First Sight

Boyd Craven III

First Sight Boyd Craven III

My name is Thomas Wright. I've been on the run from the Council of Mages for as long as I can remember. You'd have to ask the Council why, because I have a long memory and don't know what I or my parents did wrong.

I had everything figured out at one point. Then, I broke one of my own rules. I had drinks and there was this woman – my main rule is no women, connections and entanglements – it makes for a lonely existence. Now I'm running for my life from the world's foremost assassin. He is thought to be immortal, which would make killing him a little tougher than I'd hoped.

My nomadic existence has led me to my becoming a prepper. A mage prepper. I can inscribe runes into ordinary objects to give them extraordinary power. I can also see up to five seconds into the future, which comes in handy when you challenge a young rogue alpha werewolf.

That scrape was worth it. Not only was I granted my own accorded pack territory, but rescuing that fairy from the Alpha earned me one of my closest friends. When she's not spewing pop culture references, there are glitter bombs and snark. Another close friend is the Sheriff, and just thinking about her has me wanting to break my own rules.

Topping my "to do" list, though, are divining the future to stay alive and solving my parents' murder. Maybe some payback, though the chips are stacked against me.

Kelly says

Gritty and Humorous

Recommended Read. I look forward to the next installments. I think a series no less than ten is in the future.

Darlene Freeman says

Very clever

An 88 yro paranoid seer on the run, for good reason, picks up a couple of packs by challenging Alphas and a fairy sidekick with a honey addiction on his quest to find his parents killers and why he's been hunted. Great story and characters. Can't wait for next one.

Bobby Dees says

Boyd Craven has made me return to the magic books that I read years ago. This book was so fun to read. Had me laughing in so many places. Full of action, betrayal and sarcasm. I really hope we will get more books with these wonderful characters.

Bruce says

Good read

I liked the characters and plot. Good magic and fight scenes. Will read next book. Great job and fun to read.

Jenn says

I really enjoyed this one, but I'm going a little nuts with all the unanswered questions. Tom's story was interesting and the characters were charming and unique, but even at the end of this you never really know which characters can be trusted. The final battle scene moved a bit too quickly for me and I didn't like that he was knocked out for what seems to be the most interesting parts which means the reader misses it since this is in a first person pov. Otherwise I loved the book and look forward to more in the series.

Travis says

Very good story, I'm off to read the second one now.

Dick SantaCruz says

Great Read

I wasn't sure I would like this book, but was pleasantly surprised by the great action, creativity and characters.

Definitely worth buying.

Grammar needs working on

Only problem I had was the grammar it needs to be looked at. There isn't much to ruin your reading. I loved the characters and the development of them. This story had me finishing it in a day because I couldn't put it down. This is an awesome read.

Debbie says

I really liked this book. I can't wait for the next one. Good job!

Sheila L says

Loved it, disappointed I couldnt find the second book. I hate having to wait for a series. absolutely hate it. but, looks like i will have to wait anyway *grumble**grumble*

Donna Shields says

Boyd Craven does it again!

A total departure from Distopian fiction and not a genre that ever interested me much but I REALLY enjoyed this book!

Cory Rose says

Good

Plenty of twists and turns good characters dialogue a few laughs and overall certainly an above average start to hopefully a wonderful new series. I would rate this as up there with the best of the genre, certainly better than most of what you normally come across.

dawn morgan says

Excellent

I can't wait to read more of the series. This story has a lot of twists and turns, keeping you on your toes. The characters are well thought out and interesting. I am delighted to find a new author to follow through what I hope is a long series!!

stewart firth says

Wow. Great writing and keeps you guessing

Couldn't put it down. Great style of writing where the reading just flows. Can't wait for the next installment. Please don't leave us waiting too long

Good Characters

Good characters, action, and editing make this story a spiffy little gem. The plot is good, but the characters are what really sell it. There are too many unknowns and presumptions in place, but it's also book #1, so I'm hopeful the next book can flesh things out more, and at a slower pace. A nice read. Recommended.
