Marrying Ember

Andrea Randall

Marrying Ember Andrea Randall

It started like it always does. For musicians, anyway. The moment Bo Cavanaugh heard November Harris sing, it all clicked into place.

That was a year and a half ago. Between then and now there's been unthinkable tragedy, ruthless heartache, and lifetimes of passion.

It was never a question in Bo's mind that he would marry Ember someday. The question he faces, though, is can he do it before the weight of a family's history pulls Ember away from him forever?

In this novella in the November Blue series, follow Bo as he sets out on the only quest he was ever meant to accept: Marrying Ember.

Karen says

LOVE!!

4.5 stars

this novella was like visiting with good friends. I re-read the first two books in the November Blue series before reading this novella. I love love love Bo and Ember. This novella is told mostly from Bo's POV which is a great change and really fits the story. So happy to see Monica and Josh back....and my girl Georgia and Reagan.

It's a short novella (I read it in a night) and leads us into the next book (which will be out in spring) I am so excited about the last book...but also sad that it will be the last book. I have come to love these characters and will certainly miss them....

Pamela Carrion says

Sweet, sweet Ember! LOVE this series and this tasty novella was perfect. Drama, love and marriage? Sounds about right! Andrea Randall has continued the November Blue series in style. Picking up on deep seeded issues from Sweet Forty Two Ember is fighting for clarity in her life and her relationship with Bo. RSVP for a wedding of musical perfection. Marrying Ember is the perfect wedding first dance as we wait for the last.

Susan says

What an awesome book!! I love the whole Bo and Ember series and have read them twice! Andrea Randall has really written a GREAT story!! I fell in love with "Ember and Bo" in Ten Days of Perfect and loved their story as it continues! I highly recommend this!!!!

Georgette says

OMG! Love love love!

Major plot twist! Loved it!

I absolutely adore Bo and Ember! Their love is like nothing else!

I cannot wait for more!

Thank you Andrea for giving us this more we've been waiting for!

3.5 stars for this novella which is on my high range...I think I would've gone 4 but, ugh I hate to say this...the

editing issues kept me back from going there...

I love you Everything you write Miss Randall so that last statement was so hard for me!

Stacey says

Marrying Ember is a novella in the November Blue Series that picks up after Sweet Forty Two. I highly recommend reading the preceding books in the series before enjoying this one, but once you do, you will certainly not be disappointed. The title suggests that there will of course be a wedding at some point and Bo and Ember will say 'I do' before living happily ever after. This novella, however, takes you on an interesting and heart-string-pulling journey filled with family drama, feelings of betrayal, and just enough humor to make it genuine and relatable. I just love this circle of friends and all the characters that make these stories come to life. Andrea Randall continues to write seamlessly and gift us with swoon-filled romance that isn't out of the realm of possibility. When you read Randall's words, you feel them. You find yourself inside the story and feel the drama, tension, and emotion, even after you have put the book down. I loved it and find it difficult to imagine ever not caring for anything that Andrea Randall puts out there. She's just got "it," folks.

Karen Yates says

Loved the story, Bo is adorable. Can't wait for Bo and Ember.

Lucinda Jester Smith says

I've loved the November Blue series from the beginning this was just the bittersweet ending I've been waiting on... November and Beau were absolutely made for each other. This story was short, sweet and was what we readers who've loved this series from the beginning have pined for!!! Thank you Andrea Randall for the perfect ending to the perfect beginning!!! Totally loved it!!

Lisa says

Couldn't put it down...another great book in the November Blue Series. Love me some Bo Cavanaugh....so romantic. Can't wait for the next book...though the last sentence has me nervous. I've got two scenarios in my head one is sad the other happy...please give us happy. We all love happy endings...at least I do. I love escaping into other worlds, not that my life isn't great but we all need a little escape now and then.

Great Story Andrea and Great Cover Charles!

Anne OK says

A short novella added to the already fantastic November Blue series. This one brings about the answers to a plot twist that sends a couple of characters into a tailspin. It also finds Bo and Ember still head over heels in

love -- but Bo feels the need for a more permanent status. It's another fun-to-read and wonderfully romantic addition with a "just perfect" solution to Bo and Ember's romantic adventure.

Immediately moving on to the last installment in what has become one of my favorite fun-to-read series. This one I hope will find Bo and Ember well into their happily-ever-after!

Amy Morrison says

There are just some authors that when you read their books you KNOW that you will love it. Andrea Randall is one of those authors for me! My love affair with her writing started with Ten Days of Perfect and continues beautifully with Marrying Ember! I love Bo and Ember! This was the perfect glimpse into their love! I really can't wait for the final installment into their story!

Carrie says

Could Bo and Ember be any more perfect for one another? I mean, seriously. Their love for one another shines through this story. Beautiful....

The last line of the book...what the heck, Randall?! ;)

Karen says

Such a beautiful story. It was at the same time complex, and yet so very simple. Even in this much shorter novella, there was a situation with so many angles that made it rich and all was resolved neatly. I have just loved Bo and Ember's story. I highly recommend this series, starting with book 1, Ten Days of Perfect, then book 2 Reckless Abandon. I skipped book 3 because Bo & Ember weren't main characters, but I will say I missed out on a little bit of background that I would've liked to know about before reading Marrying Ember, but it was back to Bo and Ember so I was okay with it. I'll be reading book 4 soon because I can't stop now. :)

Laura says

Bo and Ember are that barftastic couple...they always have been. That being said, there's just something about them that makes me want to know what goes on in their lives at all times. Ember is that hippie chick that totally drives me nuts and Bo is the pretty boy that upon first glance, I'd totally make fun of. Now, you're thinking, she rated this book 5 stars? What the heck?! Well, the truth of the matter is, Ms. Randall has a way of drawing you into her stories and you fall in love with the characters. You're genuinely concerned about what happens to them and well, you need to see them happy.

Marrying Ember has some, um, other issues, but trust me, Ms. Randall does NOT disappoint. If you're looking for a little swoon with a lot of fabulous writing and some amazing characters, grab this puppy!

Debi Barnes- Mean Girls Luv Books says

Bo and Ember are a total favorite couple of mine. I seriously can't get enough of them. Lucky for me Andrea Randall keeps feeding my addiction. Marrying Ember was a novella told from Bo's POV. I really liked being inside his head. His love for Ember is as amazing as I always thought it would be. He really is dreamy. In this novella, Ember gets his life rocked by a piece of news she didn't want to believe. But their love together got her through. I had some laugh out louds and some weepy moments.

Andrea really gave us Bo and Ember fans exactly what we wanted. Them together forever. It was perfect for me! Ms Randall left us with a one liner that will guarantee I will be reading "Bo and Ember", the next book in the series the day it releases.

TeriLyn says

I love Bo and Ember. Their love story is one of my favorites and this novella is part of the reason why. It perfectly suits them as a couple. Marrying Ember encapsulates everything they have been through and how they are presently. It also captures everything that made the first three books series what they are. Marrying Ember is short, unbelievably sweet, spontaneous, and just totally Bo & Ember. The series as a whole is never short of drama and this novella continues the dramatics. The authors is always moving all of these characters forward and the perpetual motion is so parallel to real life, always moving on and these characters embrace the future, uncertain or not. Ms. Randall's words are beautifully crafted in honesty. Bo and Ember have come a long way on their journey and I continue to love reading their stories. We get a tiny twist right at the very end so the wait begins. Bring on Bo and Ember!
