Ghosts Gone Wild Danielle Garrett

There's never a good time for a ghost crisis.

However, it's particularly inconvenient while I'm trying to tackle my first wedding season. Between twelve hour days, an assistant with a case of butter fingers (not the chocolate kind), and the flood of tourists in town, I'm struggling to keep a grip on my sanity.

All I want is three months of peace from the spirit world.

But when local ghosts start going missing, I have to do something.

After all, it's not like they go to the Hamptons.

Missing ghosts, a posthumously alimony-hungry divorcee, and a raging bridezilla. Yup, my bingo card is officially full. Can I get a prize and go home now?

***Ghosts Gone Wild* is the second book in the *Beechwood Harbor Ghost Mystery* series. Spooky paranormal cozies with a twist! Perfect for fans of Kristen Painter and Angie Fox. Come explore the harbor with Scarlet Sanderson, Beechwood's own ghost whisperer!**

Great followup

This is a great follow-up with a couple of interesting mysteries and a lot of amusing ghostly action. A touch of romance fills out the list of things to like about this book.

Barbara Hackel says

Scarlet has been able to see and talk to ghosts all of her life. The past year she took the inheritance her grandmother had left her and opened a florist shop in Beechwood Harbor. She lives above the shop with two ghosts, Hayward and her former childhood cat, Flapjack. Other ghosts came and went as they needed help from Scar, and one in particular, Gwen, kept her connected to all the gossip in town.

When Scarlet is hired to do the flowers for a society wedding at the newly renovated Lilac B & B, the downside of the job was dealing with the bridezilla Kimberly, who changed her mind on what she wanted more often than most people changed clothes. Snobbish and clearly not wanting to deal with Scarlet, Kimberly was a constant thorn in her side. Kimberly's wedding planner, Sonya was much easier to deal with and sympathetic about Kimberly's caustic personality.

Meanwhile Scar's hired help at the shop was an accident waiting to happen, and you didn't have to wait very long for Lizzie to break something or cause an accident of some sort. However since the ghosts don't help, Scar needs someone around the shop to keep the business running smoothly. And since no one can know that she sees and talks to ghosts, Scarlet has to be tight lipped in the shop to make sure Lizzie or customers don't hear her talking to the various ghosts.

One person who knows about this special ability is Lucas Green. Lucas and Scarlet met in the first book when he was in town working on a television program about renovating the Lilac B & B. Lucas has time off in the summer from taping the TV show, so he comes to see Scarlet and kindle the romance they have started.

A glorious summer is interrupted by missing ghosts, new ghosts with demands, a murder, and another new ghost. Lucas may not be able to see or hear the ghosts like Scar can, but he joins forces with her to try and solve the various problems they are having.

This is a fun book about a different aspect of life in Beechwood Harbor from Danielle Garrett's other series about Holly and the paranormals she lives with. There is overlap of characters and businesses, but essentially you don't have to have read that series to appreciate or understand this one. You will, however, enjoy this second book about Scarlet much more if you have already read the first book which is called The Ghost Hunter Next Door: A Beechwood Harbor Ghost Mystery.

Ms Garrett's mixture of paranormal and normal is a seamless joining of both worlds with most people none the wiser. I enjoy her variety of ghosts and their concerns that they share with Scarlet. The personalities of the ghosts are used to poke fun at times, and also to show that even ghosts can have problems.

This delightful book should be read and enjoyed by all ages without need to censor. It is entertainment and

mystery combined into a fun to read installment in a good series.

Enjoyable and very entertaining!

Really enjoyed this second book in the series! The store line was a page turner. Couldn't put it down from the very first line to the last. Loved the characters! Especially Flapjack the ghost cat. The incorporation of three different mysteries within the main story line was great. Am anxiously awaiting the next book in this series!!

Ghost Bridezilla and More Mysteries to Solve

Love this series and look forward to next book. That being said each can definitely be read as a standalone. The characters are funny, intelligent, emotional and interact with all the human reactions from dislike to love. Love that this story combines the paranormal with mystery and great sarcastic humor along the way. Please read.

"Ghosts Gone Wild" is the second book in Danielle Garrett's "Beechwood Harbor Ghost Mysteries series". Scarlet Sanderson has lived with the gift of being able to talk to ghosts for most of her life. Currently, she's living in Beechwood Harbor running her own florist shop. As a result of events from her previous adventure, she's now working weddings, and her first one is with a mega bridezilla. Overwhelmed, with dealing with an assistant who can't stop breaking things, ghosts who don't always realize that Scarlet can't talk to them in public, a missing ghost mystery and a murder mystery, Scarlet's got a full plate with a side of hot boyfriend coming into town.

Overall, I enjoyed reading this novel. Scarlet is a complex character with more to discover about herself. It will be interesting to find out what Garrett has in store for her in future novels.

Cancel all your plans!!

I started reading and I could not stop! I love the charming characters in the book. She draws you right in to her stories and makes you want to go drink coffee at Siren Song and stay awhile ♥?♥?♥? you will never be disappointed in reading any of her Beechwood books! Absolutely loved every one of them?

Nannette Miller-Pieper says

A real ghost read

Loved all of the ghost, even though Kimberly was a hand full, she kept the whole thing rolling just wondering what she would be up to next. Looking forward to the next one

Good book

This is a good, clean paranormal book. I think I enjoyed this book (book 2) a tad more than book 1. But don't get me wrong I really liked book one. But this book to me had more twists in it. You have to read book one, The Ghost Hunter Next Door. So you will meet the characters in Beechwood Harber. I think you will like them.

Beechwood harbour has become my dream fantasy escape! The more residents I meet the more I can't wait to meet! Danielle Garrett amazingly wonderful! Now on to the next!

Dharia Scarab says

Since I don't normally write reviews unless I have something specific to say, here's the break down of how I rate my books...

1 star... This book was bad, so bad I may have given up and skipped to the end. I will avoid this author like the plague in the future.

2 stars... This book was not very good, and I won't be reading any more from the author.

3 stars... This book was ok, but I won't go out of my way to read more, But if I find another book by the author for under a dollar I'd pick it up.

4 stars... I really enjoyed this book and will definitely be on the look out to pick up more from the series/author.

5 stars... I loved this book! It has earned a permanent home in my collection and I'll be picking up the rest of the series and other books from the author ASAP.

Another fun read in the Beechwood Harbor world

I really enjoy reading about Scarlet and her merry band of ghosts. Flapjack has to be the best ghost cat ever! The overall mystery was excellent and I enjoyed her romance with Lucas. They aren't together a lot so that might present problems but it's good for now. I enjoy this and Holly's series that is set in the same world.

Vivian says

Poor Scarlet is inundated with ghosts (some not so nice) to the detriment of her fledgling business and blossoming romance with Lucas. Then ghosts start disappearing around town and Scarlet and Lucas investigate. Once the baddie is banished, Scarlet's life returns to normal and there's new adventures on her horizon - next stop New Orleans!

Suzi says

Interesting and creative

I've really enjoyed the first two books in this new series. Maisie and her friends and enemies are intriguing to say the least. I will definitely continue with this series and look forward to finding the next book! Thank you Ms Garrett!

Krystyna says

Acting as a mediator is really not her strongest point

A terrific read. Full of banter, sarcasm and humour. A dead bride to be, missing ghosts, a ghost wanting a new alimony agreement and her "boyfriend" on a visit. Terrific lively characters and a brilliant take on a ghost's love life. The plot is multilayered and so full that you find yourself reading until you finish. Great read

Who the heck is Scarlet Sanderson anyway?

In Beechwood Cove, Scarlet seems like just the owner of Lilypond Floral, but she is way more than that! You see, Ghosts seek her out to right wrongs and give advice. Sometimes she is a ghost exorcist. This book, a bridezilla, a mean divorcee and a ghost hunter cross her path, so it's up to her and her friends and boyfriend Lucas to help. And now she is given a book to read.... where will the next story take us?
