Excellent and fun resource, and I love that she not only includes women of color, but she includes a nice range instead of just one example.

A very interesting and engaging mishmash of history, tidbits, and how-tos. Lookin' good!

Catherine Schaff-Stump says

An excellent guide on how to recreate fashion from the 1930s to 1960s.

This book goes through all the different eras with the it look for each era. I love how it starts off with a bit of history about makeup and the trends of past eras.

Very much a great resource book for the retro and vintage lover.

Excellent make up tutorials. The make up history that went with each section and each tutorial was perfectly fascinating. I only wish the book was a little longer for the price.
