What a book ! It's been a long time I have read such beautiful tale in my own language. Thanks to the movie Reva, I came to know about this and now I am inspired to read more work from the author. This book is a gem and it shows on each page. Yes the telling is a bit unparalleled and it is inconveniently printed (without any pause marks, the chapter goes on and on). But it keeps you overwhelmed, making fall in love with nature and the characters. Not intended, but comparison is inevitable, of this author to Ruskin Bond. Keeping nature and philosophy in heart of the tale, the stories touch your heart. In the end you yourself want to take Parikrama around this lifeline of all, Reva.
