The Boat Thief

Fisher Shoemaker's adventures all started one early summer night. As he was walking home his head was in a fog spinning from an unexpected very first kiss. Ahh...Sara Banks, he thought. Not paying attention to things around him, he stumbled into a back parking lot when he realized he was witnessing something that didn't look quite right. Two men were shoving something large into the trunk of a car. Suddenly they spotted him! He sprinted for his life taking cover in his hideout down by the water's edge. But whoever was chasing him sooner or later would surely find him; he needed to get as far away from Trent Harbor as he could! Living in Maine, just off shore, there were many islands where a boy could hide, but to get there required a boat. He knew just where he could "borrow" the perfect little sailboat to get him there.

Midnight Screeches

In the second installment of Fisher's adventure, he's now fourteen-years-old, and is excited to go to summer camp in the Maine woods. What's different about this camp is they teach survival skills to boys then send them deep into the woods among the mountains to see how they fair with nothing more than a jackknife, tarp, and a piece of string. They need to rely on everything they have learned if they want to succeed. Fisher has acquired all the skills he needs to survive in the wilderness - except one; how to deal with the geeky kid he's been paired up with. The kid has no business being sent to survival camp, but now he's Fisher's problem. Soon, though, that becomes the least of Fisher's worries.

Once they arrive at their wilderness campsite, things begin to happen that they can't explain. After a challenging night they find themselves staring at something they we not expecting to see – does anyone know it's there? Should they tell someone about it? Was there something alive in the wooden crate? Then things get even stranger. They're not even sure they accept what they are seeing, but if they were to tell someone surely no one would ever believe them; they are just dumb kids, after all. Fisher's girlfriend, Sara Banks, joins them in the adventure as the mystery unfolds, and soon they find themselves being chased by strange government men no one's ever heard of. They have to think on their feet to get out of this one.

Legends of the Ghost Pirates

"It was so close I realized it had two cannons on her bow. Loaded or not; who the knows. I sure as rigger rats didn't want to find out. I was never certain if they're aimed at me. But I wasn't out-running them; they had me. They kept coming. Never slowed down. Got so close I could read the name on the bow..."

Once again, in the third installment of his adventures series, Young Fisher Shoemaker is back! He and Sara come across an old logbook that once belonged to the less than famous sea captain Bartholomew Bonney. The mysteries of the logbook leads them on an adventure miles off coastal Maine.
