I really enjoyed this whole series - got it as a set on kindle unlimited and I will definitely be reading more of this author's works. I love series that deal with siblings and this one is definitely one of the better ones. The characters were well written and I enjoyed the background stories of all of the women and how everything eventually was found to be connected.

Check the series out for sure. :)

Fantastic

This is one of the best series I have ever read. The author gives the reader a family of characters with a lot of depth. They feel real and true to life. It is very easy to become drawn into their lives. You feel as if you are one of the Family.

Romance, action , and light paranormal

What a great series and a great buy!

I'm going to start by saying that I almost stopped reading about a quarter of the way through the first book in the set. I just didn't like Sarah and felt like the story moved slowly. I made myself keep reading, and I'm so glad I did! The story really picked up, and I fell in love with the McNeils. Each story got better and better in my opinion. The romance and sense of family was perfect, and the characters were easy to connect with. Plenty of action, mystery, and suspense was woven throughout the series as well as a small bit of the paranormal. If paranormal is not your thing, don't discount this series. It is a very small aspect and simply

relates to messages from loved ones from the past. I had never heard of this author or the series (It was advertised in an email I received.), but I will be looking for more.
