catt ??*? says

what was that ending (2)

Liberty K says

COME ON, I NEED MORE!

Samhain says

The issues keep getting more intense, how are we supposed to survive until the endgame?! Also, that awkward moment when the three horsey bigots are actually right about the monsters living on their planet... Sorry people don't listen to your warnings, I guess? xD

PS: Dear Brian, Alana better leave this stupid place without another scratch (emotional or physical) or else...

Thenia says

[A wolf-woman with bloody hands - of course she's the one they were looking for to help Alana out... (hide spoiler)]

Brandon St Mark says

I love Petrichor.

And Prince Robot IV too.

Gabrielle (Wishes she had more time to read) says

ship ship ship!!!

(also, how many weird-ass things is Vaughan gonna make Staples draw? Follow up question: how does she do that??)

Goran K says

Somewhat slower issue, but interesting nonetheless. Cliffhanger gets solid explanation, but I'm a bit worried as BKV is starting to introduce various new characters that do not have long term future, I just hope his inspiration doesn't blow out too soon. It still isn't problem with this issue, but it could become in the future. Solid story so far, enjoyable.

Denise says

I just love this series. I rather read in volumes, but I just cannot wait that long.

Chad Josimar says

Every time I say there's nothing that will surprise me about this comic.... I find myself surprised! Amazing as usual, but my heart can't take it ♥?????

Jaci says

Omg this fucking story I CANNOT HANDLE THE EMOTIONS

Lindsey (ideklinz) says

LOVE where this arc is heading!

Amina says

That last page!!!

Petrichor for sure is becoming one of my favorite characters, as she guards the tree until the guys return, she doesn't really know what's waiting for them in the Badlands. Alana doesn't listen when people give advice and I hope none of the family members will have to pay for this!

27 days left!

Me until the end of the month

Amber says

Oh my damn heart, I'm so happy and anxious and a million other things.

Tudor Vlad says

A satisfying follow-up to last month's amazing issue. It's not as packed with events but it does provide some explanations to that ending, and while I wasn't fully content with the answer we got, I was glad it was something that served the plot and it wasn't there only for shock value. I'm looking forward to the next issue because I like it when Saga gets creepy and Fiona really knows how to do horror, her artwork is terrifying without going overboard.

Claudia says

Sweet, touching and a bit funny. We get an answer for the big surprise at the end of the previous issue and a bit of hope for future. The ending leaves you in the air, as always...

René Herrera says

Siempre termino queriendo más.

Sara (A Gingerly Review) says

Give me a moment to gather myself on this one... Wow

Macdiel says

Es injusto que sea tan corto, necesito más. Semanal.

Kirra says

Holy crap, that was incredible. I'm so happy to have that feeling of not being able to take another breath until you get to the next page or be struck in the heart with yet another crushing blow. This issue was a favourite of mine because it picked up on a cliffhanger and featured the family heavily as well as someone they haven't seen in awhile. It's funny that this issue picked up on a cliffhanger moment as well because it ended with another that was totally creepy and I'm very worried for them all now.

Brendan Hughes says

This is an excerpt of Nerdent's review of Saga #45 (<http://www.nerdent.net/2017/07/26/new...>)
The illusion of the child is alive and well as every member of the family is able to talk and interact with him. The negative side is that as he remains Alana grows weak in the vast wastelands causing her to die. This story is best advised for older readers as the material is graphic but for us bigger kids it contains a great deal of fun. Is this the end for Alana and her powers or is.
