When Red Cried Wolf Nash Summers

Asher Williams is obsessed with love.

It's probably one of the reasons he makes such a fantastic matchmaker, love guru, and romance expert. And now that he's in college, it's finally his turn to shine.

Asher's relationship advice column in the school newspaper is his strongest matchmaking instrument, especially when it comes to helping hopeless romantics find their soulmates.

But like every heroic quest, there are a few bumps in the road and dragons to slay.

There's a damsel in distress Asher's best friend thinks is a psychopath, a handsome prince Asher can't stop drooling over, and a huge, mysterious roommate Asher can't help but pester.

It doesn't matter though. Nothing will stop Asher when it comes to helping people find their true love.

He's absolutely positive everything will work out in the end.

Because love is always like a fairy tale...right?

The main romance arc spans across all three novellas. When Red Cried Wolf contains little romance but sets up for the rest of the series.

When Red Cried Wolf is a slow-burn romance with over-the-top characters, fairy tale references, ridiculous texts, and eventually, a happy ever after.
