Silent Witness Patricia H. Rushford

Jennie McGrady thinks her vacation is doomed when a bomb threat delays her flight to the dolphin research lab in Florida. But then she meets Sarah, a girl who desperately needs her help to solve a two-year-old murder, and Jennie's detective instincts tell something is very wrong.

Sarah Stanford has lived in silence since her father's death. Now she's beginning to remember what happened the night of his murder—but what if the wrong person finds out she's a witness?

Scott Chambers is a young, hot-headed environmentalist who teams up with Jennie in the Florida Keys. Unfortunately, Jennie soon finds out he has more than just a passing interest in the case.

Danger lurks just below the surface...

Carol says

Murder mastery with a teen aged detective.

Jennie got a trip to Orlando, Florida from her Gram for her 16th birthday present, but the flight is held up because of a bomb threat. Nick, her 5 year old brother, wants to go with them. She had been so upset that her mom had started dating Michael that she hadn't thought about Nick. They were going to have another plane ready in an hour to make sure they hadn't missed the bomb, but she could barely stand Nick's clinging! He wouldn't even let go long enough for her to go to the bathroom. Lisa, Jennie's cousin, teased her about Ryan. Ryan had gone fishing in Alaska & wasn't there to see her off. As they walked she overheard a man say, "Maggie, what if the bomb was meant for Sarah?"

The Third Place A Teen Library says

F RUS bk.2

Shanda says

This book was the second book of a series, and I think I already know whats its about! Jennie went to Florida as a 16th birthday present with her grandma (a FBI undercover cop). She wants to look for her missing father. But she gets mixed up in a another mystery with another girl named Sarah. She helps Sarah find the murder who killed her father (sarah's father). But it's very hard since sarah only talk to jennie.

Julie says

This book is the second book of a mystery series. This book is about how Jennie McGrady goes out to Florida with her Gram to visit the dolphin research lab. While in the airport Jennie overhears a conversation and meets a girl named Sarah then becomes her friend at the research lab. Sarah has witness the murder of her father, and after 2 years is still silent. The murder against father has been solved, or has it? I like this book. There was no bad context in it. Throughout the book I would keep telling Jesse that he's the murderer, he did it. I'm glad to say that I my guess was right, and that he was the murderer.

Lyn says

This is like the first one.

Kathryn says

Sept 2014 re-read.
Loved this series when I read it 10 years ago. Holds up well.

Nattie says

The annoyance factor really hurt the book.

The story is told in third person, but Jennie often talks to herself in first person through her inner voice. When I say often, I mean like several times on every single page of the book. The way this is done is very nauseating. Jennie's inner voice is obsessed with her last name. I kid you not, here is an example:

"Stop it, McGrady." "Relax, McGrady." "Wise up, McGrady." "Put a lid on it, McGrady." "Get real, McGrady." "Forget it, McGrady." "Give it up, McGrady." "For Pete's sake, McGrady." "Nice going, McGrady." "Good grief, McGrady." "Ease up, McGrady." "Better make this good, McGrady."

WHO does that? People have inner conversations, but who constantly uses their own name ad nauseam? There were about four of those types of comment on every page of the entire book! WHY! Totally distracted from the story.

Britany Boss says

Great

This book was great. Interesting but also mild so young adults could read it. Definitely worth it, tons of fun.

Amanda says

This book didn't seem as well written as the first. It was still interesting enough to keep my attention but there were a few times I just had to put it down. At one point Gram gives \$20 to someone for no reason. She is going into a place that is being protested and she gives one of the protesters \$20. I am guessing to leave them alone. The author doesn't really say. Then Jennie meets this boy and he is really rude to her but as she walks away she thinks she has a crush on him? There are a few places that just don't make sense. By the end of the book it isn't as bad. I guess the author just needed to rush some things since the story is so short. I will probably pick up some of the others just because they are short easy reads.

Lani Smith says

I absolutely adored this book when I was a kid.

Mariana says

ok book. It got kind of boring at parts, but at other parts I loved it... over all... pretty good.

Amanda J says

Read this book as a teenager. It's part of a christian mystery series.

Victoria says

Fun series so far, at least her love triangle ended quickly & she didn't behave foolishly in it. A young pretty tee makes more functional sense as an object of one.

Leanne Haynes says

This is a definite step up from the first book in the series. Without the need for long introductions of characters, the plot included more details and twists. The danger element was also increased from the first book, which made me quickly turn pages to see how it would end!
