The Sheikh's Wedding Contract Andie Brock

The Sensuous Sheikh: Married for Duty

Newly crowned Sheikh Zayed Al Afzal needs to earn his people's allegiance. And that means the one thing this wicked playboy has always avoided—marriage! His viziers may have a bevy of beautiful options for him, but when Zayed meets exquisite Nadia Amani he makes a choice that's all his own.

Now, with the wedding contract signed and sealed, Zayed learns the shocking truth—Nadia is his enemy's daughter! But in the dark desert nights Zayed's desire for his princess intensifies and anger gives way to a sensual hunger that begs to be satisfied...

The world's sexiest billionaires finally say "I do!"

Jenny says

Sweet love story. It had the tropes I like- rich hero, virgin heroine, marriage of convenience. I wanted a better epilogue though.

Dottie says

To escape an arranged marriage to a much older man Princess Nadia Amani escapes her homeland and goes to find the newly crowned Sheikh Zayed Al Afazal, hoping to convince him to marry her. She hides herself in his room when her first encounter with him is not successful. Zayed is being forced by his viziers to find a wife and he is not willing to comply, so when he is confronted with Nadia in his room he puts her in a locked room till he can decide how to send her away without anyone knowing. When given an ultimatum he decides to take Nadia up on her offer and marry her. Everything goes according to Nadia's plan until the day after the wedding when she tells him she is the princess daughter of his enemy. I am not giving away any more of this wonderful story because if you love Presents as I do you will have to read this one. It is one of the best I have read and I thank author Andie Brock for sending me a copy in return for an honest review. Honestly one of the best presents and it now resides on my Keeper shelf. Don't miss this book another part of the Society Wedding series

Ipshita Ranjana says

This was a well written romance on the marriage of convenience trope. I am really happy that the author got all the minor details about the custom right. For example the nikah or marriage ceremony was spot on. Zayed is a playboy but has a deep sense of responsibility in him. He does not shy away from doing his duty and was a wonderful hero overall in respect to how he treated Nadia most of the times. Nadia is a delight because she is so unconventional and her actions through out the novel prove how different she was. The romance was fast paced, passionate, emotional and had a believable conflict. It was a delight to read this one!

Hina Tabassum says

First seeing the title of the book I thought it to be a typical Sheikh story where they live in a huge mansion and have Muslim names and then go off and get married in a chapel.

But I am happy to say that I was wrong.

For the first time ever I have read about a proper Nikah (wedding ceremony) in a Harlequin novel. The first time ever that a groom was wearing a Sherwani. Even the call to prayer was mentioned as it was a Muslim Kingdom.

I must state that the research was thoroughly done.

Back to the story now.

Zayed is thrust in the role of the Ruler of a Kingdom when his elder brother's legitimacy (or rather, illegitimacy) comes to light. Letting go of the world he had created for himself is not easy for him but he loves his country nonetheless. Ready to make it a better place.

Then there is Nadia, a princess in her own right, who comes to seduce the new Sheikh so that they would end up marrying. The girl is trying to be the bridge between two Kingdoms that are apparently at the brink of a war.

Though she finds herself married to the man she had sought for the purpose she is not happy to be with him when he despises her so much.

He does not despise her really, he is simply angry at her concealment of a truth. A very important truth. A truth that may as well become the cause of the aforementioned war.

The lack of trust that rises then, leads to lack of communication which further leads to disenchantment and disillusionment (which are basically just in the mind).

The amazing part? He does not hold back once he realises that he loves his stubborn wife. He runs after her to tell her. Does not keep it in his heart.

Enjoyed it a lot.

Nas Dean says

THE SHEIKH'S WEDDING CONTRACT by author Andie Brock is a July 2015 release by Harlequin Presents series.

Sheikh Zayed Al Afzal finds Nadia Amani in his bed trying to seduce him and he is intrigued. His passion ignites just looking at her. And he offers her a contract. A marriage contract. As the new ruler to his kingdom, he needs a wife to help him build a stable reputation. And for heir.

Yet, after spending a night of passion with Nadia, he finds out she is his enemy's daughter and a princess of a neighboring kingdom.

Could he trust her now? Could she be a spy for her country? What about the passion they shared?

THE SHEIKH'S WEDDING CONTRACT is a shimmering romance filled with sensuality and emotional intensity. It's very fast paced and a thrill to read. Author Andie Brock brought to life a mesmerizing tale with a gorgeous hero and a strong feisty heroine and the result sparkles on the pages.

Highly recommended for all readers of romance.

Bibi says

I disagree with the 5-star reviews.

The whole premise of this book is faulty. Are we to believe that someone as seemingly cosmopolitan as Zayed (Who by the way is a member of the "Columbia Four".... yawn yawn) would marry a woman without knowing a thing about her family, or come to think of it, even her real name. She danced and conned her way into his life and gets him to marry her in order to prevent an imminent war between their two countries. Even after the wedding, she continues to deceive the H, sends an email from his account without his knowledge and so on.

I do not think the means necessarily justifies the end and the h showed duplicitous tendencies without having the required intelligence to pull it off. Just no. Do not bother. A one star at best. And Zayed? Absolutely lacking any drool factor.

Sabrina Bradley says

I received a copy of this book through Goodreads....I really enjoyed this book and can not wait for the next one to see what happens!

Amanda says

Andie Brock brings down the curtain to Harlequin Presents, Society Weddings, with a heavy bang. Big rounds of applause for such a stellar contribution, Andie!

**

Well-researched and a deeply emotional plot, Andie Brock's THE SHEIKH'S WEDDING CONTRACT will engross and suck you into the royal life of Sheikh Zayed and Princess Nadia of Harith from the very first page.

Well researched and carefully constructed prose, intense dialogue, a riveting plot, three-dimensional characters and high-octane drama is guaranteed to keep you turning the pages until the very end!

I enjoyed this story so much, that I recommend it to all readers of the HP line who crave passionately written stories.

A well-deserving - 5/5 Stars

LadyTechie says

Intense/enjoyable read

Fanniny Moreno Zavaleta says

3.5 stars

I'll just say the little I've read from AB I've liked.

It started so amazingly with the h outsmarting guards better than 007 and a H who had no idea what he did in his previous life to get such a troublesome girl just in such a stressful moment in his life.

Then everybody was TSTL, but then if the H had been your average HP's H (meaning order a background check on the h) we wouldn't have had a story.

But don't worry, somewhere along the way their neurons got together so a war was stopped, a brotherly relationship was mended, a SOB and good-for-nothing brother was put in his place (he and his father deserved a bigger punishment though) and HEA.

It was nice having the h interfering in the H's Sheikhy business and having better results than him buahaha!

Susan Swiderski says

With a sheikh in the title of a romance, readers already have an inkling of what to expect: a devastatingly handsome alpha male with strong convictions, stubborn pride, who's kinda tight-lipped with his feelings. To said hero, add a devastatingly beautiful woman, who happens to be the smart and rebellious princess daughter of a hellbent-for-war enemy of the sheikh's kingdom, who is bound and determined to do whatever it takes to prevent that war. Even if it means donning scanty clothing, doing a sexy belly dance, or sneaking into the sheikh's bed.

Much of the story is predictable, but that doesn't make it any less enjoyable to read. There's some toe-curling scenes of passion, but they're separated by a ton of tension and animosity. You know this pair are gonna fall hopelessly in love, but it's a question of how much they have to endure before either is willing to admit it. They aim to unite their kingdoms, and in the process, they unite their hearts.

Rgreader says

I wanted to love The Sheikh's Wedding Contract. It had the tropes I like- wealthy hero, virgin heroine and the sheikh fantasy. Unfortunately it had more of the tropes I don't like- beta hero, stupid hero, stubborn deceitful heroine who lashes out at the hero tho she caused the problems. Those tropes I didn't like were the limit for me.

The hero a wealthy billionaire sheikh never does a background check on the heroine...he marries her totally clueless she is related to his enemy. Reading a sheikh romance means I can suspend reality easily but this hero was just sooo stupid it made my annoyance grow to the point where I didn't care for the hero, the heroine or their journey to happy ever after. Also dissappointing, the lukewarm romance.

Very sad to give this book one star as I like this trope.

Helen says

Oh I loved this story I loved how Nadia had such strength and passion and then to do what she did for her country after the way she had been treated by her father and brother all of her life and Zayed had so much work to do to show his people that he could be a proper ruler for Gazbiyaa now that he had been made Sheikh.

Nadia had led a life with no one listening to anything she really had to say but she has strength and was always speaking out and with the ever present worry of war breaking out between her country of Harith and the neighbouring one of Gazbiyaa Princess Nadia decides that now is the time to make a stand and do her best to ensure peace with a new Sheikh being named.

Zayed Al Afzal was the second son so he had led the privileged life he went to University in New York and made three best friends and built up a reputation for big business and being a playboy so when Zayed's mother makes an announcement that shocks everyone and Zayed is now to become Sheikh he must prove that he is not the playboy most think he is.

This is a very passionate story that shows strength and understanding as two people who are brought up so differently now are joined together for the good of the people but that spark between them is way too hard to ignore they are very good at pushing each others buttons and the passion that sparks from it ignites this story into a beautiful journey to a wonderful HEA that will have you smiling I highly recommend this story it will keep you turning the pages the setting is beautiful as is the descriptions of the clothing and palace will want you visiting :).

Robyn Rychards says

This is the first book I've read by Andie Brock and I really enjoyed it! Her characters come to life from page one and leave you rooting for their happy ever after. Classic Presents sheikh hero that you can't help but fall in love with and I highly recommend it for anyone who enjoys Harlequin's Presents line!

Desere says

As far as Sheikh's go, they always have a duty to their people, to uphold the crown, to ensure their country prospers , heck the list goes on and on. So it's naturally not a surprise when I hear the word Sheikh , my mind already goes from hero to boy this is one of those where he will have the battle of his life trying to please everyone. Now it might sound like I am trying to say that I find that scenario a little predictable, but I am most certainly not. My reason is a very simple one, it's that very determination they need to have to keep everyone happy that make the reads featuring sexy Sheikh's such a thrill to read.

And let me tell you, with the talented Andie Brock behind the hero, sculpturing him from nearly regular guy to ultimate hero, there is no way you will be forgetting Sheikh Zayed Al Afzal anytime soon or end up thinking, that this is just an ordinary same as usual regular old sheikh.

Now let's get down to the story, newly crowned Sheikh Zayed Al Afzal needs to earn his people's allegiance. And that means the one and only thing this very wicked playboy has always avoided, marriage! His advisers have a string of beautiful options all line up and ready to get down to business but it's when he meets the

exquisite Nadia Amani that he decides it's time he makes a choice of his own for once.

So the wedding contract is signed, sealed but not quite ready to be delivered because Zayed learns the shocking truth, Nadia is his enemies daughter. But it's during the dark desert nights Zayed finds his desire for the princess intensifies and anger gives way to sensual hunger that keeps begging to be satisfied, if only the princess could be someone else.

This was by far one of the best researched books I have read in a while, the attention to detail was brilliant! I really enjoyed the character of Nadia , she was a really fun and upbeat princess and not at all like the usual dull type in these very common sheikh reads. Not once did I wish I could knock her over the end and just shout out " Come on, your a princess, stand up and do something!", nope the author crafted a really stunning princess, in fact I will go as far as to say , Nadia is the type of princess I think every princess should be.

The character of Zayed was one that I found to be a little too overwhelming, but only for the first part of the read. After a while he started to grow on me and I started finding him a little less overwhelming and a more intriguing. But there was one or two times thereafter that I still wanted to stuff him in the nearest lock-up , just to defend Nadia a little, after all I am female and thus of course I would rather stick up for woman then men, woman as so often mistaken as the weaker sex , where in actual fact I think woman are much stronger then men, let's face it woman can face a million troubles and still get back up, men have a tendency to simply lie down and not even try to get back up, and who comes to save them, that's right a woman!

Through both characters the author showed that there is always a twisty path in life that needs to be taken in order to find the right one. Sure it's long and dragged out and seems never ending and just messes with your plans, but you know what , when that magical end in the road lies within your grasp you'll realize it was so very worth it!

I highly recommend this read for all fans that love a good, shaken up , rock you to your core sheikh romance.

5/5 star review

" A contract that will bind them for life, that is if she can convince her captor to let her into his heart"
