Holiday Roommates

Tere Michaels

Holiday Roommates Tere Michaels

Nate Brandywine is an actor without prospects in need of an emergency roommate for the month of December. In the middle of a humiliating gig as a Christmas elf at a NYC department store, he meets Sean Callahan – his producer – a man struggling under the weight of a loan coming due and desperate for a place in the city for a few weeks. One month of sharing a workplace and an apartment with someone you can't stop flirting with? Maybe this isn't going to be a terrible holiday after all.

Katharina says

4.5

Let me tell you, I enjoyed the heck out of this story. I really really did. And I'm not even a hundred percent sure why, because, to be honest, there were several little things that bugged me. One, this story is in further need of editing or at least proofreading. I can deal with tiny little spelling mistakes and such every now and then, but here I also found missing words and swapped names and something like this really bothers me. To be fair, it didn't happen often, but even the few times it did made me decide to round this thing down. Sorry, this is pedantic me speaking.

And, also, yes I agree with other reviews that this story felt a little bit drawn out at times. Some shortening here and there would have done the story some good.

Despite this, though, I still LOVED it. Probably mostly because of Nate and Sean - they were just adorable and lovely and so damn hot together. And I had such a big smile on my face when I finished reading the last page that anything but a 4+ rating simply wouldn't be fair.

Recommended? Hell yeah!

Heather K (dentist in my spare time) says

My favorite Tere Michaels story to date! Light, sweet, and romantic, this will be a win with almost every reader.

I adored this little story about two cute guys trying to make it on their own in their chosen professions. It took place in my neck of the woods (New York City) during Christmas season (snuggly and cheerful, check!), so I was pretty much guaranteed to love it. However, Tere Michaels really went above and beyond with this one. Though the plot was a little... sparse, the guys were so adorable that I didn't mind any other flaws.

The best part of this story was the banter. These guys flirted mercilessly with each other, and I loved every second of it! Tere's sense of humor came right through: This was a super funny, lighthearted read.

An easy win.

Lauraadriana says

Goodness! How had I not said anything about this story?!?! Completely and totally delightful and so full of NYC brand of Christmas Cheer/Magic. These guys were funny, and dear and so SEXY!!!

I hope there is more from them! PERFECT holiday story.

Bev says

Well, I really liked the story and the two MC's Nate and Sean. I liked our latter day Father Christmas Phil, and his efforts to help the two guys out with their money/job problems. What I didn't like though, as Susan has said in her review, was all the chopping and changing of POV's, typos, sometimes I thought I had a page missing or the download hadn't worked properly as the next paragraph started with something completely unrelated to the previous one...it was weird...BUT, as I'm still in the Christmas spirit, this one get 4 stars.

4.25 stars

I really enjoyed this holiday romance. The MCs, Nate and Sean, were very likable. Nate's sense of humor and snark kept the story light and fun while Sean's serious, almost obsessive, personality gave the story depth.

I had a few niggles, mainly the editing (or lack of) but that was more of an annoyance that really didn't impact the story itself.

This was drama lite. The romance was sweet. And the sex was hot but not overdone. I'd recommend it to most anyone.

Heidi Cullinan says

I think by now the word is out that I'm a sucker for holiday romances: I have a pile of them on my Kindle waiting for that magic moment when I have everything turned in and all the holiday prep finished and I can indulge. I'll admit I snuck one in early, because how do you not read in a Tere Michaels novella when you know it's there? I'm so incredibly glad I did: Holiday Roommates is sweet, hilarious, and heartwarming.

Essentially this is classic Michaels but with a flirty, light-hearted holiday twist. The sexual tension you count on from her is present in spades, but so are elf costume crises, some seriously killer flirty banter, and a wry and managing Jewish mother (and sassy grandma) you must read to believe. In addition to the "when will they?" suspense of the romance, we witness Nate's struggles as an actor and Sean's as a budding producer. I think my favorite part of the story was the resolution: I worried when I started there was no way for everything to work out and still be believable...but I should never have doubted it, because Tere totally pulls it off.

Do yourself a favor: buy yourself (and your friends) this Christmas story. You can purchase it right on her website—Here's a distribution note from her website. "Right now we're only offering a PDF version; when the .mobi and .pub versions become available, just contact the site and you'll receive whichever version you want (with proof of purchase of the PDF) at no additional cost."

Also from the website: "I hope you all love Nate and Sean and their crazy circle of friends and family. I hope you want the story to continue – because they'll be back for Valentine's Day! As a reminder to myself about what matters in the coming year, I will be donating 25% to The Trevor Project, an outstanding non-profit which offers outreach to LGBTQ youth struggling with suicidal thoughts. When holiday donations have dried up, I'm looking forward to gifting TTP in January to shine some light on their winter doldrums!"

Everyone wins! Go grab your copy of Holiday Roommates today.

OKAY. 2 things: A) I HATE holiday stories. They're too short, too easy, yadda yadda. So sue me, I'm a curmudgeon. B) I love everything Tere Michaels does EVER. So I'd been desperate once or twice for something to read (I read entirely too much and way too fast to have a big backed up TBR list) while waiting on new books to release and all that really was coming out were Christmas stories so I may or may not have grudgingly picked up one or two. As usual, they were too short, too sweet, yadda yadda but they weren't horrible. So Tere announces this one (and apparently i'm the ONLY author who didn't do a Christmas or Hanukkah story this year) and my love of her writing forced me to read this one. First, I was pleasantly surprised that this one had a decent length. Yeah, it was sweet, but it was sweet in the down-to-earth way that all Tere Michaels stories are and I have to say I fucking LOVED this. So congratulations Tere, you made the Grinch smile....once or twice. Maybe.

Once again, TM delivers with this holiday story. Funny, cute & sexy...much more light-hearted and whimsical than her usual fare - but no less entertaining!

Eli Easton says

Lovely Christmas romance from Tere Michaels. The story revolves around a Christmas show at a store in Manhattan, a discouraged out of work actor who plays Jack Frost, and the nearly-bankrupt production manager of the show. The banter-y dialogue is clever, the kitschy Christmas show theme a lot of fun, and both characters find each other as well as an HEA. Loved it.

Trish says

You know what stinks?? I'll tell ya.....(not this book so don't even go there!)

What stinks is....you know you did a review for a book and then BAM! it's still in your TBR bookshelf. Wth???

Grrrrr...

I read this as soon as it was released and thoroughly enjoyed it (couple of editing thingies but no biggie)

Great Holiday read but you don't necessarily need to wait for xmas to enjoy it. :D

Candice says

A light hearted holiday story. Both MCs were likeable, but I really enjoyed Nick, he is just one of those characters that makes the story.

Isabel says

Beautiful and sweet holiday book! Nate and Sean are beautiful together, even when their lives are in a dire straits situation! But they find a way to help each other, and overcome such a difficult times!

Ann says

This was exactly the warm fluffy deliciousness I want at the beginning of the season.

I always start the holiday season with catching up on a couple of older stories that I've had for way too long and not read. I regret not reading this one sooner. It's just lovely and put me in the mood to read more.

Anke says

Nice story, after initially having problems to connect with both MCs it got better, only in the end it felt too drawn out. Nevertheless I liked it.

Susan says

When a book has characters that you love and a relationship that makes your heart warm, it's easy to love it and to overlook the rest.

I loved Holiday Roommates for 3 simple reasons: Nate, Sean, and Nate&Sean.

Nate is adorable and sarcastic and flirty and fun. Everyone likes Nick – and it's not annoying because, well, he's an awesome guy. He's fun, he's kind, he's talented, he's friendly. So, yeah, count me among the everyone.

Then there's Sean – carrying the weight of the world on his shoulders, perfectionist, trying so hard to prove himself. Doing what he can with what he's got to do what he wants...and how do you not respect that?

When you put Nick with Sean, the smile comes out and the heart expands to fullness. They have the cutest banter and flirtations. The attraction is there from the beginning but the relationship takes a bit to get going and I liked that slow build. They're committed to one another and have each other's backs, and I'm a SUCKER for that. And they're hot, but FUN together too.

The story? Well, it's ok. I liked it despite being a tiny bit all over the place. And the book really needed an editor, with lots of typos and spelling errors (at least character names weren't misused! Whew!). And the alternating POV's mid-chapter were, frankly, confusing at times if you weren't completely paying attention (which I'm known not to be, sometimes...)

But honestly? Who cares! I barely noticed any of that because I just wanted to keep reading about Nate & Sean. And I barely noticed that this, in terms of a holiday story, is actually quite long. ...but to that, because of Nate & Sean, I say...YAY!.

Proceeds of this book are being donated by the author to The Trevor Project...and that in and of itself is awesome. But, if you want to read about a couple that will make you smile, give it a go!
