## Cold Cole Heart K. Webster

From *USA Today* Bestselling Author K Webster, comes a new **dark romance** standalone novel!

I once was a hero.  
Until she kept me as her captive, tortured me, and killed my brothers.  
She bred a monster.  
Nothing could stop me from seeking revenge.  
But it was over so quickly—her easy death a mercy she didn't deserve.

For a decade, the burning rage of what she did has transformed into something uncontrollable. Something I want to feed. Something I crave to unleash.

I want to make her pay.  
Over and over and over again.

Finding the evil, spoiled women sates my ravenous, vengeful soul.  
I hunt. I capture. I destroy.  
Slowly. So slowly.  
One, two, three, four, five...  
And now six.

I'm wicked and sadistic.  
I am Cold Cole Heart.  
My mission is death and their payment to me has come due.

Number six thinks she is different.  
Yet when I look at her, I see them.  
She will pay.  
They always do.

## From Reader Review Cold Cole Heart for online ebook

**Karla says**

**4 monsterstars!**

**I oved it! It was dark, intense, crazy and I couldn't stop reading it. Only Webster can make me love a H who is messed up and out of control the way Cole was. I'll keep this review short and simple since I don't want to give anything away.**

**“on wrong swift vengeance waits”**

**-Alexander Pope-**

The story grabbed me from the first page and kept me there till the end, even in those difficult moments when it was so hard I never thought to stop. Both MC were victims of circumstances beyond their control and went through so much and fought hard to come out of the hell they were in. Cole, his gives a whole new meaning to **antihero but I loved him so hard and if you read this till the end you'll know why. Truly enjoyed. ♥?**

**”If any injury has to be made to a man it should be so severe that his vengeance need not be fear”**

**-Niccolo Machiavelli-**

When K Webster promises dark, she delivers. Cold Cole Heart is definitely a rollercoaster of emotion! I was hooked from the first page, dragged through the dark journey that Cole and Natalie had traveled on. It's an incredible, intoxicating, sexy read which offers some murky speed bumps. Loved every word!

**Jessica-🐾Chatterbooks Book Blog🐾 says**

I've been dying to read Cold Cole Heart ever since it was announced! Why wouldn't I be? K Webster is the queen of dark romance afterall. She writes in many genres, but she crafts the dark ones like no one else can! I swear, I wish I could climb inside her mind for just one day to witness her genius up close.

The way she makes me love and root for even the most disturbed individuals is unbelievable. It actually makes me question my sanity at times. That's some damn good writing! I mean, why else would I feel sorry for someone that has admitted to torturing and murdering other human beings? Why else would I want the

victim to help the lunatic that captured her? It's either sensational writing, or I'm a sick motherfucker. I prefer to believe the former. Lol

Cole Heart is a broken, abused, and slightly insane man, but I loved him from the very beginning. You see, Cole wasn't born that way. He was turned into the monster he is by an even bigger one.

A military veteran, he was once a hero that sacrificed his life for his fellow man. One sadistic woman managed to turn that courageous man into a shadow of his former self. She warped his mind and hardened his heart. Her madness created his.

Natalie Dusana knows all about madmen. She has been held prisoner by one for years. The daughter of a famous actress, Natalie lived a beautiful life until someone ripped it all away by murdering her mother. Raped, neglected, starved, and beaten, her life is now filled with nothing but cruelty and hate.

You wouldn't think these two characters could have a happy ending. Maybe you don't think Cole even deserves one. Their lives are more like horror stories than fairytales, and Cole sounds more like a villain than a hero. That's the beauty of a K Webster novel though! She will find the most unlovable character and make you fall for them. You will find yourself wishing desperately for a twisted happily ever after. I promise you that! If you don't believe me, read it and see for yourself. If you're a fan of this author's work, you already know what's up, so don't hesitate to one-click this one!

I recommend Cold Cole Heart to anyone that loves dark romance, anti-heroes, mentally unstable characters, and unconventional romance!

Holy shitballs!... this book is so intense! It's dark, depraved, and will have you questioning your own sanity. Cold Cole Heart is all sorts of fucked up. I would love to spend a day climbing through the dark caves of K. Webster's mind. That girl is not right in the best way. If you like dark reads, and I mean DARK reads, you gotta check this one out!!

### 4 Heart & Soul Stars

Cole was devoured by darkness, he was death.

*I'm nothing but a shell of hate and vengeance. My thirst for blood fuels me.*

He is a monster, he tortures, he maims and he kills. But this time, his number six is different from others. When she looks at him, instead of fear she feels... alive! She knows he's violent and insane but still...

Ms. Webster is one of those rare authors who can create great ~~monsters~~ anti-heroes! I love her dark books. Loved both MCs, they were both broken, so messed but you can't not love them! She was so brave and smart, he was at war with his monster and it was good to see it! Told in dual POV, 1st person. It's a standalone dark psychological romance, well-written and well-paced with likable characters. Overall, it was an enjoyable read for me and hope you like it as well!

Wow! What a book!!! As with any of K. Webster's work... expect the unexpected! I went into Cole and Natalie's story blind... and I am very glad that I did. Their story is dark and disturbing at times... yet underneath the crazy is a story of love.

I can't say much except that it really must be read until the end!!! Also, I always think it takes huge talent for an author to have an anti-hero that ends up making me feel for him and even start liking him despite his enormous flaws!! Cole is for sure that kind of character

If you're a reader who likes a dark read, then definitely give this a go!! It will keep you guessing until the end!!!

## Eve Recinella (Between The Bookends) says

Dark. Twisted. F-cked up. Classic K Webster, and I **LOVED** every single minute of it. So straight up, this book doesn't lend itself to my usual in-depth way of reviewing. I am going to be vague. I am going to be brief. I don't want to give anything away. Just trust me when I say you should go into this one blind and hang on for a wild ride. And please do yourself a favor and read it until the **END**.

As I mentioned above, this is pretty much a classic K Webster book. Fantastic writing. Well paced. An engaging plot. Twists and turns. Mind f-ckery. Disturbing. Sexy. Kinky. Slightly tabooish. Bat sh!t crazy, but strangely still likable characters. Definitely not for the faint of heart or if you have any triggers. Last, it was all wrapped up in a very satisfactory ending. So yea, what are you waiting for? Run, don't walk, and add this one to your reading list ASAP.

**Genre:** Dark Romance

**Type:** Standalone

**POV:** First Person - Dual

**Rating:**

Cole Heart was no longer the man he used to be. Even after years had gone by since he was forced to survive, the need for vengeance never receded. He had found his latest target, but Natalie Dusana might prove to be a challenge he never anticipated.

*“Sometimes torture isn’t about cutting off fingers, honey,” he croons as he takes my hand. He uncurls my fingers and threads his through them. “Sometimes it’s about cutting your mind.” He leans down and plants a kiss between my breasts. “Sometimes it’s about cutting your heart.”*

Cole was an interesting anti-hero. He was so consumed by his obsession in destroying what he set his mind on. I love characters with certain issue and usually could connect with them easily, but somehow I didn’t feel as much connection to him.

*He was just enough relatable that I clung to him, desperately hoping he’d be the dark hero in my story. I’d forgotten my story was full of villains.*

I was definitely drawn more to Natalie. I like her story and how she coped with her situation before and after. I also like the juxtaposition of her character.

Before starting, I thought this book would be dark. Yes the subject matter was dark but the overall feel wasn't. With that said, there were a few cringe worthy scenes lol! Even though at times I didn't necessarily feel much connection between them, I was fully satisfied with the scorching sex scenes.

***"I'm worse than a monster," I bite out, shame scratching away at my insides. I don't care. I never care. So why the fuck do I care now? "I'm a nightmare."***

Cold Cole Heart is a story of overcoming trauma. It would appeal to fans of dark romance.

## **Michelle says**

I can't even begin to explain this book, to put into words the twisted web that K. Webster weaves.

Cold Cole Heart is a psychological erotic thriller that pairs Cole Heart and his six victim, Natalie – or as he sees her, the woman who took everything from him.

If you're a fan of K. Webster, you know that you NEVER know what you're going to get when you open up one of her books. You know that you'll be taken on an F'd up ride, you know that it will be dirty, it will be brutal and it will make you feel all the feels.

This story contains so many twists and turns that I am not going to take away the surprise of the journey. Read it, figure it out, be shocked and fall in love with the monster.

If you are on the fence, fall the fuck over and get this.

### ***Cold Cole Heart by K Webster–***

**GENRE:** Dark Romance/Thriller

**NARRATION:** Dual POV

**BOOK DETAILS:** Standalone

I am not going to go into any details here as you are best to go in blind with this book and if I give you too many details it will spoil the suspense.

#### **MY THOUGHTS:**

Well that certainly wasn't what I was expecting! K Webster sure turned out the lights on this one leaving us stumbling in the dark. This is a twisted, physiological thriller meets dark romance story but be warned the romance is less on the sweet and more on the disturbing side.

How does she do it ? Time and time again she makes me fall for her anti-heroes! I seriously may need to check my sanity levels especially with this one, Cole is one dark character.

***“I'm jealous. I don't want her to think about that monster. I'm her monster. The scariest fucking one of them all.”***

I love the psychological aspects to this story, it may push the boundaries for some, but I loved the raw grittiness of it .There are some seriously intense sex scenes and violence throughout so consider yourself warned.

Cole and Natalie's story is not an easy one and as the plot unravels you find yourself tearing through each page hooked on them both.

Cole is a memorable character, his traumatized past has literally left him insane, but you can't help feeling sorry for him, you can hardly blame him being the way he is after all he has suffered.

Natalie all though a seemingly weak heroine at first comes through strong and steadfast in the end, she was the perfect kind of crazy for Cole and together they made sense.

Kristi is such a talented writer, she is one of my favourites! You are always guaranteed an original, all-consuming and jaw dropping story full of twists and of course that delicious darkness she's well known for, and she certainly delivers all that in *Cold Cole Heart* . If you are a fan of K Webster's and Dark stories then you won't want to pass on this!

*“I want to break her so I can stitch her together again. Over and over again until I've woven in so much of me, we're practically one.”*

**\*\*\*\*\*FOUR STARS\*\*\*\*\***

This was a very dark and disturbing read.  
I've come to expect nothing less from a K. Webster book.  
She's also pretty damn good at writing romcoms.  
Hope she does a few more of those next year. :)

Overall, this wasn't too bad.  
Not my favorite by this author but still pretty entertaining.

## **Elle's Book Blog says**

**Release Date:** November 14, 2018

**Genre:** Dark Romance

**Actual Rating:** 4.5 stars

This book is dark, twisted, and totally insane but I loved every sordid minute of it. K. Webster does an impressive job when it comes to bringing her readers anti-heroes and it's honestly hard not to fall for them. Cole Heart is one of the darkest characters I have come across in a long time. But there is something in him that despite the terrible things he has done, he is likable. That's not to say that I condone his actions at all. I just that he's so different and so abnormal, that you can't help the connection you build with him. Kudos to K. Webster for this. I am stunned!

If you enjoy dark, twisted, and gritty reads that will push your boundaries then I recommend reading this one. This book won't be for everyone. But if you can keep an open mind and remember this is a piece of

fiction then I recommend it. The closest thing I can compare it to is her War & Peace series. If you liked that, this is a good pick for you.

## Natalie The Biblioholic says

**Cold Cole Heart** gave me just the kind of mind freak I was looking for!

This will probably be the shortest review I've ever written for a K Webster book. I intend to be vague because I think this story is best experienced by going in blind. It's that good, it's that real, and I really think you're going to love it.

Cole Heart was a broken man with a broken soul. An American hero, he's still very much fighting the war, even if it's only in his mind. He's obviously got PTSD and it manifests itself in such wondrous ways. Everything was going according to his plan until one woman spoke to each dark crevice of his heart.

Natalie Dusana was a broken girl with a broken soul. After her mother's tragic death, she's jumped from one nightmare to another. Only one monster is far more preferable to the other and she's willing to do whatever it takes to make him keep her. Even if that means allowing the darkness to seep into each crack of her heart.

Join the madness. Leap into the shadows. Revel in the darkness. This story will warp your thoughts and have you questioning just about everything you're reading. It's perverse and sadistic and messed up and delicious and I loved every minute of it!

## CC says

Cole Heart has a tortured past and relives the trauma each day. Vowing vengeance for his anguish and the pain of his brothers, Cole methodically exacts his plan and tries to escape his demons. In so doing, complications arise forcing Cole to confront the truth.

“These monsters created cracks within me. Deep, dark crevasses that suck all humanity into their void. I’m lost. I’m so fucking lost.”

For the past few years, Natalie Dusana has lost control of her life and is counting down the days to her freedom. When her situation changes, Natalie realizes she needs to comply with the rules of a new monster.

“I want to break her so I can stitch her together again. Over and over again until I’ve woven in so much of me, we’re practically one.”

Told in dual POV, the dynamic of this storyline opens with a premise based on revenge and as the plot unravels, it becomes clear that the connection with Cole and Natalie is fairly unique. When Natalie doesn't seem to fit into the preconceived notion of what Cole expects, it changes how he approaches his end game. For Natalie, her past adds an interesting and unforeseen dimension to this theme.

"I'm every bit a player in this fucked up game as he is. He's not figuring anything out. Neither of us is. We're getting more and more lost in whatever it is that happens when we're together."

Cole is a character that has deep and serious issues to contend with. There were times when his actions didn't align, but then as the plot builds, the reasons become clear. Though I would have liked to delve into Cole's psyche a bit more. As for Natalie, she is just as broken as Cole and her ability to cope is admirable. Considering her situation, she also made me laugh at times when she puzzled Cole. Lastly, the sex definitely has elements of erotica and it steams the pages.

*Cold Cole Heart* is a story about two broken people who try to rebuild and leave the past behind. K. Webster crafts an interesting angle to the captive-captor theme.
