Last Girl K.S. Thomas

When Beatrix 'Trix' Daley loses her twin brother Bo in a tragic accident, she inadvertently gains his best friend, Penn, whether she wants him or not. Penn is the exact opposite of her brother. Obnoxious. Cocky. And out to sleep with as many women as possible. But he knows. He gets it. Because he lost Bo, too.

Penn's been going out of his way to piss off Trix since he was six. Twenty years later, and getting under her skin is still his favorite pastime. And Bo's still the only thing that keeps them tied together. Even if he has been dead for eight years.

For better or worse, Trix and Penn have been the constant in each other's lives, and the line between love and hate continues to blur at a steady rate...but Trix is the last girl on earth a guy like Penn should fall for. So there's no telling which side of love and hate they'll wind up on when all is said and done. And whether they'll wind up there, still together...or not.

It's so unexpected, it leaves you gutted and breathless, angry, cheated, sad but not sorry you have had read it and had your heart sadistically lambasted.

Kerry Richardson says

I had to take a bit of time before doing a review of this book. At the beginning I was drawn in and completely invested in the story of Penn and Trix. I was thoroughly enjoying the book and when I finally reached the epilogue I was an emotional wreck but happy with the ending. However, the epilogue was not the end of the story, there was a further chapter to the book and that one chapter absolutely killed my enjoyment of this book, it totally ruined it for me and I don't understand why the author did this. I would have given this book 4 stars but because of the twist I had to drop it to just 1.5?. I am left feeling extremely disappointed.

Nermeen says

i did not like this book..... i absolutely loved it . it is a really good book , very well written with an amazing story and great development . it's the first book that i've read that is very deep , intense and emotionally charged . the story itself is very touching and the plot is so heart warming , and i felt like i could relate to the main character since she is deaf and i have a bit of trouble when it comes to hearing clearly/correctly and it's been an issue for me ever since i was very young . so to have a main character that isn't perfect and has some kind of disability is what i like the most about this book . because people aren't perfect and they will never be . every book that i've read has the main character as some kind of perfect angel but not this one , she's just a normal girl with struggles just like any of us and that is very relatable .

moving towards the end of this book you'll find a very big and unexpected surprise that i particularly enjoyed and loved so to those of you who like to be surprised i highly recommend you read it .

Shelley says

95% of the book was pretty good and I would have rated it 4 stars. Towards the end it felt like the author just kept adding drama after drama and then the ending which really put it over the edge. Last 5% was a 1 star for me.

Mary McFarlane says

Oh my god I couldn't put this book down! It was more of a 4.5 close to 5 star rating but I didn't like the fact

that they had to kept reminding us she was deaf. I can even say how hard I was crying at the end, it was just so much at the end. I had to put the book down a few times and just cry for a bit. Wow, just wow

Beatrix "Trix" loses her twin brother, Bo, in a tragic accident when they war 18 years old. Bo's best friend Penn has been someone that Trix has fought with since they were children. Now she is stuck with him, because even though their relationship is contentious, each of them is the only other person who really knows what it was like to lose Bo. As time goes on, they realize that their relationship isn't exactly easy to define and may be more than either of them anticipated or wanted.

I got hooked into this book pretty quickly and then read it straight through. There were some things I didn't expect, that I found to be really interesting developments to the story and kept me engaged throughout. Trix is an easy character to care about. She is a smart, and driven person who is trying hard to live her life after the death of her twin brother. Penn is a cocky guy who is actually really easy to like as well despite some of his overt behaviors. It is clear that through all their bickering and fighting they both care about each other in a very complete way. It is unclear whether they could ever have a relationship beyond the one they forged out of grief and necessity. As they both start to acknowledge what they both really want from each other, everything starts to fall into place in a wonderful way.

I don't really want to give anything away, but I'll mention that I was really emotionally invested by the end and I was certainly experiencing a variety of feelings but the end of the book. There is a thing at the very end of the book that I'm not quite sure how I feel about. I think whether you love it or hate it, it will give you something to think about.

I enjoyed this book and would gladly read more by this author in the future.

While I didn't see the twist coming, nor do I need a HEA, it completely obliterated the book for me. Too much time invested for that kind of ending.

Laura Rendler Rendler says

Hell no. Just no. Seriously wtf. Omg I can't even express how pissed and confused I am right now.

Shelle Perry says

This is the story of Trix and Penn eight years after the loss of Trix's twin brother, and Penn's best friend, Bo. Bo was the fulcrum of their Love/ Hate relationship in life and and is the lynch pin of their relationship in death. In the beginning it is easy to see that their relationship is not healthy. It seems obvious that they

should have gone their own way many years before and at the death of Bo should not have been enough to keep these two in any kind of relationship. Turns out that is true, Bo isn't the reason. Each is in love with the other and must come to terms with it in his and her own way.

The book is roller coaster of emotions for both the characters and the reader. This book is fantastically written and I want to be clear about that, because I spent most of the book thinking that the story just seemed too forced, something just didn't ring true about it. The relationship, with its wide mood swings just seemed too unbalanced to work.

I did eventually warm up to the love story and just when I was feeling comfortable with the everything-is-going-to-work-out conclusion that seemed to be coming as the end of the book loomed, I got kicked in teeth with one emotional twist after another. The ending had me spitting mad and realizing that it all suddenly made sense. I am not a huge fan of Nicholas Sparks style tearjerkers, but I am aware that they are wildly popular with a huge portion of fiction readers, so I am sure this particular book, though not my cup of tea, is destined for success.

Get the tissues out ladies. Big ugly cry book here. To the author - thank you but I hate you. :) I was not expecting that.

Full of surprises, the story is told in dual POV mostly between Trix and Penn. They hate each other, but love each other. Makes sense, right? Characters were well developed. Story was very well told and easy to follow. Scenery descriptions are ok. Build up between the two makes sense as they've known each other since childhood. Hang on to your hats the further into the book you get. It just seems to get better and better and then just when you think you have it all figured out - whammo! The author hits you with a surprise. Loved it!

This book is a stand alone. It does have an HEA, sort of, but then again not.....

Absolutely unbelievable.

I don't feel like 5 stars is enough for this book that took me through so many emotions and so many tears. There is no way to even do this review justice without giving away something that I wasn't expecting.

Beatrix "Trix" Daley's twin Bo died 8 years ago and a part of her still struggles with the loss. At her side is Bo's best friend Penn Cavanaugh, whom she has a weird relationship with. Both have been present in each other's lives for 20 years but they aren't really friends.

Yet, beneath their "annoyance" for each other something more is present but will the memory of Bo bring

them closer together or farther apart?

I love all the characters in the book. The friendships that Trix and Penn have with other people are so pivotal and give the characters strength and guidance when they need it most. Trix is such an amazing woman who is trying to find her own way to deal with the grief of her brother's loss as is Penn but they need to really figure how to do it.

I honestly can't say enough amazing things about this book without ruining something but this book will stay in my heart and mind for a long time. Just incredible.

Took me a little bit to get into Trix & Penn's story. In the end, I was a hot crying mess (for me it means the author did an AMAZING job if I'm emotional reading her/his story). It is NOT a predictable love story type book.

### **Paula Genereau says**

Beatrix loses her twin brother Bo to a tragic accident. When he passes she gets his obnoxious best friend that is a pain in her butt for the past 20 plus years. Can she deal with him or will she tell him to go?

This book was awesome. I loved every minute of it. I received a ARC for my honest review

### **Kinsey Faucette says**

This book was a train wreck..... But in the end, aren't all things that destroy us beautiful? Hurricanes cause destruction yet are a sight of such beauty to behold.

This book was tricky in the beginning, as it was a touch boring. Though after one third of the book, I fell for Penn hard. Trix upset me to all ends of the earth with how she held back from loving Penn, until she finally relented.

When she did, love was everywhere. The author made it possible for you to feel it.

But then I reached the epilogue, and my heart broke. It's not what you expected. Even the last chapter before the epilogue isn't what you expected, but man when you get there, it hits you hard.

I enjoy books like this that draw you in, and then leave you breathless.

Whether or not you would consider it a happy ending or not, it was, just in its own way!

## Emily Goodman says

Well I'm just a big hot mess after reading this! How do you survive when you've lost your brother and best friend? Trix Daley has survived these last years leaning on her dead brother's best friend slowly removing herself from the world. Penn has always loved Trix even when she didn't love herself. Vowing to never cross the line and tell her his true feelings Penn bottles it inside until his love for her becomes unbearable. Can Trix and

Penn admit the feelings they've had since they lost their best friend?

To say this author had me tore up, emotionally wrung out, and caught up in her story would be a true understatement. Just as I thought I knew where this story was going, she'd switch it up just enough to keep me going. I enjoyed every minute of this read. Penn and Trix's journey of love was intense, emotional and very well thought out. I loved the added bonus of the wonderful counseling friends they each had adding touches of humor and a light hearted approach to such an emotional story. It truly helped balance out the deep rooted feelings of Penn and Trix.

Last Girl is a book that must be read. Hold onto your tissues and enjoy this wonderful story of a love that heals all wounds and lasts many lifetimes.
