## From Reader Review Moon Girl and Devil Dinosaur #2 for online ebook

### Cathy says

This second issue didn't impress me much. There isn't much story progression. Luna and the Devil dinosaur are still likable characters, but it's like having an overly intelligent girl with a weird dog. Then you have the monkeys just learning human behaviour and language easily. And that really disappointed me. The art work is still good. I'll probably keep reading. You never know. This might get better.

### Abigail says

This series is just lovely. The art is engaging, the stories and characters are fun. How do I find an interdimensional portal and get a dinosaur?

---

### Kim Song says

We learn why Lunella is looking for the Omni-Wave Projector and how important it is to her research. I have to admit, I was a little disappointed that it wasn't something more "dramatic", but I get it, not knowing what kind of changes will happen is scary. Other than that, the entire issue felt a little flat with no real story progression. Devil Dinosaur and our cavemen friends wreak havoc in Lunella's town and we end with Lunella being in grave danger. I adore our main character and will continue reading the series. I expect it to get better!

### Lucas Brown says

Promising, but moving at a snail's pace. I expect big things from it, though.

### Suzanne (Chick with Books) Yester says

This fun series continues in this issue... #2!

Issue #2 finds Devil Dinosaur, who still has Lunella, causing all sorts of havoc in the city where Lunella lives. At the same time, the 5 cave guys are causing their own havoc in the subway and then with a couple of policemen. I don't want to spoil anything here, but Lunella finally gets away from Devil Dinosaur only to be captured by the cave guys... you'll have to read the comic to find out what happens.

The story slowly starts to develop in this issue. I really didn't think I would enjoy those cave guys much, but they just got more interesting and fun. I can see the potential for some tongue in cheek humor as they adapt to the 21st century. And I am really loving Lunella! The artwork is nice, the storyline is good, and I can see this series having such great potential!

I would recommend this to anyone wanting to give comics a try! I'm not a superhero reader, and I am loving the nerdy girl coming into her own here!

### **Madison says**

These are SO cute! I need more ?

\*I see a few complaints in the comments about it not providing much story line... this is a 24 page issue, you're not going to get everything at once. If you want that you need to buy the volumes (I do that with most comics because I plow through them). I enjoyed and appreciated the Easter eggs dropped throughout #2. It's enough to let you know what's going on without giving everything away. I don't know why everyone is so butt hurt.

---

### **I'mogén says**

This issue really explained Lunella's intelligence and why she is the way she is. Other than that it was a really short filler, so that's why I'm giving it a 3 stars, and because nothing much happened, but I think it would probably read better as a full volume.

Pick it up, give it a go and enjoy! ^^

### **Zoe's Human says**

I consumed the first 6 of these in one fell swoop, which makes it hard to write 6 back-to-back reviews. Especially when one considers that the first 5 are essentially the origin story of Moon Girl. That really makes it one book in my mind regardless of binding. It's still good and fun and exciting though.

---

### **Chris Conley says**

It's kind of cute, but it doesn't feel like it's made much progress yet.

---

### **Taylor says**

Story still a bit all over the place but overall a great way to introduce younger kids to graphic novels.

---

### **Terence says**

Lunella is literally being carried away thanks in no small part to the device she found *and the Devil*

---

*Dinosaur.*

So the Devil Dinosaur has grabbed Lunella and seems uninterested in what she wants.

The Killer Folk are on their trail though. I have to say there is only one new thing to report and I'm not spoiling that for anyone who has yet to read the issue. Hopefully the next issue is better.

2.5 out of 5 stars

#### **Who says girls don't read comic books?**

My 9 yr old daughter is completely smitten with this series. It's her gateway into a love for comics and graphic novels. This is why representation is so important.

---

### **Solace Winter says**

This one was better than the first to me. Hilarious and moved in a way that didn't require much... text. And DD is just too cute.

---

### **Shannon says**

I'm deducting some points because the killer-folk are kind of silly, but not in a good way. They managed to learn a new language and human behavior in seemingly one day. Kind of lame villains for an inhuman and super awesome dinosaur.

---

### **Rochelle says**

The ongoing struggle between Lunella and Devil Dinosaur is hilarious. DD carries her by his teeth around NYC. He's not exactly a knight in shining armor, but he is keeping her safe from the cavemen. The Kree projector brought these prehistoric troublemakers out. So Lunella's quest for knowledge just may get her killed!
