Orlando

Crystal Spears

Orlando Crystal Spears

He was no good for me, I knew that. Something about him called to me. If he were a merman he would beckon me with a siren call. Orlando and I have played this game of tug of war since as far back as I can remember.

He wants me, I want him and yet we do nothing about it. But when we graduate high school and go our separate ways and I'm on set and he's sitting in the producers chair; I run as fast as I can but it just wasn't fast enough.

He knew I was an actress but he had no idea I traveled overseas to work in the porn industry and I had no clue he did as well.

There's just one small problem. He's married, or in the midst of getting a divorce. I won't believe it until I see it, so until then, he's just my boss and I'm just his hired porn actress.

I've thought about quitting this job and just going back to the states early, but that one damn name, the one that flows off my tongue keeps me here.

She says

2 stars.

Ah wasn't good enough. Bad story. Bad characters.

Vicki Smith says

Oh dear!!!! Awful!

Crystal Spears really needs to take this off the market and rework it! What a load of old tosh!

I have absolutely loved everything written by this author (ev-er-y-thing!) and have been chomping at the bit for this book to come out, as it should have been another amazing story. I mean it was all there, so WTF happened????????

I understand that this is the first part of 3 but come on, it felt rushed and weak. No real build up and the background info on Orlando and Friday just felt glossed over. I feel like I just read someone's basic idea of what a story should be as it just has no depth! Don't bother wasting your money. This could have been so good and I am saddend and utterly disappointed. Generally I only leave good reviews but this was so awful just couldn't let it be.

Will I read other works by this author???? Yes, but unfortunately she is no longer an auto buy for me. Will always read sample first now! Shame.

Andrea Doss says

Great story

Butterflies, Books & Dreams says

Oh sweet Orlando... Protective, possessive of his childhood best friend, which he is also very much in love with.. Why did he not give into Friday sooner.

♥ Tila Grey Maddox ♥ says

Never read a book before where the heroine is a pornstar. And this is DEFINATELY going to be on my TBR :). I also love the freaking cover, Hot much ;) x

Rachel Riley-meek says

Meh

This was a very short story that I could have lived without reading. If you are trying to fill 30 minutes of your day go for it otherwise I would pass. Especially if it had not been free.

Claudia Tobias says

It was a really cute story, totally different from her breakneck series.
I did like it a lot finished it in about an hour i felt the ending was a bit rushed.

Jessica says

Liked this book excited to see what part 2 has in it. Great story line

Andrea Huseman says

Crystal Spears gave us an amazing 5 star treat with this one. One price(low price) buys the whole series. Click the initial book/novella and as the other installments become available they will automatically be downloaded to the ending of previous one. So one price- one purchase- whole series!
I love when an author steps outside the box. When the norms and expected takes a turn for different and unique. This is a excellent example of that genre switch up.
Don't expect a long read. It is written to be short and quick. So details and background may be limited and vague. Each installment continuing from the previous one.
An intriguing and interesting storyline. I was so engrossed and literally couldn't put it down. It was love for me!!!!!! I now have a brand new book boyfriend!!!!!! Well,I felt an immediate attachment to all the characters. They were well written and played vital support to the story.
I highly recommend this emotional dramatic read. Yes, there is romance but it sure isn't easy. The boundaries of friendship and loyalties are stretched. I was so not ready for it to end. I can't wait for the next. Please hurry.. AndreaAH

Sue says

I am a huge fan of Crystal Spears Breakneck series so when I saw she was writing a serial about an actress making a porn flick, with her longtime friend/childhood crush directing it...it looked so fun I had to give it a try. Not only is this a really short and sassy serial but the author is doing something nobody else has done before...adding on the next two books in the series to this first one for free...so when you buy the original here like I did, you will get an updated file as she finishes the next two. Genius idea and so generous since too many authors nowadays make you buy each tiny installment separately!
I laughed and generally had fun with this one...it's not really a serious book at all but does have a little blackmail storyline to go along with the romance...and some sexy time as well. Orlando is unlike her biker books in that it is not explicit and crude, no bloody violence (yet...who knows what's coming in the next two books) and reads very quickly...most of the book taking place in real life and some parts being the film script and action on the set.
For a fantasy change of pace...give it a try and watch for the additions to be available for your kindle.

***** 4.5 ***** "ORLANDO is more than a fun place to go" stars

Patrycja says

I'm in serious cover and synopsis love <3 Porn actress, boss and second chance romance?! Wow.

Christine says

Well this was pretty interesting! Some serious drama and some sad time-wasting situations but still pretty good to read.

Linda says

Another awesome read by Crystal Spears. I think Orlando and Friday are going to be explosive. This was a short read but awesome. I can't wait to read more about them and what will happen next.
