Alpha Spikes starbeast

Sterek AU.

Alphas are like royalty and are offered their choice of any age eighteen-and-up virgin Omega for each year's heat season, as a 'thank-you' to all they've done for their compounds throughout the year. Derek is an Alpha and...yeah, Stiles. Stiles is an Omega. And still a virgin. In every way. And he's just turned eighteen. This...is not his day.

This is of the A/B/O trope and it was quite tame compared to the others I have read. But I appreciated a more thought out society/cultural makeup and it did shed some light on hierarchy dynamics. In this AU, alphas are far and few between and their status reminds me of royalty. They are so high on the totem pole that they have their pick of willing (or nonwilling) omegas to take their heat with. They often live separate from the other betas and omegas and visit the enclosed compounds where they reside yearly.

I felt like this had a split personality. There's an at times, overly verbose part that is mainly the ramblings of Stiles' inner voice commenting on his small town life and the goings on. He's awkward and resigned - a bit geeky. The other part is when Stiles is with Derek or thinking of Derek. Those scenes were more intense, shedding light on their past history and delving more into their complicated relationship. Their shared heat cycle is pretty hot and there's some nice KNOTTING.

This was long and had a lot of exposition. I wouldn't say that it's bad, nor would I say that it's awesome either. Should you attempt this, I think most would agree with that noncommittal comment.

Shelley called this "the Sharknado of Sterek fic".

Can't argue with that.

Great voicing and a solid story set up--definitely a writer to keep an eye out for. You realize after a while that not as much is happening as first seemed, more a circling around possible events than events themselves. Which, I suppose, is another way of saying the story is too long. Also, while it wraps up, the ending itself just pops out of no where. Just to be clear--sex, what there is of it, is scorching.

Heat tribute.

Fairly sweet and tame offering from the Omegaverse. Stiles gets picked by Derek and all kinds of truths are revealed. Amusing, not laugh out loud, but entertaining. Oblivious and obstinate sum up the character conflicts.

Favorite passage:

Derek turns and takes a few steps toward him, but they're tentative, like he's calculating his approach, stalking a prey he doesn't want to startle.

Stiles being the prey. ...And too horny to startle, really.

Re-reading I remember the suit because it made me think Weasley, but the rest escapes me.

Jeez, that was drawn out way too long for what the story was.

3.5 stars. A well-written sterek fanfic. Alpha Derek chooses Stiles from the Omega virgins at the annual choosing ceremony. I did get a little tired of the Stiles head-talk by the end.

'Derek's not a girl. He's not a girl at all. He has non-girl parts and a non-girl face. There's a definite five o'clock shadow. His chest isn't soft. His hips aren't full. His jawline and cheekbones could probably cut diamonds. He doesn't wear lip gloss and he doesn't have strawberry blonde hair, and there's no way in Hell, even in the dark with his eyes shut, that Stiles could ever pretend he does.'

A/B/O. Stiles POV. Stiles Omega / Derek Alpha. Alpha's are kind of like celebrities in this. I am not an A/B/O fan in general, but this was a decent read mainly for the sex. It ends rather abruptly I felt - I thought there was another part to it - there is a lot of plot built up and then unresolved, but it was so long already I was kind of okay with it ending where it did.

This book is long. Like, really long. But it's cute. As a button. Like bunnies. That cute. Plus KNOTTING. There's KNOTTING. With KNOTS.

Oh, and the above? That's how Stiles speaks in the book.

So, yeah. KNOTTING.

My first Sterek fanfic. It was entertaining if a bit long-winded and chatty.

Okay, so I'd have given it five stars, if the so called smut would have been steamier, because that's pretty much my only hangup about this otherwise hilarious fan-fiction. I did really like it, the plot was great, everyone were pretty much in character, especially Stiles and everything was well written!

This was good.really good.A whole lot of good actually.

I loved the whole concept of AU like hunger games only with shifters in it.

The one hitch was the ending...it was JUST PLAIN ABRUPT...It was like the author was tired of writing the story and just decided to end it...That did not go well with me...

And I wanted Derek's POV as well.. *I know you can't have it all but one can always hope, right!!*

The story was good. the writing was good...Bottom line-I enjoyed it...So I will just go and read another
TaTa!

Would have liked to have known way more about the world. More about a lot of things actually. The law system included. World building could have been better basically, but I liked pretty much everything else.
