Why are so many Christmas books so heartwarming? My heart always feels like it will just melt. I love it and I loved this one! Matt is a former Army security guy and is looking for a job to help get him and his son back on their feet after a divorce. Becoming a bodyguard for Mik, a wealthy heiress isn't exactly what he had in mind, but the job seems to be exactly what he and his son need. Mik has been stalked for four years now and no one has had any luck finding the guy.

I love the way Cami Checketts always adds a great suspense angle in with her swoony romances. The characters are always great and strong, the setting is vivid in my imagination, and the elements are executed well. I honestly couldn't help but to fall in love with each of the characters, from Grams, to the boys, to Mik, and to Matt. I love how down-to-earth the relationship is, even though it's fast-paced, and how realistic the situations are. The twists are so much fun!

This is another great book by an author I've come to love and adore!

Content: mild romance (kissing); mild suspense (moments of peril, but nothing over-the-top); no language. Clean!

Mykala has a stalker who has terrorized her for four years. She hires Matt to be her bodyguard to protect her and find the stalker. I loved this book and the way it kept everything clean. Rated G

This story of Matt and Mik is a sweet yet swoonworthy romance with some mystery and intrigue as well. I loved Matt! He was this huge bodyguard type guy with such a sweet heart and a need to protect Mik who he was quickly falling in love with. Mik was strong yet still had a need for support and a strong person to lean on. Matt's son Brock was a great addition to the story, as well as Mik's sister, Sarah and her nephew Kyler. This story made me laugh, smile and had all of the good feels I look for in a book! I received a copy for free, all thoughts and opinions are my own.

I was so excited to see this new Christmas book by Cami Checketts. She is one of my favorites and anytime I can get my hands on something by her feels like Christmas to me.

This book was so cute. I fell in love with all the characters. It was the perfect feel good book. There is tingling attraction, some yummy kisses, and some mild suspense. It was the perfect quick read for me this week as I vowed to only read what I REALLY wanted to read with no official reviews. :) I loved it!

Matt is a single dad in need of a job, and Mikayla is in need of a new head of security - hopefully someone who can catch the man who has been stalking her for the past 4 years. She needs someone she can trust who can also play the part of pretend boyfriend to stay close enough to her to protect her. Matt is perfect for the job! And it's a bonus that he has a cool 8-year-old son who can befriend her withdrawn 8-year-old nephew she is helping to raise.

Matt is the perfect mix of responsible, fun dad, and kick-butt military man. Mikayla may be wealthy businesswoman, but she is nothing like his socialite mother and ex-wife. She is warm, fun, kind, sincere, and puts other's needs before her own.

With such a cute title I was expecting a fun book about someone who cheated...a romantic comedy really. It was not. The story was cute but need more development. It could have easily been a full length novel.

Maria Thomas says

First of all, what a great title! I read that the author based Brock's dialog on things her own 8 year old said and I moved the book up to the top of my tbr pile so I could see what he said. It has been a long time since I had an 8 year old in the house. I might have thought this kid was written too mature except that she took the words from her own son's mouth. Brock was a great kid. I'd love to be around someone as positive and caring as he is. He and Kyler together were great.

The romance was sweet. It starts as a fake relationship so Matt can be Mik's bodyguard and track down her stalker. The fake does not last very long and they jump quickly to love but it is a novella so there isn't time to let it develop slowly.

There is also the element of mystery/intrigue in trying to figure out who the stalker is and catch him. I thought I knew from the start who the stalker was but I fell for a red herring. The whole stalker thing was kind of scary to me. Not because it was written to be scary but the idea of having someone do this is horrifying.

I liked both Matt and Mik and wanted them to be together. It was quick but again - novella. It doesn't leave

time for a slow burn.

I could understand Sarah's depression and understand her withdrawal because of it. I'm not 100% sure that someone could snap out of it quite as easily as she does but everyone is different so perhaps someone could even if I couldn't. But it was an interesting turn that she decided to engage in life again before her HEA arrives. The Christmas miracle made it so all the main characters could have a happily ever after and who doesn't want that in a Christmas book? Gotta end with everyone getting their Christmas wish.

Cute! This was a fun story, likable characters. I love books that take place in my home state of Utah. It's almost like a visit home when I get to read a story that takes place there. This one happens to take place in Midway, a very beautiful part of the state. Made for a great setting, especially picturing all the snow and holiday cheer.

Mikayla has a stalker, for the past four years someone has been sending threatening notes and photos, but the recently the contact has gotten more violent. When the head of her security retires, she hires Matt Degan to head up her security and play her faux boyfriend. Matt and his cute son move into her mansion and pretty quickly the line between work and romance blurs. There's an instant attraction for both of them and the more time they spend together the more they come to care for each other.

While I did enjoy this one, I thought the stalker stuff could have been amped up a little more. The suspense was kind of lacking, always seemed to be more in the background and the bad guy reveal felt a little off. And the storyline with the sister could have been developed a little more.

Overall though, I thought it was a fun read and kept me turning the pages. I liked the characters, the kids were cute, and the setting was fun. The Christmas elements were a little low-key, so this story could really be read any time during the year.

Content: Clean romance, just kisses. No language and very mild violence.

Sweet little Christmas story! I liked the characters and will admit to getting a little teary over the two boy's relationship. The relationship moved fast, but I felt like it was a natural progression. Also, as a Utah native, it was fun to have all these hot spots brought up in the story!

Great story for a snowy afternoon.

Also, can we get Greg and Sarah's story next??

Merry Christmas to me!! Loved this little distraction. I really like Cami Checketts' style. She has flawed heroes, but they aren't flaws to the heroines - there's someone for everyone. And there's always chemistry. Which is so fun!

Oh, Come On, Be Faithful is my first book by Cami Checketts, but won't be my last. Ms. Checketts has delivered a well-written book. This smooth read hosts a phenomenal cast of characters that are not only entertaining but downright lovable. Matt is hired as a bodyguard to protect Mikayla from a stalker. Their story is loaded with drama, humor, action, suspense and spice. Kudos to Ms. Checketts for the humor and amazing characters. I loved Oh, Come On, Be Faithful from cover to cover and look forward to reading more from Cami Checketts in the future. Oh, Come On, Be Faithful is book 3 of the Countdown to Christmas Series but can be read as a standalone. This is a complete book, not a cliff-hanger.

I voluntarily read a complimentary copy of this book that I received from Bookfunnel. All thoughts and opinions are my own.

The other night my little one decided that he wasn't wanting to sleep and that I needed to hold him and rock him instead. This is the very reason that I keep my Kindle Paperwhite in his room. I quickly found this book that needed to be read and settled in to read it. I love that it was a cute, clean, quick easy read. It's filled with romance and action. I didn't really want to put it down, even though it would have been nice to get some sleep.

I really liked Matt. He's a true gentleman. He's been burned before but he's simply looking for a job to support himself and his awesome son, Brock. Brock is probably my favorite character in this whole book. He's always happy and he likes everyone. He's the kind of person that everyone likes to be around.

Matt's new job is providing security for Mikayla and he's also supposed to be her live in boyfriend, making things a little bit more complicated for both of them. She's amazing too. I love the way that even though she has her own life to deal with, she has stepped in to care for her sister Sarah and her son in their time of need. But Mikayla has a stalker who seems to be following her around, which is why she needs Matt. But in 4 years no one has been able to catch her stalker, will Matt have better luck than everyone else.

I loved that the stalker was not someone who was even on my radar. The way that the person was revealed in the end was really well-written and quite possibly my favorite part.

If you're looking for something cute to read, don't hesitate to pick up this book, you won't be sad!

I was sent an e-copy of this book in exchange for an honest review.

Lisa (Bookworm Lisa) says

The first thing to draw me to the book was the title. It's catchy and really appealed to me.

This is a fun Christmas novella. I realize that I read it in the Spring instead of the Christmas Season, but a good book can be enjoyed at any time of the year.

Matt and Mik are great leading characters. They would be someone that I would want to know in real life. Mik is wealthy, but she treats everyone around her as people of value. You can't help but like her and hope that Matt is able to stop her stalker.

The kids in the story are one of the highlights. Matt's son is the one who is responsible for the catchy title. Seriously, the kid has a high cuteness factor.

Cami Checketts always adds suspense to her stories. I am a fan of her writing. She has a great foundation, characters, and is able to build the suspense.

The book is clean with kissing, threats, and a smidgen of violence.
