Having read most of Karanthajja's books. This is one book which is close to my heart for the vivid description of life in coastal karnataka during 40s. Having personally visited Kodi Bengre and Bengre beach being my favorite beach along the coast of Karnataka. I cannot agree more with the descriptions of the same provided by the author. Also,for equally eloquent descriptions of charcters Lachha and his behaviour, Nagi, Sarsoti,Parvatu and Rama Aithal. I absolutely love the flow of this book. It almost inspired me to take up farming. Must read for people of all ages!
