Midnight Heat

Lynn Hagen

Midnight Heat Lynn Hagen

Jason has no idea that the sleepy town of Mercury holds so many dark secrets. But those secrets are revealed as Jason is plunged into a world he never knew existed. The men he works for are bear shifters. The guy he's lusted after for months is a wolf. And now Jason finds himself running from a demon hell-bent on using him as leverage to kill Jason's mate. To make matters worse, Jason is carrying Matt's child. Matt never thought fate would give him a mate. Not after his mother died in childbirth and his father had cursed him. After his last relationship left a bad taste in his mouth, Matt decides to date the waiter, a Grizzly, unaware that Jason is his mate. But when things go sideways and Matt has to save one of his own, Jason's life is put at risk and Matt must do everything in his power to keep Jason safe.

3.75 stars

Ije the Devourer of Books says

Good start to a new series with lots of action, fights, vampires and shifters galore. Quintessential Hagen. If you have enjoyed her other series, you are sure to enjoy this new one!

Hc says

Promising beginning to a new series...

I just hope this isn't going to be one of those where everyone gets mated and then everyone is having kids... like one out of five or something but not every single mate needs to be pregnant..

Phoenix says

If the author is pro-choice, why was Jason not given the option of an abortion?

Nessa says

So far I'm loving this new series by, Lynn Hagen. Matt was a wolf shifter who had found his human mate, Jason. Matt also had a friend who was part of his pack, Colton. I was worried about Colton through the whole story, and was even saddened by his situation wishing that authors would give every character a, "happily ever after", (except the evil people), and not just the main characters, please? I like this almost as much as her Brac Pack series, except instead of an, Ultionem, there's a, Consiglia, (much easier to pronounce to me), and instead of helpful vampires (such as Christian's Coven), there's evil psychotic vampires in this story. I hope that changes, and I also hope that the, Consiglia, becomes much more fair as a whole. Jason was adorable if not a bit stubborn, and Matt did the best he could as alpha of his pack. The ending truly surprised me in its creativity, and in how unexpected it was. I'm so happy that I've already got the first three books. Yayy. =)

Midnight Heat [Mercury Rising 1]

When I started reading I had a little trouble getting into the book as I went on it got better and better and I liked it can't wait to read what happens next....
