The Boss's Fake Fiancée Susan Meier

The perfect fake fiancée—his assistant!

Billionaire Mitcham Ochoa never expected to be the best man for his brother and his own ex! But what better way to prove he's over her than to have his very own "fiancée" at his side?

PA Lila Ross has had a crush on her boss since day one, but surely pretending to be his fiancée is a step too far? She knows she'll be heartbroken when she has to walk away... Only Mitch is beginning to find Lila as indispensable in life as she is in the office!

Jennifer Schultheis says

The Boss's Fake Fiancée by Susan Meier intrigued me from the very beginning. Mitcham is to be the best man for his brother's wedding, and normally there wouldn't be anything unusual about that, but in this case, his brother his marrying Mitcham's ex. Talk about awkward. He needs to prove that he's over her, and what better way to do that, than pretending he's engaged to someone else.

Pretending to be her boss's fiancée shouldn't be all that hard...but it is, especially when Lila has a crush on Mitcham. As the rouse goes on, it's hard to remember that they are pretending and not really together. I really loved Mitcham and Lila together. Mitcham's family was interesting and just what Lila needed. I also enjoyed Mitcham's ex. I didn't hate her, like I thought I would. She really is better off with his brother.

It's a clean romance, which I loved. Sometimes, you just need a book that focuses on the emotions without the sex. This book provided me with that. I was still able to get the romance that I craved!

Norma Huss says

Okay, she definitely was hiding her beauty while pining for her boss. Miss Efficient, that was her. A shoo in for the boss who didn't want to be involved, but wanted to convince the family that he was over the ex girlfriend his brother was marrying. Except, she had to look the part. So, what else? She went natural (and beautiful/vivacious of course). Who could resist?

But she knew she'd disappear from his life after she played the temporary part because she had a massive crush and also knew she couldn't stand it to go back to Miss (ignored) Efficient.

Read and enjoy!

Michelle Eriksen says

If you are looking for the type of romance you can escape into for a while and just know that you will get all wrapped up in the characters and story this one is for you. I really enjoyed reading Mitcham and Lila's story with all of the little twists, tender moments and a little steam thrown in. Good Story!!

Jess Lawson says

I adored Lila and Mitch. This story is downright charming. It takes you through all emotions from fear of being loved to being loved. The realness and heartfelnness of this story is stunning. I couldn't put it down. Thank you Susan for such a wonderful piece of work.

Lila had dressed as a mousy assistant for a year. She had been right under Mitch's nose and fell extremely hard for him. She knew putting herself in a position to pretend to be his fiancé was a risk to her heart, but she loved him and would do pretty much anything to help him.

Mitch had saved the family business but he didn't do that till his girlfriend left him for his brother. So in order to prove that it didn't bother him he worked hard to create a whole new life with the business. Yet now he has to face the family at the wedding of his brother and the woman whom he once dated. How can he do that without pretending to be happy himself.

Camy says

Another heartwarming and romantic story from Susan Meier! The heroine, Lila, is probably one of my favorites from this author. Lila is practical, smart, funny, and compassionate. I also like her backstory of being raised poor and in foster care, and her desire to find her mother. It comes with so much emotional baggage that she has to deal with personally and it makes her a very interesting character.

The hero is very sexy, also. Maybe it's just that I find Spanish men terribly sexy. :) I also like the winery setting and that aspect of his business. His love for his brother and his confidence in who he has become is very attractive.

I have to admit, though, that the middle sagged a bit for me. It only picked up around the last third of the book when Lila's past comes back into play in the storyline. The ending was very, very sweet. Overall, it was a very entertaining book!

Coral says

Plot: 3/5

Characterisation: 3/5

Prose: 3.5/5

How much I enjoyed it: 3/5

Lynn Brooks says

4 1/2 STARS!

An adorably sweet take on a dating the boss Cinderella style story! I really enjoyed both characters and the plot. It was fast moving and easy to read, some humor in there and a pleasant trip towards a happily ever after!

Mitcham Ochoa feels pressured into proving that he's over his ex-girlfriend when he has to travel home to be the best man at her wedding ... to his brother! When an oddball plan takes root to take a fake fiancée along for the trip, there's only one option available ... his mousy personal assistant!

Lila Ross has been crushing on her boss since the very first day she became his personal assistant, but he doesn't know she's alive other than as an employee. She's not so sure she can pull this ruse off, but with the use of his credit cards, she performs a magical make-over that has him seeing her as a sexy companion that will surely convince his family he's happily occupied elsewhere!

San-Dee Keefner says

This book was a yawn feast for me. Just like the H, who was a quiet no communications type of guy so was this book. It was almost a DNF for me but I trudged along. With out giving away to much... honestly not to much to give away.. h works for H, she is in love with H. He does not love her back. In fact He knows next to nothing about her. But he needs a fake fiancée so nobody thinks he is still in love with his ex, who happens to be marrying his brother. The drama in the whole book???? H was a foster kid and she felt it was her fault her mum got arrested b/c she told a social worker where her mum keeps her empty vodka bottles. The book just went down hill from there for me. Was kinda bland in the reading.

Ann says

Some days you enjoy just reading an old fashioned romance. Mitcham is returning to Spain for his brother's wedding and to keep his Grandmother from smothering him with concern he convinces his assistant Lila to pose as his fake fiance. This story comes out exactly as you expect it to but is still a good read. Insight into the wine business and Spain's beautiful grape growing region. Very sweet and fun.

ReadingInThe6ix says

I usually like stories like this a lot (boss/assistant), but this had one thing I generally do not like. Lila is basically invisible to Mitch as anything but a genderless assistant until she gets a makeover and new clothes. I hate this. I wish there had been some hint that he felt even a little something for her before the whole fake fiancée charade...would have made me like it even more.

Otherwise it was a fun read and had the perfect amount of romance.

Maggie Hesseling says

A wonderful read to while away a couple hours. Great characters, great story, great writing. It's the perfect read for a lazy day. What I particularly liked about it was that it was so easy to connect to the characters. They seemed so lifelike. Mitch and Lila could be your friends. They're down to earth, fun and hold the notion of family as important. I haven't really read anything else by this author, but I'm definitely going to change that.

Kathy says

content: clean

Mauri says

Another fun, romantic read from Susan Meier - her couples are always a joy to read, and the fictional visit to Spain was a nice treat.

Vickie Fisher says

Absolutely loved this book, I read it in just a few hours. Mitch and Lila are such enjoyable characters I couldn't put it down. Once again, Susan Meier has written a story with characters you not only connect too, but also fall in love with. If you are looking for a feel good book that will tug on your heartstrings this is the book for you.

MY RATING: 3/5 STARS

I was provided an ARC in exchange for an honest review.

The boss's fake fiancée by Susan Meier tells the story of one-sided love. PA Lila Ross has fallen head over heels for Mitch and he doesn't have the slightest clue.

When I first started reading this novel, I didn't know it was a Harlequin Romance series. I assumed it was a Harlequin Blaze or Desires and I blame Net Galley for not providing me a cover photo for me to see what exactly am I reading so the entire time I was waiting for hot sexy times but all I got was a story about love. I saw Lila's love for Mitch, her sadness that came from a broken family, and her falling in love with his big happy family in Spain. Which is great but it can be a tad boring, in my opinion.

The whole story developed naturally. There was no rushing into things and for that I'm very happy about. I also enjoyed the fact that family played a big role in this story. I loved Mitch's nanny. She was spunky and quirky so definitely don't mess with her.

However, with little to no conflict or angst or sexy times, I have to sadly give this an average star rating of 3/5 stars.

MY RECOMMENDATION:

Read it after you read the rest.
