HOT SEAL Redemption Lynn Raye Harris

Bailey Jones doesn't know jack about babies, but she knows how much it sucks to have a deadbeat father. So when her sister drops off her newborn baby and then disappears, Bailey is ready and willing to confront anyone, including a six-foot-two, sexier-than-sin Navy SEAL sniper, and make him do his duty.

Alexei "Camel" Kamarov is not the sort of man to carelessly father a kid, but as the oldest of six, he does know a thing or two about babies. The firebrand on his doorstep might have mistakenly tagged him as the baby daddy, but Bailey is cute, and Alexei is more than willing to give her a hands-on class in Baby 101.

When a ruthless criminal comes looking for the missing sister--putting Bailey and the baby in danger--the situation escalates. Bringing them under his roof and enlisting his HOT teammates to help find Bailey's sister are easy. But as Alexei and Bailey draw closer, passions erupt and feelings tangle.

That's nothing compared to the danger lurking in the shadows--and the test that awaits them both. Bailey will need to give everything she's got to redeem Alexei's faith in love. And he'll have to move heaven and earth to save her--before someone takes her away from him for good...

Colleen says

I love a sniper, and I love a slow burn. They go so well together because patience is what a sniper is made of. He can wait a mighty long time for just the right shot to bring down a target, so it's no wonder it works so well in "HOT Seal Redemption." It's delicious to watch Alexei/Alex "Camel" Kamarov come unraveled, like an old sweater. You can't shock a man like Alex with something as mundane claiming he's the father of your sister's baby. It's out of the ordinary, for sure, but it won't rattle him.

Now Bailey Jones, on the other hand? She's a rattle and a drum, and a 3-piece band to Alex's peace of mind. She throws him off center, and challenges him in so many ways. I loved that his teammates saw a completely different side of him when he was around Bailey. There's great heat and suspense in "Redemption," but there's also an underlying theme here that I appreciate.

Alexei/Alex "Camel" Kamarov keeps telling Bailey that he's not a good man, but I gotta wonder what his definition of "good" is. If he's just doing what's right, then isn't THAT being a "good man"? Nice try, Alex, but we see right through you. Then again, it's just fine and dandy that Bailey's a strong, independent woman who can support herself, but he's not OK with the way she does it: dancing as a stripper. She's trying to earn money to get an education, to make a better life for herself and support herself and her niece, which he's all onboard with, just not the WAY she's doing it. But she's really doing nothing wrong.

"... I'm just a dirty stripper, right?... Your hypocrisy has killed my appetite."

Women are treated like objects. Like garbage. And even "good men" (and women) have double standards that they themselves don't even realize society has drilled into us all.

Bailey: "... I've come to expect it. It's what being a woman is all about. Watching out for yourself, always wondering if some guy means you harm. Thinking about where you're safe and when you're safe. Clothes, or lack of, don't make you safe. A man who'd abuse you because you're scantily clad would do it if you were fully clothed if he was given the chance."

Alex: "You're pissing me off at my gender right now."

I love Lynn's writing, because she can say so much in such a subtle way. I hold my breath and cross my fingers, praying I'll get lucky each time the ARCs get handed out. Bailey is one of the strongest female characters I've seen in a long time, and she doesn't have to throw a single punch to do it. She brings Alexei Kamarov to his knees in record time, but makes it feel like the slowest of slow burns. The emotions jump from the page to reach deep in your chest, and crack your ribs right open. Alex isn't emotionally stunted or scarred, but he goes through such profound growth that he's not the same man he was at the start of the book. Despite what he says, he was always "good man," but by the end, he's better.

Angie says

You know it's a good book when the hero is introduced and your first thought is "damn that girl's lucky." Bailey and Alexei were a great match. From the moment they met, there was an instant connection of ease and comfort. Their story is tender, heartwarming, emotional, and has an edginess to give it some very unexpected depth with a difficult subject. Each teammates' stories may have a guaranteed HEA, but they're

all unique and take you on an emotional ride.

Although the bad guys are brought down in this one, I don't think we're done with a few more stories coming out of this MC and sex trafficking ring. I always love the tease at the end setting up the next poor (and very hot) sap who swears he'll never be tied down by a woman. He's not next, but I think Alex Bishop is becoming my new Ian Black... I NEED THEIR STORIES!!

I received a copy of this book from the author for an honest review.

Mary Smith says

Wow!! Hot definitely describes this title!!

Bailey's sister Kayla dumps her baby girl on her and says she can't do it alone. She takes off and goes into hiding. Kayla told Bailey that Alexei was the father so she goes after him.

Alexei, Camel by nickname, takes both Bailey and baby Ana under his roof while he has a paternity test. He denies the baby is his.

Bailey works as a stripper and this for some reason infuriates Camel. Even though he does not do relationships, he wants Bailey. He is really good with Ana and Bailey loves him for this because she knows so little about how to do it.

Because Kayla is in hiding, this story becomes full of suspense and will keep you on the edge of your seat. This book is extremely hot - both Bailey and Alexei could melt the pages.

I requested an ARC and offered my honest review in return. I highly recommend you read this book.

TashNz says

Sparks are flying left right and center for Camel and Bailey, two people who would never have met had Bailey's sister gone awol and left lil Ana behind claiming Camel to be the father. Loved the opening of the book, it grabbed me and the story was ON! I really loved how Lynn Raye Harris made Bailey's occupation ok and how it contributed to the story really well and how Bailey's place of occupation assisted with the story really well! The adventure built steadily, along with Camel and Bailey's attraction to each other and I enjoyed Ian Black's appearance. Of course, a highlight is always the epilogue which LRH, without fail, delivers another cliffhanger. The dashing ending is edge of the seat stuff when bad guys place is busted just in time and I'm intrigued as to who the other girl was. Another wonderful installment and a glimpse into the lives of other favorite characters. Please keep 'em coming Lynn, I LOVE them!

Darcie says

Holy mother of sexy! Alex "Camel" Kamarov is the man dreams are absolutely made of. He is so alpha, yet so sweet and add in the tenderness with baby Ana. Wow!! Alex and Bailey were so perfectly paired with amazing chemistry and just enough banter to be cute but real. I want to see them with babies of their own!

Denise Van plew says

I just wanna eat these seals up in this series each one is so special they melt your heart. In this one it centers around Bailey and Alexei whom thanks to her sister they cross paths. Besides a little bundle she has left with Bailey she also has brought trouble her way. Alexei being the kind of guy he is will not leave it alone and things will build from the get go. The anticipation that is built also between them leaves you antsy with oh my drooling along the way droppin on the pages. But a Seal will do the job right and get things squared away right with you nose to the page every step of the way in this one.

Jennifer says

ARC received from author

Man, I love this series. I stayed up way too late to finish it, and it was so worth it.

Bailey and Alexei/Camel (y'all know I have a thing for hot Russians) start off with her yelling at him. Even though it takes a while for them to hook-up, the sexual tension between them keeps everything interesting. Her job really gets his panties in a twist. Plus throw in a bad guy looking for her sister that Alexei has to protect them from. And we get to see all of the gang, plus Ian Black. I so can't wait for Ian to fall...it's going to be epic.

Alphas Do It Better Book Blog says

There is really nothing hotter than a guy who knows his way around a baby! Alexei "Camel" Kamarov is the sniper of the HOT SEAL team. When Bailey Jones shows up at Alexei's doorstep with her niece Ana and tells him he's the baby's daddy, Alexei is pretty adamant that he's not. Having 5 younger brothers and sisters, he knows what causes that. Alexei can see that Bailey is having a hard time learning the ropes with her niece though and kinda takes over. Bailey is working a stripping job and trying to take care of Ana after her sister Kayla dropped the baby and disappeared. She doesn't know what her sister has gotten herself into and once Alexei finds out the trouble Kayla (and by extension Bailey and Ana) are in, his protective instincts take over. Bailey brings a new light to Alexei's world, making him question his "don't need/want a relationship" lifestyle, especially when trouble finds her.

This is my favorite HOT SEAL team book so far! Alexei and Bailey are a great couple and like I said, guys that are good with babies are super hot. Pun intended!

Review by Michelle C

Diana Tan says

Definitely HOT!!!

My, oh, my! Alex is one hot alpha, indeed!

I just love how Alex and Bailey interact with each other. Great chemistry. Passionate. HOT! This book is definitely one of my favorite books in the series. . . But then again, I LOVE all of Lynn's HOT books.

Liza says

HOT SEAL Redemption is another winner from Lynn Raye Harris. I have to say I've come to love the HOT SEAL Team books every bit as much as the original HOT Team books. With HOT SEAL Redemption, we get Alexei "Camel" Kamarov's book.

I will say right now I fell head over heels for Alexei as soon as he took in Bailey and her niece Ana. Seriously, there really is nothing sexier than a big strong man knowing how to take care of a little baby. All the sighs so many times as I read this book. I also had to chuckle at the fact that Bailey didn't even have a clue how to change a diaper without watching a YouTube video first. I love killing the stereotype that just because Bailey is a woman she would know all about babies.

I felt the connection between Alexei and Bailey pretty much from the moment they met as she was accusing him of being her sister's "baby daddy". I loved he was so protective of Bailey and Ana from the moment they met and he made sure they stayed under his protection while trying to find Bailey's sister Kayla. Alexei is totally an Alpha Male, so his protective instincts are on high alert when he feels like he is protecting his own, and I loved how he pretty much lost his mind when Bailey was working making sure no one touched her inappropriately. Seriously he was so sexy, yet I loved that Bailey had no problem making sure he knew she was capable of doing her job and taking care of herself.

I can't say enough how smoking hot the chemistry was between Alexei and Bailey. OMG when they finally made love for the first time, my kindle screen fogged up and I had to fan myself. So freaking sexy!!! Even when they both were saying they were only in it temporarily, I could totally tell they both had already started falling for each other. I absolutely loved them as a couple!

The threat to Kayla, Ana, and even Bailey had me on the edge. I honestly don't usually read many MC books because of the violence in them, yet the military romances have never bothered me, even though they can sometimes have some of the same elements of violence. I hated Kayla's ex from the moment he appeared on the page, and worried more for Bailey really than Kayla, as Kayla was so well hidden for the longest time. I have to say the scenes with James Dunn and the MC that involved Bailey were really rough for me to read. They were extremely well done, and very true to life, but still super rough. I loved it when Alexei and his crew once again showed up to take care of business with the assistance of none other than Ian Black. I have to say I'm really hoping we are going to get his book sooner rather than later.

HOT SEAL Redemption was one of those books I couldn't read fast enough, even as I didn't want the story to end. With each new book in the entire Hostile Operations Team series, I fall more in love with all the characters. I truly believe each of these books can be read as a stand-alone story. However, to really understand the workings of all the team members, I highly recommend reading each book in the series in order.

Rating: 5 Stars (A-)

Renee Entress says

4.5 star

I was pulled right into this story. The story has laughs, pain, secrets, suspense, and heartbreak.

If you have not read the below I would recommend reading those books(s) first

Hot Pursuit (Hostile Operations Team, #1)

Hot Mess (Hostile Operations Team, #2)

Hot Package (Hostile Operations Team, #3)

Dangerously Hot (Hostile Operations Team, #4)

Hot Shot (Hostile Operations Team, #5)

Hot Rebel (Hostile Operations Team, #6)

Hot Ice (Hostile Operations Team, #7)

Hot and Bothered (Hostile Operations Team, #8)

Hot Protector (Hostile Operations Team #9)

HOT Addiction (Hostile Operations Team, #10)

Hot Valor (Hostile Operations Team, #11)

Hot SEAL (HOT SEAL Team #1)

Hot SEAL Lover (HOT SEAL Team #2)

HOT SEAL Rescue (HOT SEAL Team #3)

HOT SEAL Bride (HOT SEAL Team #4)

HOT Angel (Hostile Operations Team #12)

This is Bailey and Alexei "Camel" Kamarov's story. When Bailey's sister drops off her newborn baby and disappears she has no problem chasing down the father. Alexei knows all about babies and would never carelessly get a woman pregnant. When Bailey shows up on his doorstep he is smitten. He agrees to help her out but stresses he is not the father. When danger comes for Bailey will he be able to protect her and the baby? With him being in constant contact with her and the baby it makes him start to feel. But will he be able to take on a woman with a baby forever if the danger that is after her sister end up taking her from them? Can he protect this family from a danger he never knows about? Or is he about to lose everything?

I loved these characters and the side characters. I felt I was able to connect with the characters and the story was a great read.

I highly recommend this book and can't wait for the next story from this author.

Elisa Hordon says

Another great addition to the HOT series these guys take falling for a woman to the extremes lol but it's a nice thought and always an adventurous story to get lost in for a few hours

Ash says

Couldn't connect to Bailey. Tried to sympathize with her but just couldn't do it.

Anima says

Even after a mission the job of a Navy SEAL is never done. Alexei is stunned when Bailey yells at him that he's the father of her niece. Knowing how he operates it is highly unlikely little Ana is his, but he does the gentlemanly thing anyway. He protects Bailey, Ana and even Kayla (Bailey's sis). Turns out little sis has a

motorcycle gang after something she has. This isn't the usual HOT assignment but the guys come together as brothers to protect their own. To follow the series you could start anywhere, unless you'd like to know the couples start at the beginning. My review was written voluntarily after reading an early copy.

Lana ❄️Dirty Girl Romance❄️ says

4 STARS

But what he didn't understand was why he cared what she thought. Why it bothered him. Why he couldn't get her out of his head no matter how he tried.

It's official; Lynn Raye Harris is the queen of sexy romantic suspense. It just doesn't get any better than the men of HOT, unless of course, it's the SEALs. With the teaser of Alexei's story in the previous book, I was already salivating for his story by the time I got my grabby little hands on this one. And it did NOT disappoint.

You really are a good guy, Alexei."
He hesitated a moment. "No, I'm really not." A chill slid down her spine at the coolness in his voice. "But I am right now."

A knock on his door from a woman claiming that he's the father of her sister's newborn daughter is probably the last thing Alexei "Camel" Kamarov expects when he gets home from his recent mission. He's convinced the kid can't possibly be his, but there's something about the woman's tenacity and his inner gentleman that has him humoring her. She looks completely out of her element with the newborn, and being the oldest of six kids, he knows a thing or two. I swear, my ovaries melted a little every time I read just how amazing Alex was with the baby. *dreamy sigh*

Bailey was one of my favorite heroines in the series. This is a girl that grew up rough but didn't let that beat her down. With deadbeat parents and a young sister, she was forced to do what she has to in order to survive and make ends meet, and she's not apologetic about it. Yes, she's a stripper. And yes, Alexei's macho posturing over her interim job to get her through college rankles, but she's not about to let anyone belittle her for her choices. Man but I loved her backbone and tenacity. She had so much fire and passion to her, it's no wonder it didn't take long for Alexei to give in to the passion that brews between them from the very first meeting.

There's plenty of suspense with the mystery of just where her sister ran into and who exactly is after her. Of course there's plenty of action and cameos from the rest of the HOT team as they step in to protect Bailey from the threat against her.

HOT SEAL Redemption was an action packed ride from beginning to finish, with a sizzling slow burn romance and characters that I couldn't help but love. It was another fantastic addition to an addicting series, and as always I'm only left craving more.
