Banished to the "death page" at the Austin Sentinel after sleeping with her boss, Cauley MacKinnon is eager to shed her shameful title as the Obituary Babe and put her new journalism degree to good use. When her childhood friend Scooter Barnes, exotic pet store owner and former Dallas Cowboy, threatens suicide, she sneaks into the crime scene and manages to talk him out of it. But Scooter is later found dead and everyone - a hot FBI agent, a menacing one-eared maniac, the Argentinean mafia, and a flirtatious customs agent -- wants the scoop on what he told Cauley in his last hours. Up to her eyelashes in dead bodies, Cauley gets mixed up in a Texas-sized hunt for Scooter's killer and also manages to fall for a couple of cuties involved in the murder case.

Lynsay says

great storyline, awesome read. would have been 5 stars if it wasn't for grammatical errors, such as missing words, missing commas and missing punctuation.

Kenedy says

Fun read. Since I'm from the Austin area, it was fun to try to figure out the places she references in the book. Kind of fluffy, but a nice light read.

Redhead says

This improves as it goes along, a little overdone but an interesting read. Loved the dog.

Pamela says

Love her books and patiently waiting for book 3. I'm from Texas. Great characters, great mystery. Kit's books are fun reads.

Kelli Ann says

This was a fun mystery/thriller with an entertaining female lead.

Stephanie Davis says

I enjoyed this book. I liked it being in Austin and poking fun at various stereotypes. I liked the little bit of romance. I liked when I found out I was wrong about certain people... and when I was right.

If you are looking for a light mystery that is more of a comical nature, this could definitely fit your needs. Cauley is a down-on-her-luck reporter that can't catch a break in life, love, or literature. Then things get worse when her childhood friend reaches out for help only to start mass chaos in Cauley life.

That should be enough to get you going. Enjoy. You and Cauley have some research to do.

Tara Chevestt says

This was a refreshing read and had me laughing out loud a few times. I had a hard time putting it down. The only think I did not like about it was that even after reading some of it over and over again, I cannot figure out Diego's connection. Not sure how he fit in the story or who he worked for.. ? At some point, there got to be so many characters involved I had to go back and read some over again to remember who they were. I plan on reading the next one. Maybe it won't be so confusing. Still enjoyable tho.

Tanya says

It took a little bit of time to figure out who all the characters were, but once I did it was a good story. I felt like the author dropped too many big hints, so it wasn't a big mystery, but maybe it wasn't really meant to be.

Kaye says

3.5***

Gwenn Wright says

3.5/4. Stephanie Plum Texas style. Fun, predictable fluff. I would give it a four but there were so many times I had to suspend my disbelief. But it was entertaining. Marlowe was definitely the star of the show.
