His Belt (Part One) Hannah Ford

His belt. He wants it around my wrists, against my backside, marking me and making me his...

My boss Elijah Armstrong is cruel and calculating, bruised and beautiful, equal parts hot as fire and cold as ice. He's also a dominant. And I am so not a submissive.

I know I should say no, should walk out of his office and never look back.

But he's magnetic, and the dark desires and secrets he keeps are like a drug. He makes me want to get on my knees, to bend over his desk, to call him "sir" whenever he demands.

Every slash of the belt bonds us, every time he pulls me close or takes me to the edge melds our hearts.

But Elijah and I both have secrets.

Secrets that could not only destroy our love, but will put our lives on the line and face us with a devastating choice: Face our long-buried demons together. Or lose each other forever.

Didn't Realize it was One of Those Books - Disappointing

I hate installment books it's the height of laziness causing readers to wait for the next part. They really waste a readers time.

The premise of the story is weak and poorly formed.

Very disappointing for this reader.

Courtney Turner says

Love Hannah's books! And she will get you hooked again with this new dark romance.

This first book will get trap you right from the beginning. Hannah has a way that you just get hooked and it won't let you go till the end of the series.

Can't wait to read more.

This isn't a book, this is 2 chapters out of a book and the charge u as tho it is a full book. I will not be reading anything else from this author. It's a shame to because what I did read had the potential to be good.

This is a very short introduction to a series. When Elijah Armstrong calls Abigail/Editor of his media company's Romance book line into his office domain she just 'knows' it's to fire her. But, unbeknownst to her, Elijah gets a look at her curvy sexy body as she's headed to meet him & suddenly (even he is confused as to why) he decides not to fire her. But now he WANTS her in his bed & submitting to him & he gets what he wants by any means. This intro then throws Elijah into 'acquisition of Abigail mode' & Abigail into 'hell no I am not going down/out without a fight' mode. I felt the author got A LOT of good foundation plot into this series start up & it achieved it's goal: I really want to see what paths Elijah & Abigail take & how they walk them. They are both intelligent, driven & strong people & a clash of explosive intensity seems imminent!!!

Elijah's attraction to Abigail can't be buried

I have read many books by Hannah so quickly signed up to read this one. This is the story of Abigail and Elijah that ends on a cliffhanger. Abigail is called into Elijah, her boss' office dreading that she may be fired. Elijah starts with her romance line being eliminated due to dwindling sales, though offered her to manage a new sexier line. Abigail declines his offer for the new line, instead saying she will improve her romance line. When Abigail finds out who Elijah offers the new line to, she is furious as Elijah expected. Elijah asks Abigail out to a business dinner, setting the stage for something more between them.

Short and funny,very enjoyable!

He owns publishing company,she is in charge of sweet romance department.

She is sassy,talk back and he ask her to dinner instead of firing.

Looks promising,hope part two coming sooner then later

Hate

I am babe to hate this author of is all.about the money . She starts new books without finishing any of her other series . Then she free for the first book which is never a chapter and then the second chapter is 3 dollars and then u get hooked. So you spend almost 30 dollar for book that is never going to end. I feel like if we all.band from buying her books maybe she will finish a book that won't cost us about 50 to 100 dollars for ... Hannah Ford u should be ashamed for doing this to us readers .

Helen Casner says

Great job by author

Really enjoyed book. Have 3 stars only due to book being 47 pages. Very disappointed by author. Storyline is good but resembles another book I read where CEO and subordinate were involved. Characters are perfect. Seems series will be steamy. The razor blade and Elijah's discovery of Abby's mom will be interesting. Hope

author increases the pages of future books.

Amy says

Talk about a teaser. This book 1 leaves you wanting more. Needing more. Just as you get hooked it stops. Nice beginning.

He is her boss and he is cruel but if he tells her to get on her knees she would do it. He will push her further and further. They both fall in love with each other but they both have secrets which may destroy them. See what will happen

Great beginning!

This is a brilliant start to a series. Though it's short it sets the storyline well and links you into the characters quickly. Interesting main story line with some intrigue about Abigail's past.

Though I'm not keen on story's which are released in small chunks this one has me hooked and i want to see where it goes!

Well worth a read.

Dee says

There's not a lot to like about billionaire misogynist boss/publisher who wants only to get into the pants of the female editor of his romance book line. His motives aren't pure and he's out to take advantage of his position to make his, er...position. Do women want romance or sex? Well, that question is answered by readers who pick up this book. Hint: It's not romance.

I had to rate this book low because the author has decided to split this story between multiple books with this one, at least, very short. There's a cliffhanger leaving the reader with absolutely no resolution and the need to get the next book to continue the story. I don't know how many volumes are needed to finish the story, but I don't think it's worth the price of admission.

His Belt (Part One)

Interesting book into today's climate Elijah would be in jail and all over the news. Abigail is a hardworking , inexperience book publisher looking for love in the wrong place . Elijah has Abigail on his radar and that spells trouble for her-because his mo is love them and leave them. Enjoyed the mini book hate the fact that I'll have to buy two or three more to see how this story ends. Definitely for readers 18 and over the language could get you a rested.
