Blue Balls and Push-Up Bras Mandy Harbin

Abstinence makes the heart grow fonder...

Sex would be nice. But after giving birth, Sophie is a little self-conscious about her body, and her husband, Sawyer, hasn't even tried coming on to her. What's a girl to do? Don't blab to your friends, that's what! Their reaction is a mix of shock and pity, but they unite under one common goal: to get her laid. In one week, she's going to show Sawyer just what he's been neglecting. At her reluctance, the girls all agree to break out their push-up bras for a night of showing off their assets in support of her mission.

But Sophie wants it now. The talk with her friends sparks her to be the initiator, but when she tries turning on the charm, Sawyer still doesn't give up the goods. Now the only big O she's getting is offended.

So she hatches a little plan of her own...

Tina Lee Harris says

3.5 stars

I do believe this series is a great way to enjoy a weekend, listening to these girls and their men problems. They are there for each other and come up with the craziest ideas to help make things better in each of their relationships.

This one had me laughing at the crazy thought that Sawyer would listen to his cousin Georgia about how to handle his sexlife after having a baby. He becomes well aware that he was wrong when Sophie shows him what he is missing. As things escalate over the next week, not only does Sawyer end up with blue balls but Sophie has a case of them too. Hehe

Will they be able to get over this? Can Sawyer show Sophie how much he misses her? Will Sophie allow Sawyer to show her exactly how he loves her?

Synopsis: *"Abstinence makes the heart grow fonder..."*

Sex would be nice. But after giving birth, Sophie is a little self-conscious about her body, and her husband, Sawyer, hasn't even tried coming on to her. What's a girl to do? Don't blab to your friends, that's what! Their reaction is a mix of shock and pity, but they unite under one common goal: to get her laid. In one week, she's going to show Sawyer just what he's been neglecting. At her reluctance, the girls all agree to break out their push-up bras for a night of showing off their assets in support of her mission.

But Sophie wants it now. The talk with her friends sparks her to be the initiator, but when she tries turning on the charm, Sawyer still doesn't give up the goods. Now the only big O she's getting is offended.

So she hatches a little plan of her own..."

My Review: Nothing like some good old fashioned payback and punishment to steam up your love life! I thought this book was a great little pick me up. I loved the interactions between the ladies and especially Sophie and Sawyer. I can definitely sympathize with Sophie, the time period after having a baby is treacherous for both wife and husband, simple misunderstandings can go way off the deep end. I loved the planning and scene with Hannah, I almost died laughing. If you are having a spat with your significant other, this book would be a fun way to lighten your mood.

Missy Burek says

I loved this book!!! Every woman should read it after having her first baby!! It really does explain what people go through after the birth of their first child that most of your friends won't talk about!!!

books are love says

This was a fun book. I loved the punishment Sophie doles out to her husband. especially when she ratchets it up a notch and she includes Hannah. And her husband sawyer was such a good sport. His gesture to show he loved and cherished her was precious.

Sawyer was a doof for listening to his cousin about not touching his wife instead of just talking to her. His gesture was sweet and incredibly warm and charming but doofy none the less. Sophie though deserves some blame for not talking to him as well. These two have sexual tension galore until the end.

a fun light read that will have you laughing at the antics used and the tension seen. The end is very sensual but the book is fun overall.

Twin Opinions says

First off, I love novellas. As a mom I don't always have the time to read a whole book, so novellas and shorts keep my world turning. This book is so funny. I loved it. A laugh out loud romance is one I will pick up again and again. I love to laugh and this book just keeps the laughs coming. I almost feel sorry for Sawyer but then again I don't. Sophie is such a great character, I found myself wishing I had some of her gumption. I really enjoyed this story. The ending was amazing and I wanted to cry it was so sweet. Mandy Harbin is a genius in the novella world. I have never read her work but I will most definitely be coming back for more of her romantic comedy! The perfect read for a afternoon of laughs and love!!!

~Lisa

AnnMarie says

Absolutely hysterical, pee in your pants worthy little novella!

....and seriously smexy!!!!

Blue Balls and Push Up Bras is my first experience with the writings of Mandy Harbin. How can you resist the offer of a title like that? Well, I couldn't and this will not be my last venture in to the author's world.

The story line was simplistic and realistic. A woman's view on life and self after having her first baby and the changes that happen in a relationship.

And though a novella, there is a beginning, middle, and satisfying ending.

The writing was peppered with humor though out. Nuances that you had to really pay attention too. Great secondary characters rounded everything off.

Basically, Sophie has a baby and her hubs Sawyer hasn't touched her since. There is where the huge misunderstanding occurs. She thinks she is undesirable and he thinks not pressuring her for "me" time is giving her space and time to adjust.

Oh how wrong wrong wrong they both are.

The misunderstanding is not acknowledged until Sophie catches Sawyer in the shower um...pleasuring himself. Needless to say, she is very upset and the punishment commences, of course after they have talked it out.

Blue Balls & Push Up Bras is fast paced and hysterical. It is also very touching and sweet, especially the ending and Sawyer's amazing apology.

A sigh and swoon worthy apology.

Outstanding little novella and my kick off experience to a writer I will most assuredly be stalking.

?Yasmine? says

Very fun short story.

Meka♥books says

A miscommunication between a couple turns into hurt feelings and months without sex. But when one spouse decides enough is enough and starts out on a revenge of sorts, well let the games begin. The characters are both memorable and relatable. The situation can happen to any couple, not just married. This is a cute fun read that will give you the occasional chuckle and may even leave your mouth open in a particular scene. If like cute romantic comedies this is for you.

Arlyn says

This book was enjoyable and different enough that it kept me interested, but not engaged...The pacing was a little off for me, but I was never bored. The sex scenes, mostly teasing in nature, were pretty hot and the effect of creating a build up of sensual anticipation was successfully executed. The characters were well developed and likeable, and I found myself really rooting for them. They felt real and even the more risque scenes had a tongue in cheek, playful quality which made them believable ultimately relatable to an audience.

N. Kuhn says

I received this in exchange for an honest review

This was a fun, sexy short read! "Hope you junk-punched him." This had me almost spitting out my coffee. It reminds me of my friends chatting! The relationships are interesting, the dynamic in the group is fun. I love seeing other couples have issues after having a baby. It's hard to adapt to the changing relationship. This really was a fun short story.

Claire Simmonds says

this was a nice read after my dark stuff of late sophie is a new mother to baby alex its been months since having the baby and she is ready to get bk on the horse *wink wink* but sawyer her hubby isnt intrested or so she thinks .sawyer is desperate for his wife blue balls but he listen to his female cousin who is frigid who said after the baby she wont want sex . so anyway as punishment for it sophie sets out a plan of a week no sex just her teasing and the results are funny good light hearted read

Julie says

This book is hilarious. Poor Sophie is feeling neglected after the birth of her child. She's beginning to think that her husband Sawyer doesn't find her attractive any more.
The baby was born a while ago and it's safe to fool around now but Sawyer hasn't made a move on her once, he's not interested. She know's she's carrying a few extra pounds but she's trying really hard to lose them. After trying to catch his attention doesn't work she comes up with the crazy idea to flaunt herself in front of him and tease him and ends up frustrating herself even more.
I loved this story, I could read it over and over it's so funny. If you love romantic comedies I highly recommend this book. 5/5

Peggy says

~ARC FOR HONEST REVIEW~

This is one not to miss out on! The title of the book is what caught my attention to start with. I thought that this has got to be some crazy read...why not? So glad that I did. Not only does it give you an insight to what a lot of mother's feel after giving birth, but it's falls on the humorous side as well!

Book Binge says

Didn't enjoy the Hannah and Sophie scene, still counts as cheating in my book. Also like my heroes to be possessive enough that they want their woman all to themselves so didn't really enjoy all the talk about the ultimate fantasy. His ultimate fantasy should just be his wife.

Nstefa says

A quick and fun read! Must say it's quite funny
