Angel of Darkness Tabitha Barret

What if loving someone brought you pure joy, but put you and the world in danger? Would you choose love and take the risk, or suffer to keep the world safe?

Michelle Black wishes for a normal life, but deep down she knows she is different. Plagued with nightmares of the Realms of Torture and the ability to see the sins of men, she finds herself in Hell, unable to escape.

Lucifer wants his prize, the woman promised to him long ago. He fears that she will learn the truth about who she is and what she is destined to become. He will do whatever it takes to keep her, even if it means lying to her.

Can Michelle tame the darkest parts of Lucifer or will his darkness consume her? Can he learn to care for someone he considers his property? Will she find out the truth about her dark destiny?

The Third Throne: Angel of Darkness is the first book in the steamy Adult Urban Fantasy/Paranormal Romance series that beings the countdown to the Apocalypse.

Please note that this book is intended for Mature Audiences due to foul language, sex, violence and death. This is a Slow Burn Reverse Harem which means one member of the harem is acquired in each book as the series continues.

Great take on heaven and hell.

This is not my usual sort of RH I would go for but it had a really good storyline. I still feel bad for poor CJ I wish he got some kind of closure. Hopefully we will see him happy in latter books. I liked the take on Lucifer also but found him to be a little whinny at times. The apocalypse storyline is really great though and am interested to see where the angels she will collect will take the story.

Love this concept

This is probably my favorite story concept I have read in a long time. I was drawn in to the world and could not put the book down. I like the MC and am intrigued by the secondary characters. I took off a star bc I skimmed this book at times bc the explanations were long and at times boring. I will definitely continue this series.

This book was recommended to me so I thought I would give it a try. The writing is excellent, the characters are great and the setting/theme also good. I started struggling a little midway through but not enough to give up.

I am glad I carried on as it really picked up and I now need to read book 2, I do recommend this story as it has captured me, I am hoping to be able to give the next book a 5 star rating, I would recommend perseverance if like me you struggle a little as it is worth it

Very good story. Interesting and entertaining take on Angels/Fallen Angels/etc. Michelle is a very likable character, love her inner strength despite all the hell (pun intended) she is forced to go through. Her story is definitely one I am glad to know.

To be honest, I would give the book a 4.5, only because there were times where the plot seemed to lull. It did always manage to pick back up, which made me glad that I did not move on from the book to pick up at a later date. If I was caught in a bad moment, I might have been tempted to do so.

Overall, I recommend this read for anyone who likes paranormal/fantasy romances. Due to some steamy moments, I would recommend it for ages 18 and up.

Are you a fan of dark romance? If yes, this is the book for you. This world is fascinating, and Tabitha's imagination is top notch. I loved the relationship between Lucifer and Michelle, but the other characters intrigued me as well. I'm looking forward to reading more. This author is definitely going on my TBR list!!

Just a note - This isn't the kind of book you can read in one sitting, unless you read really fast. It's longer than the typical read, but there is so much going on in the story, you don't really notice the length. It's a fun world to get lost in; you won't regret it.

I'd make this novel a 3.5. This novel has great creativity and world building, and this new author certainly holds some good landmarks for increasing finesse in future works. This book includes sex, so would really be for a NA to mature audience.

The work is contemporary, and for the younger characters I would have liked the use of dialogue contractions, whereas with the traditional characters you expect a level of formality.

The main character, Michelle, is mostly likable. She has some annoying moments, but considering her levels of confusion and the quantity of misinformation constantly surrounding her, the reader can understand where her attitude stems from. The novel commences in a high school setting and progresses with increasing amounts of curiosity to where this book is taking us.

From high school, the world spins into an increasing spiral of mystery and it isn't until over halfway that some of the answers are provided. Michelle finds magical powers within her, and the answers stem from the world building, but also involve the history of that world, including the history of the characters. The answers and the world building are a creative and an innovative take on otherwise traditional subject matter. I'm trying not to give anything away here, so all these comments may seem very esoteric, but when you read the novel you can tell why. .

The only mention on the negative side of things, is that the details become too extensive and start taking the spotlight away from the grist of the story.

The editing gets messier the further into the book. It starts off well, but loses ground by about a third of the

way in. Unfortunately, this would seem to be a common enough problem for independent authors, and unfortunately, a spell check can only take you so far. So yes everyone, I would like to go through them all myself and track corrections! Ah but for an eye to detail.

It will be interesting to see where the next novel takes us, so here's to waiting!

Get ready to see angels through an entirely new light! Discover an ancient promise made to the archangel Gabriel and how one teen's mortal life ends as she begins to fulfill her destiny with the dark angels in Hell. Tabitha Barret's **The Third Throne: Angel of Darkness** is a wicked journey through the levels of Hell as Lucifer meets his match in the seduction game in the arms of a young suicide victim destined to be his mate and so much more.

Michelle was a beautiful teen, her heart belonged to her best friend and confidant, but the rest of her life always felt just off kilter. Her parents seemed to be paper cut-outs, the only family she could relate to was Uncle Bob, tall, almost too good looking and always on one adventure or another. This was summer she was going to travel with him and be part of the excitement of his world. Why would she commit suicide? Was it the voices she heard in her head or the nightmares she had that were filled with torture and pain?

She awakens in the world of her nightmares and comes face to face with Lucifer, who expects her to be his concubine, his mistress, but is he hiding something from her? She is meant for more? Second in command, Hades has it out for her, but he cannot destroy her. The secret may lie in the truth of her real father, and her destiny to destroy the world.

Watch Tabitha Barret's interpretation of the relationship between Heaven and Hell unfold in vivid detail. See the blinding light of the angels in your mind, as well as the evidence of the wrath of Lucifer in graphic detail. Is Hell really for eternity?

Simply riveting, this tale unfolds into so much more than I expected as we take the leap from mortal Earth to the bowels of Hell. Ms. Barret writes with creative abandon, coloring outside the lines of the traditional supernatural with bold strokes and an incredible imagination. Each scene and every character are realistic, no one is all bad, not even Lucifer, although Hades can be a little twit. Ms. Barret's trip to Hell has heat, but the sensual heat between Lucifer and Michelle, now that's flaming hot! You guessed it, this is a brilliant gem with a fiery glow that needs to be read!

The Third Throne: Angel of Darkness is a good example of the “New Adult” category. This is a sort of coming-of-age adventure tale aimed primarily at those from 16-20. There is some graphic sex which puts it beyond the classic “Young Adult” grouping.

The main character is a soon-to-be 18 year old high school girl who is aware that there is something different about her. In a fairly classic pattern, the outcast high-schooler wakes up to a world where there’s something unique and special about her. I was expecting this to be a somewhat trite book, but it actually was more creative and interesting than I expected. This story didn’t really strike me as “paranormal” as much as just simply “urban fantasy”. Just simply tossing your characters into Hell doesn’t make it paranormal as far as I’m concerned.

The characters are fairly detailed and reasonably well fleshed out. The story has a good pace to it. I was lost by the concepts of Hell presented, as well as being a bit confused by some of the plot. There seems to be a lot going on in this book, and if it continues into a series I expect most of it will make sense.

If you’re into new adult fiction and have a taste for religious urban fantasy, this is probably a good book for you.

A new world of angels

I love the different take on Lucifer and the apocalypse. I’m anxious to see how Lady Black’s relationship with all of her angels will unfold. The drama and mystery surrounding her past and future keep the book entertaining and her romance with Lucifer keeps you wanting to see more passion! I am disheartened by CJ not being around and hope that we’ll get to see him in the coming books.

The story

18 years old Michelle have been having nightmares of Hell for all her life. Every kind of torture it has to offer, she knows it all. Because of that, she doesn't belong and is unhappy.

A few weeks before graduation, a voice compelled her to kill herself and she woke up in the Hell she's been dreaming off only to find it was really real. Lucifer wants her as her mistress, she doesn't know why her, and he doesn't know she's gonna change him.

The cast

Michelle :

insecure & cold-ish super beautiful teenager/Lucifer's plaything/(view spoiler)
compassionate
in a strange relationship

CJ :

handsome teen and childhood friend of Michelle
huge crush on Michelle
(view spoiler)

Lucifer :

Prince of Darkness
anger issues/depressed
acts like a sad puppy in front of Michelle

Hades :

Hell's 2nd in command
cunning yet kind of loyal
totally psycho

Serena :

Former Hell's 3rd in command
dead
crazy ass bitch that everyone still fears

Random characters more or less important :

an angry idiot servant
a beautiful angel that keeps getting his ass kicked
Archangel Gabriel with daughter issues

My impression

Yes, there is romance and the big bad evil falls for the innocent naive sweet girl. Very cliché, you would say, but it actually isn't at all.

For starters, she doesn't love him. She pities him, she cares a bit for him, but there is no love from her side. On the other hand, Lucifer is totally head over heels for her and it's making him really pathetic sometimes. Imagine the Leader of Hell crying because his girl is a bit mad at him. Yup, this is just hilarious and I really enjoy this part of the story.

Then *Angel of Darkness* might be a paranormal romance, but it's actually the story of Michelle, as she discovers who she is and her destiny. She's very special you know. But I loved learning why.

In the beginning she's not the best MC ever and does make weird shit along the way. I have to admit that I disagreed with some of her choices through the book, but I really enjoy her character and what the author has done with her. She's dangerous & she's evil, but also kind and forgiving. She managed to change Lucifer, I expect lots of things from her in the future!

And special mention to Hades, the psycho asshole. He totally wants to murder Michelle and he's so fucked up inside and not a nice guy at all, but he really quickly became my favorite character!

Anyway.

I really like the first book and i started the second right after!

I loved it! I couldn't put it down!

Is it wrong to be swooning and excited by the devil? I don't care! Lucifer is dark and sexy, hot and powerful, and another book boyfriend for me!

The mystery as to who Michelle Black is great! I enjoyed finding out her real identity and her connection to Lucifer.

This book is intriguing, engaging, hot, passionate and fierce!

This book starts the series and I can't wait to read the rest!

A new favorite author of mine!

Must read!
