safe. When she is not in peril Cayla puts smiles all of the crews faces including Captain No Beard's.

To Captain No Beard's surprise a strange ship threatens to overtake their ship. But the his crew is loyal and known for working well together and this time they have new special weapon. Being a Captain is hard work, but duty calls! No matter which way the wind blows.

The author has a big winner in this story. This has to be my favorite Captain No Beards so far. I laughed so

much it brought me to tears. I love the new character Cabin Girl Cayla and the surprise weapon was even a surprise to me. The illustrations were right on with the story as always and the cute depictions of Cayla were a major plus in my opinion.

I highly recommend this book.

I rated this book a 5 out of 5.

Disclosure: I received a free copy of this book from the author/Bostick Communications for review. I was in no way compensated for this review. This review is my honest opinion.

### Education:

The book is just like the others in the series. It's not too long nor too short and the story was cute. For the education value it didn't have too many new words for my little cousins to learn but it was fun for them to read through. Though there were no important morals for the kids to really learn about, it did give the kids an impression that they should play with their little younger cousins a little bit more often and that playing with kids of younger age isn't a boring or gross thing to do. So even though the educational value of this book is low compared to the other books in the series it is still a good story that my little cousins enjoyed reading.

### Pictures:

Since this book is apart of a series the pictures were similar to the other books. They're all bright and colorful and the kids love looking through them all. This one was able to keep their attention for about 20min which in my book helps a lot especially when you just want some quiet time.

### ??Storyline:

The story line was really cute and the ending had my little cousins laughing hysterically. It had Captain No Beard playing with his little cousin which I found helpful because when I was talking to my little cousins about playing with their younger cousins on an upcoming play date they were a bit wary of playing with them since well their younger cousins are still toddlers and toddlers tend to break things and droll a lot. But this one book really made them excited about their next play date which I'm thankful for.

### ??Binding:

Note I'm writing the same part that I did for Captain No Beard and Pepper Parrot's Problem with Patience because they have the same binding as this book.

? The binding is pretty good. It is a lot sturdier than it looks and the book did survive through a lot of little hands. So hopefully this book will last for a while. Plus the book is thin which makes for easy storage. You get a great book for a good price without having to use too much space to store it which we all know that we need space especially when there are so many little ones around constantly making something or bringing something home.

## **Lauren Monsey Nagel says**

Here is a wonderful story about the journey of imagination and 3 small children Alexander, Hallie and Cayla. They have a delightful adventure on a ship called the Flying Dragon where they are better known as Captain No Beard and his cousin, First Mate Hallie and the newest member of the crew, Captain's sister Cayla. Children will love hearing this story and the pictures are very colorful and fun. There's also a few lessons that children will learn about getting along, loyalty and strangers. There is also a bit of humor that children will be able to relate to and laugh about. Fun book for parents as well. This book is volume 4 in a set.

## **Sarah says**

Another wonderful Captain No Beard book. The illustration in this series really make the books come alive. And we love all the different characters and the way they add to the story.

## **Vera Godley says**

Taking inspiration from the "pirates" in her own ship, author Carole Roman brings us book four in the series Captain No Bear in which the newest member of the crew, Cabin Girl Cayla, is introduced. It doesn't matter that she is still in diapers and is the "littlest" one on board she is important and plays a major role in the outcome of the story.

Prepare yourselves, me Mateys, for a hilarious adventure that is sure to tickle yer innards. The introduction of a new ship sailing their seas and threatening to overtake their ship brings adventure. But Captain No Beard's new crew mate, Cabin Girl Cayla, has a secret weapon and the ship is saved to sail again.

Again the children, Alexander (Captain No Beard), Hallie (First Mate), and stuffed animals have sailed the high seas of the Alexander's bed adventuring as pirates who are learning to save the day, help each other, be considerate, etc.

#### My Review:

Strangers On High Seas is the fourth book in the Captain No Beard series. The author has once again written a action packed adventure that is sure to draw the interest of anyone whether its a child or an adult. These are fun little books that could teach us all a thing or two about getting along with others.

This addition to the series welcomes more people on the crew of the Flying Dragon. We see Cabin Girl Cayla that gets real close to the edge of the ship to admire the dolphins.

It's not long before we are also introduced to Bamabas, the scurvy dog which just happens to be the captain of another ship called Shark Bait which is bearing down on them. And this ship doesn't look very friendly at all. But soon the newest crew member steps up to help her fellow crew members in a tale that is ure to leave you laughing.

I loved how this book ended. I was laughing so hard I was in tears.

## **Autumn says**

We received this book to give an honest review.

We have fallen in love with Captain No Beard and his adventures with his mates. With this story we had a good laugh especially at the end with Captain No Beard's new crew member. Normally with this series you get a moral of something within the story. With this one you don't. But it was great to see that Captain No Beard had to play with his younger sister, (which is awesome because K has a younger sister that he doesn't like to play with often) so it was nice to show him look Captain No Beard is playing with his sibling. Even though he doesn't like it, he still does and he even has fun!

K loved the whole book but we both laughed when Captain No Beard says, "Mom," he yelled in his best captain's voice, "Report to the poop deck."

If you haven't read this series yet I highly recommend you pick up this series and see what all the laughter and good story telling is about.

## **Mary says**

Whenever Alexander and his cousin Hallie hop on Alexander's bed to play, they become Captain No Beard and his fearless pirate crew of 'The Flying Dragon'. They set sail for a voyage of imagination as First Mate Hallie, Mongo the Monkey, Linus the loudmouthed lion, and Fribbet the floppy frog - who are in reality, three stuffed animals. Together, Alexander and Hallie sail the seven seas in a magical vessel bound for dangerous and exciting adventures.

I must say that I enjoyed reading these books. They were quick reads for me and overall, I would give the entire series an A+! In my opinion, this series would make a great gift for children. Each book teaches children valuable lessons such as patience and tolerance; sharing; responsibility and cooperation; being a good friend and what to do when meeting strangers.
