Loving the Babysitter Cassandra Dee

She was good with kids, and the alpha male wanted more babies ...

I've known Mandy Smith for years now, ever since she started coming over to babysit my daughter. Back then, Mandy was a gangly teen with buckteeth and braces, someone I barely noticed. But something's changed since she was away at college.

The braces came off.

The brunette got contacts.

And holy hell, but the girl developed curves ...

Because I've been divorced for years now, and my gorgeous babysitter would be the perfect mommy for more children – **our children!**

Note: This is a sexy, smutty romance that will make your cheeks burn and your panties melt! Guaranteed HEA. This book contains the bonus novella Double Massive for a limited time.

This is the most cringeworthy book I've read in a long time.

And no I didnt even attempt to read the bonus book.

From describing her vagina as a pink channel, to his penis as a fuck rod; from the heroine praising her love button as "having the biggest clit" and to the hero calling his body "Adonis" these are just few of the gems of writing I read in this.

How they refer to each other in the book: Teen, slut, brunette, alpha, daddy..and yeah..everything is repeated a million times..

Semen erupted from my pole, arcing across the bathroom to splash wetly in the tub, mixing with Mandy's sweet cum as I pumped and pumped, goo oozing everywhere.

And fuck, but I was still coming, the white so copious and thick that I could have fathered five kids right there, there was so much sperm, so much goodness.

She was perfectly symmetrical, with none of those gross flapping parts that some chicks have. And her smell, it was the heady scent of a female in heat, tangy, musky, none of that garbage shit that emanates from a woman who doesn't clean down there.

Just three examples of the brilliant writing and metaphors used to describe the acts in this book. The book is Safe with exceptions.. but I cant get over the way its written.

An Awesome Read!

I loved reading Loving the Babysitter, all about Amanda Smith an eighteen year old college student and a babysitter & Pete Parker the father to my special little girl Violet Parker who is four. I've babysitting for Violet since she was born and she and I have a very special bond! But things have changed and not in a good way, her mother left and divorced her father. Now it's just the two of them, and it's very tough, since all the nanny help has quite, and none of the new nannies are clicking with Violet. So I have taken to working from home, and in the mornings she goes to half day day-care for socializing and in the afternoons she's home with me. It's been months since I've been out of the house or even dated, and I need this so Amanda is home from college and is coming to babysit Violet. The author wrote a very interesting story, that is s full of compassion and lots of mutual respect and loving gestures! I could not put it down! Their was also a bonus story included about Logan & Lance Phillips a twin brother team who happened to be Billionaire Real Estate

moguels & Kacey Donnelly a young girl who reminds them of a childhood friend named Katheryn who died during a tragic bridge accident. It was another great story that I was unable to put down. So check out this book, i don't think you will be disappointed!

This book gave me a strong sense of Déjà vu.

Let me explain...

When I first saw this book in the New Releases, I thought I already had it. I checked and it turned out I had something else called Falling for the Babysitter, also just released, by Penny Wylder. So I downloaded this one and started reading. Then the Déjà vu kicked in.

The two books are so similar I started switching between the two to compare, and almost all the major plot points were the same. Which made me wonder; was one of the stories plagiarized? I don't know if they are, but it's awfully coincidental.

Mandy was an eighteen-year-old college student home on winter break. She agrees to go babysit for a family that she used to babysit before leaving to go to college. During that time frame, there was changes for her. She filled out from being skinny to a very curvy woman.

Pete was a forty-year-old divorced man that was needing a babysitter for his five-year-old daughter. His daughter was having a tough time since her mother left a year ago, so he gets Mandy to come over to watch his daughter since she watched her before.

Pete and Mandy discovered that they had strong feelings for each other. So, to explore them Mandy moves in with Pete and his daughter to be his daughters nanny and Pete's lover. Mandy was having feelings about not wanting to go back school. She wanted to be a mother but also didn't want to disappoint her parents about getting a college education. So, at the end of winter break she goes back to college, feeling depressed that she was not pregnant thinking that if she got pregnant then she could quit school.

How does Mandy and Pete work out where Mandy can go to school and still be a family or have the family they both want with each other? How does Mandy's parents take this news? A very good book that has a HEA.

I voluntarily reviewed an Advance Reader Copy of this book. I enjoy reading Cassandra Dee's books.

Unfortunately not much structure in the story. The story line itself was a good idea but when written it lacked

unity. In some positive news, the sexy scenes were somewhat HAWT! Sorry, better luck next time Ms. D.

As much as I wanted to like this book, I honestly am a bit split on whether it's something I would consider reading again or not.

Falling in love with the babysitter is probably one of the most popular and one of my favorite tropes to read about. However, what turned me away from this book was the authors constant need to remind the reader about Mandy's plus size. I GET IT! SHE'S A CURVY CHICK! I don't need the author mentioning about her "jiggling bits" every freakin page.

I also didn't care much about Mandy's indecision throughout the book. She's an adult and still seemed to have a need to make her parents happy more than herself. For her graduating top of her class she seemed quite dumb when it came to making life choices. She needed somebody else to help point out that there aren't just 2 choices for every decision she needs to make about her life.

Younger woman and older man story

I like the younger woman and older man stories. This one is about an older man who is recently divorced and a young college girl who used to babysit his young daughter. She outgrew her thin frame and started to wear contacts and glasses. He sees her after a semester in college and asks her to help babysit his daughter during winter break and this is where the book gets steamy!

I can't stand it, I literally **hate** it, when the beauty/perfection/flawlessness of the heroine is emphasised using non-perfection and "faults" of other women. It's offensive and humiliating!

*I've seen more than my fair share of cunt and on a scale of one to ten, Mandy was twelve. She was perfectly symmetrical, with none of those **gross flapping parts that some chicks have**. And her smell, it was the heady scent of a female in heat, tangy, musky, none of that **garbage shit** that emanates from a woman who doesn't clean down there. Yeah, like I said, I've seen it all, I've been with a lot of tramps.*

NO! NO! NO!

Mandy used to babysit for the Parker Family when Violet was just a baby. She knew this family very well, at least she thought she did. She was the geek girl with braces and stick straight bean pole. That has all changed since she went away to college. She filled out and developed curves. So it really was not a big surprise that when Mandy came home for Christmas break she was asked to babysit from Mr. Parker. She gladly accepted because she missed little Violet a lot. But she also missed Mr. Parker a lot too. Mandy dreamed of him and her together, in very yummy ways. Now she arrives to babysit and learns that Mrs. Parker left him and Violet. Shocked and stunned, the reaction that Mandy has to this news. Well she was here to help!

He heard that Mandy would be home from college for the Christmas break. He has had a rough time of it the last 6 months. His wife leaves him for the pool boy, Violet's nanny leaves because of the way the child has become, and he needs a sitter. Mr. Pete Parker has a date. He really is not looking forward to it, but he needs time out of the house too. Mr. Parker is stunned into silence when Mandy stands at the door. Gone is the braces, the awkward geeky girl who used to babysit. Now Mandy is all woman, and he is so not wanting to go on this date now, he talks with Mandy a little and leaves. The whole time he is on this date the woman he is with (a former lover) he is embarrassed and just wanting this disaster to be over. He heads home.

When he gets home it is past Violet's bed time and the house is quiet. He looks for Mandy to say thank you for helping him out, but he can't seem to find her. When he does, he is in for a surprise. Mandy didn't hear him come in, she is too busy with the moment she is in, and didn't even realize he had been there watching until she hears clapping. There is a chemistry between these two, despite the age difference. That part really doesn't matter to either of them. What does matter is Violet and their feelings towards each other.

They get together, delightfully, and she even moves into the guest house to save on her old car and travel. Mr. Parker (being called Pete by this time) went with Mandy to a family gathering and there is some excitement between these two during a boring slide show. Now it is time for her to go back to school, and this is not settling well with Mr. Parker. But these two are determined and meant to be together. They have alone moments and then back together moments. There are some ups and downs throughout the book, not horrible ones, but a test to any relationship. Spoiler alert, they do have a happily ever after. This was a book too hard to put down. Awesome book, very awesome.

Disappointed! This could have been a good older man/younger woman story without the Daddy kink... which is not my thing at all.
