Who Let the Cat Out?: Mutts X Patrick McDonnell

MUTTSA is impossibly large. Its subject is the world, all living beings in it, and their relationship with each other. . . . Its touch is incredibly light and gentle, which explains how it alights in your mind and rests there. . . . The way that McDonnell's stories oscillate between gentle comedy and understated pathos is the strip's greatest strength."a "Christopher Brayshaw, *Vancouver Review*

Animal lovers everywhere adore Patrick McDonnell's charming but pointed *MUTTS*. The strip strikes a delicate balance between lighthearted fun and social commentary "on the human condition as well as the animal world.A The deceptively simple comic follows the adventures of Earl the dog and Mooch the cat, an unlikely best-friend team, and Shtinky Puddin', Sourpuss, Guard Dog, and Crabby.A Patrick's distinctive cartooning style effectively relays the all-too-real concerns of his characters with entertaining, clever, laugh-out-loud banter.

Infodad.com describes *MUTTS* as "humane and funny and gentle and caring and heartfelt and-did we mention funny?" The site goes on to say that the strip "includes enough hijinks and outstanding art (yes, art!) to please anyone with a taste for animals and amusement."

I love this comic. Cute and loaded with puns

Bill Kerwin says

A charming daily comic strip. Contains a profound knowledge of cats.

Mary Catelli says

Read some more of Mooch and Earl's adventures.

Who Let the Cat Out? had adventures in trying to hibernate, Mooch and Earl visiting a restaurant, how Mooch would teach subjects in school, and a number of one-shots.

A collection of the newspaper strip, this edition of Mutts was as enjoyable as ever. I did notice a few times where McDonnell was coasting on old jokes ("No, but if you hum a few notes..." type jokes repeated a couple of times) and what I would consider an ill-advised foray into pop culture (*American Idol*....really?) but all-in-all a good collection.

As usual you get some of McDonnell's social messages (sometimes a little heavy handed) and a neat look at the world through the eyes of some friendly animals.

If you are a fan, you already have it. If not, it is a good place to join the series.
