Kelli Bennett says

If you like books in the vein of "50 Shades" then you'll like this one - it's an easy read with some great characters - I'd definitely recommend it :-)

Tried to finish it but just wasnt worth it.

Tara Humphrey says

The idea of this story was really good. It was what had me finishing the book. The writing style was not for me. That is only my opinion. Others may like it.
The sexy scenes were the best parts of the book though.
