Post Breakup Sex Sibylla Matilde

***** Mature Content; Strong Language; Strong Sexual Content with m/f, m/f/m, and a taste of f/f/m*****

She was the most beautiful girl I'd ever seen. Pure class. Old money. I never stood a chance... until she broke up with her dickhead of a boyfriend and went off the rails.

Brannon Forrester doesn't expect much from life. He coasts through aimlessly. No real ties. Nothing to hold him back. Hanging out with his best friend, lead singer of a local bar band, he lives for pleasure, out of the spotlight but with all the excess of the band's small-town fame. After all, why should he be good when the only woman he really wants will never give him the time of day?

Then, one night at an after party, Sophie Buchanan walks through the door. In an attempt to throw caution to the wind and dream out loud, she looks to him as a guide to the wild side. As someone who can show her all the excitement and recklessness her world has been missing. He plunges her into a reality of fervent passion... and heartbreaking betrayal.

Their roles have been set. He has only ever been a good time. She has only ever been a pretty face. It would be insane for them to fall in love. But when emotion complicates lust, can the caution of the mind suppress the will of the heart?

Janey says

4 Do or Die stars

Brannon Forrester spends most of his time doing what he pleases. He inherited a garage from his Grandfather, where he spends his days waist deep in car innards. But at night, he can be found hanging around with his BF's band, and absorbing all the debauchery that falls at his feet from that.

He's never had a girlfriend, couldn't imagine anything further than a lonesome f&ck & fumble. But he does have a craving for someone, a fascination, a longing, an ambition that will never materialise.

Sophie Buchanan. A little rich girl from another world. Walks into the party, and makes a beeline for Bran. Is she for real? Is this really happening?

Told entirely from Bran's POV, this is a totally endearing story of a rich girls rebellion against her familial led future. Sophie embarks on a "slut list" of sorts, with Bran as her guide. It is told with humour, intensity, and a friend's questionable Irish lingo

:-/

I loved both the MC's a lot. They captured me from the start. I just wanted to squeeze the sweetness out of Bran, as he came to terms with the effect Sophie was having on him. Delightful. Sophie, shy, but sure, navigated her way through the fallacy that was her life, with determination and devotion. And to top this delightful story, was the heated, unbridled passion that we were spoilt with at very regular intervals. Jeez, they just couldn't keep their hands off each other!

"...because you filled my empty heart."

Ana says

ARC kindly provided by the author...

I'm a fan of Sibylla, everybody knows that... What can I say... She did it again... But better and hotter and sexier ;)

5 BIG Do or die stars... Damn this book was HOT HOT HOT....

Ok... So this is a forbidden love kind ok book. Is completely different from anything that I ever read from Sibylla. And is a damn sexy book.

Sophie was born surrounded by money and you would think that she had anything that she wanted. Well you couldn't be more wrong. She had and was everything that her parents wanted her to be and have... And when her fiancé and supposedly best friend betrayed her, she went on a journey to discover who she really was, what she really liked, what her body spirit and mind desired .

And then there was Brannon, just a mechanic, body full of tattoos and piercings, a man hor...

The first time Brannon put his eyes on Sophie he was fascinated by her, for the mystery her eyes showed, but when he discovered who she was, he knew that he couldn't have her. She was rich and high society and he was... "Just a mechanic"... But fate brought them together, and he ended up helping Sophie on her journey to rediscover herself, and at the end they ended up discovering each other as well... And did they discover each other ;P EVERY inch of each other ;D

If your looking for a SUPER sexy forbidden love, THIS is the book to read....

LOVED IT Sibylla.... Thank you for the opportunity... <3

Christine says

An Arc received in exchange for an honest review.

I've read a few of Sibylla's books and this by far the best and hottest read so far. She really turned up the heat with this one.

Sophie prim and proper from the upper class, the good girl always doing as she's told and putting on a false front for her parents.

Brannon has lusted after Sophie for a while now after seeing her at a wedding, so when she walks in to the party and heads straight for him he can't believe his luck.

They don't mix in the same social circles and Sophie just wants to let her hair down and have a good time. The good girl Sophie just wants to rebel and have a bit of fun with her bucket wish list. A great steamy hot sexy wish list it was too!!!

A wonderful story of a young woman trying to find herself and found a beautiful man along the way.

This story reminded me of Common People by Pulp I had this song in my head the whole way through.

Thanks Sibylla.

Beth says

I was lucky enough to be an alpha reader for another of Sibylla Matilde's books, and this one did not disappoint at all.

What happens when you're told to dress a certain way, live a certain way, speak a certain way and then act a certain way?

Well, that's what life is like for Sophie Buchanan. She's told what to do in every aspect of her life by her parents, even down to who she is supposed to marry.

But things are about to change for this high-society rich girl. In fact, one guy is going to drop a nuclear bomb on her life and change everything she has ever known.

Brannon Forrester is a pierced and tattooed God... I loved him the minute the book started. We are introduced to his life that revolves around his mechanic business and a bar called the Copperline. His friends are in a band and they play at the Copperline, so we see them throughout and learn a lot about their

characters. *I have bagsied Cody... FYI*

So when Sophie decides enough is enough and she is going to take her own life into her own hands, her world collides with Brannon and a whole lot of heat and passion erupts.

I won't go into too much detail on the story because I want to leave that for you to read, but I hope you will enjoy this story as much as I did. Sibylla will always be an author that I can go to and read anything she writes.

I would recommend this book if you are after a hot, steamy read that will pull at your emotions.

★Ruth★ says

Hot.HOT.HOT!!!!!!

Review to come closer to release date :)

Linda says

Wow, Sibylla turned up the heat with this book!

Brannon Forrester , hot sexy "orgasim donor" and let's say it now, man whore, first laid eyes on the beautiful upper class. Sophie Buchannon 3 years ago at a wedding that he was helping his freinds lugged band equipment and

Set up.

Sophie, was the beautiful blonde wistful girl with the idiot boyfreind at her side and totally out of his league, rich gorgeous and not for him; though it did not stop Brannon from thinking of her over the years .

Imagine his surprise when she shows up at a Mofos after party , all slutted up and hot as hell , eyes him from across the room and asks if he delivers on , His shirts statement" orgasim donor" , well what's a guy to say but hell yeah!

With that simple statement, Sophie went from being the girl of Brannon's fantasies to the women he just can not get enough of; and she has a bucket list of naughty things that she wants to experience during her little rebellion against her overbearing parents and Brannon is more than happy to help her cross items off that lists long ashes along for the ride.

Sophie bucket list

1. Get really really drunk
2. Get stoned
3. Kiss a girl
- 4 ride a Motorcycle without a helmet
5. Dance all night
- 6 go to bed when the sun comes up
- 7 have "woohoo" in public
- 8 have a threesome
- 9 and get a tattoo

These two proceed to work through that naughty bucket list and the man whose starts to become the reliable stable monogamous lover, though their road through it all is not all smooth, it is hot as hell at times, equally as frustrating because of the difference in their lifestyles and Brannon's inability to admit his feelings. Sophie's inability to believe that he really wants to be with her and her alone when he has been with so many women before.

What can I say, Sibylla had me and chapter one! " *Three Licentious years Later* " and I could not put this book down. Her books just keep getting better!

Arc graciously provided for an honest review!

Nance says

I started this book 8pm last night and finished it at 3am this morning! I couldn't put it down! I just had to know how everything worked out! It was that entertaining! I love a book that once you finish one chapter you say "okay, I'll just read one more and put it down" and then it's onto one more chapter after that and so on. And, then before you know it, you've read the whole entire book. This was and is that type of book! I was just so wrapped up in the story and the characters. And, what a bunch of "characters" they were! Now, my favorite Sibylla Matilde character has always been **Ronin** from **Little Conversations**. From the first time that I read about him, my heart soared!!! He was that magnificent! Just such a beautiful desirous male! But, now that I've read her newest release, **Brannon** sure gives **Ronin** a run for his money!!! That badboy image is so friggin' attractive to a good girl!

Brannon Forrester is without a doubt a manwhore. He's not a bad guy. He owns his own business. He's a great friend. He's a good brother. But, when it comes to women, he's not shy about making it known that he's not that commitment-type of guy. He's sole purpose is to bag them and move on. At least that was his normal way of thinking until cute little Sophie Buchanan barrels into his life. He's seen her from a distance, and she's always turned his head. But, she's out of his reach. She's comes from money. Rich as all hell! But, he is a mechanic. A blue-collar worker. They're not even in the vicinity of the same food-chain. So, he secretly watches and waits until one night she unexpectedly comes to him. Sophie is tired of always being perfect. Not a hair out of place. The flawless daughter who is always doing the right thing. Never one to rebel from her parents controlling ways. But, when her current boyfriend does something so despicable, she can't help but to end their relationship and try to change her "perfect" nature. And, that's where Brannon comes in. She's on the prowl at a party to ramp up her naughty-girl image, and he's the answer. Do something out of character. Something so dangerous and thrilling. Something that would definitely shock and embarrass her parents. Sophie appropriately picks Brannon. He's lethal and wild. He would never say no to her offer for sexual favors. He's so friggin' turned on by her. She's beautiful and innocent. And just the thrill of her being off-limits is enough to entice him even more.

Oh, my God!!! This was one hot romance! Brannon was one sexy dude!!! And, Sophie couldn't get enough of him. Her bucket list of new and exciting experiences was indeed enticing. And, she was determined to engage in every single one of them – with Brannon's help, of course. I laughed and grinned and smiled throughout the entire book. And, when Brannon's real feelings came out, I was so happy for him. He really and truly had changed. Sophie crept into his soul and lit it on fire. She was a hard person not to like. She was a sweetheart of a girl that had been missing out on life. She needed to be free from her parents' domineering embrace and be able to make her own decisions. And, to just walk away from the only thing that she has ever known, would be quite the challenge. These two afflicted individuals needed each other. They understood

each other. They consumed each other. They adored each other. But, when all is said and done, will they be together as a couple???

Ms. Matilde couldn't have captured my attention more with this story of hope and desire. The story is told solely in Brannon's POV, which was gratifying. He was just such a typical guy's guy – the crude language, the dirty sex talk, and the drinking. The author wrote some laugh-out-loud funny stuff that had me grinning from ear to ear. The two main characters were knockouts and their friends were a blast! Denny, Justin, Drew, and Cody. Loved the banter between the guys along with Denny's Irish tone! Cody was always being fired by Brannon – loved that little tidbit! And, oh my God, the intimacy...DAMN, Hot Hot Hot!!! Definitely panty-melting material!! Scorching! This was one highly erotic read!!! That's why I say with a Sibylla Matilde book you get everything you could possibly crave as a reader – intense drama, endless humor, loyal friendship, and blazing desire. I wasn't all that crazy about the title of the book, but what was written within the pages was well worth my time. This was one impressive read! So, when is the next one in the series coming out, Sibylla??? Not soon enough:)

“Do or die? It's a reminder to live every day like it's my last.” ~ Brannon (Chap. 5)

And, no, Sibylla this book didn't suck... It was awesome!!!

Thanks to the author for providing me with a copy for an honest review...

Review:

<http://i869.photobucket.com/albums/ab...>

Post Breakup Sex is book #1 in The Copperline Series was a hot and steamy 5 star read.

This is Brannon Forrester's story. He is a tattooed and pierced bad boy from the wrong side of the tracks. He has his own shop and hangs out with the Bangin' Mofos and reaps the benefits of women.

There has been one woman that has been untouchable to Brannon, Sophie. She came from money and was upper class. He didn't stand a chance, until one night at the club. Sophie approaches Brannon and asks him to fuck her. Who can resist a request like that, and boy does he ever. He fulfills his needs and Sophie's needs, several times. The scene was very hot.

Weeks later Brannon see's Sophie at a gig the band is playing and ends up coming to her rescue. Sophie leaves with Brannon and let's just say things get very heated from here on out.

There is something about Sophie that draws Brannon in and he can't get her out of his mind. Sophie reveals to Brannon that she has a bucket list of things she has always wanted to do. It is a very dirty bucket list that Brannon is very happy to help her with.

Every layer I uncovered revealed another facet of her personality. Another fascinating enticement that drew me closer, making her even more desirable than before. I was so screwed.

There are ups and downs for Brannon and Sophie, especially when it comes to her parents who are extremely snooty high class jackasses. I did not like them at all. There are a few twists and turns that will leave you hurting and wondering if these two can truly make it work. There is a scene with Brannon that totally broke me and had me in tears.

"If you love someone, set them free..." I trailed off. I didn't want to think about the 'if they don't come back' part.

There is so much more to this great read, with lots of hot sex, you may need a cold shower when you're done. There is M/F, M/F/M, and F/F/M. We get to meet the Bangin' Mofos and the women around them; they all added a great element to the story. We do get to see a HEA but it was not easily obtained. Sibylla Matilde draws you in with her writing, this series was my first read from her and I loved it. Post Breakup Sex is the first book in The Copperline Series and can be read as a standalone, I can't wait to read the rest. I highly suggest 1-clicking and get reading today. Thank you Sibylla.

Warning: 18+ readers due to strong language and strong explicit sex scenes

★★★3-3.5 STARS★★★

Brannon Forrester sees Sophie first time at a wedding where he is helping out his friends who are in a band. He's immediately intrigued by her. She is beautiful and classy and so different from other girls he met so far. When he finds out who she is, he really wishes she was anyone else, because the blonde beauty is Sophie Buchanan, a very rich girl who would never hook up with a tattooed, pierced guy like him.

Three years later, Brannon is a mechanic and has his own shop. He is a man whore and he doesn't do relationships. At a party, he sees Sophie again. He is more than surprised to see a girl like her, who oozes class, money and style at a band party and more surprised when Sophie picks him up for a one night stand. They spend a hot night together, they part ways, but after few weeks they meet again.

Sophie was treated all her life like a porcelain doll. Everyone has certain expectations from her. Her parents always told her what to do, what to say, what to wear etc. She's not that kind of girl who hooks up with strangers, but all she wanted when she met Brannon at the band party is to be wild and free. She wants to find who she is and to experience life. She even has a bucket list and Brannon is eager to help her. They hang out almost every day, becoming some sort of friends, but soon their relationship starts to change. They don't know how to label their relationship, but who cares when they are so good together.

I enjoyed this one, but I wanted more originality. At times I felt like I already read the book. Also the story was very, very predictable. So my problem with this one was the plot, I think. I really enjoyed the story was told entirely from Brannon's POV. I liked both main characters. Brannon is a sweetie. She sweet and even caring with Sophie as the story progresses. He's a great friend and a decent brother. I liked how he is with Sophie; how supportive and attentive he is all the time, how he wants to help her find herself and of course how he is more than ready to help her with her bucket list. In the end he gave Sophie what she always wanted an never have, love.

Sophie was a sweet girl and I liked her as well. She was sweet and funny, at times a little naïve and she was great with Brannon. She knows money are not the most important thing in life and I liked that she wasn't a spoiled brat.

I liked the dynamic and the banter between them. The sex scenes are off the charts hot, especially the first one, when they hook up at the party.

Overall, a good read!

Now LIVE!

UK - <http://amzn.to/1CkVKPt>

US - <http://amzn.to/1yNpBxl>

Wow, that was one hot book! This is basically the story of Rich Girl/Poor Boy and I for one really enjoyed reading it. Brannon Forrester is a mechanic, and although he now owns his Grampa's old garage, he still feels that he is a blue collar worker who would never in a million years attract the attention of Sophie Buchanan. He first see's her at a wedding, when he is helping out his friends who are in a band - he is their unofficial roadie and when his eyes catch sight of the blonde beauty who is looking wistful and lonely, he decides he just has to find out more about her. Unfortunately for him, she comes from one of the most rich families in the area.

Three years later, after man-whoring his way through the sluts at the Copperline bar, he gets the surprise of his life when Sophie picks him to have Post Breakup Sex. Not only that, but good girl Sophie has a bucket list of naughty things she wants to do and he just happens to be perfect for the role of helping her fulfil her list.

Now, I know a lot of people hate a man-whore, but I found Brannon to be a lovable one. I just really loved the dynamic between them. Sophie was sweet and quite lacking in self confidence due to her parents only praising her worth in looks and social behaviour, but she wasn't annoying in any way shape or form. She decides she wants to learn how to depend on herself and goes for what she wants and she's no pushover either.

Their relationship wasn't rushed and I loved the build up of their love, especially during her experimental phase - did I say this book was HOT?

There was one scene I could have done without, but I am a forgiving person and if Sophie can forgive then so can I because Brannon was perfect for her and all's well that ends well.

This is a stand-alone, told entirely from Brannon's POV.

#DoOrDie

ARC received from author in exchange for an honest review

Philomena Callan Cheekypee says

This was so not what I expected. I'm not sure why but I thought this was gonna be a comical story. I'm so glad I was wrong.

Brannon and Sophie are complete opposites. Sophie picks Brannon for a one night stand- that night changes everything. Sophie was born into money. However that doesn't alter her. She's a really lovely and sweet girl. Brannons a man whore. When he saw Sophie he thought she was out of his league!

Great story told from the males point of view. If your looking for a hot steamy read then I recommend this little gem.

Di says

I was lucky to get to read this early and I have to say it is amazing. Very hot!

Every book Sibylla Matilde has written, I have loved. This one is no different. So far I have read it four times. Yes, four! It is THAT good! Oh, and hot, very, very Hot, like H.O.T! It's a wonder the pages aren't singed. So don't say I didn't warn you, right from the outset, be prepared to pack extra underwear (or none at all!!)

I love reading a book from the male perspective. This one is no different. You see just how vulnerable Brannon can be. Most of the time he is a cocky, self assured kind of guy, but throw Sophie Buchanan in the mix and he becomes someone else entirely.

Sophie isn't as delicate as she may seem. That girl has spunk and a lot of it (excuse the pun)! She knows what she wants, just not how to go about getting it. That is until she hooks up with Brannon.

There are a few bumps in the road along the way, mainly in the form of previous partners, but just when you think everything is going to be okay, BANG! I have to say, my heart was in my mouth towards the end, willing everything to be alright. I couldn't turn the pages fast enough, at the same time I didn't want the story to end. My only consolation? There will be more books from this series and I can't wait to read all about the shenanigans of Brannon's friends.

Don't forget to add to your TBR list!

Karen ****Mrs. Northman**** says

****ARC provided by the author for review****

Oh , how do I love thee? Let me count the ways.....

1. Brannon. (That might be my new favorite name btw). Such a hottie. Guh.
2. Bow-chicka-wow-wow. And OMG was it hot. Which leads me to....
3. DP!!!!!!
4. As always, the writing. beautiful.
5. No insta-love. Insta-lust for sure but I loved the slow build of Brannon and Sophie's relationship.
6. DP!!!!!!!!!!
7. Perkins!!!! God I loved that place. Delicious chocolate chip pancakes there. Mmmmmmmmmmm yum. Annnnnndddd now I'm hungry.
8. Did I say DP? ;)

It so amazing and wonderful to know that this girl who we met on GR, bonding over our love for all things smutty and dirty, has now become an auto-buy author for me :)

Be prepared to read this one-handed, my friends ;)

✿kawehi.reviews says

? I received an ARC in exchange for an honest review. Thank you! ?

This is me:

Honestly speaking, what was the point of this book? Other than-- finding love, breaking out of the norm, society views and prejudices, and the protagonists learning to be themselves and pursue their own wants? I mean, yeah, technically they are actual points, but the execution just floundered for me and did not do any of it justice. Hence, why I found it empty.

It was lust, sex, sex, and sex! No real content or development between both main characters whatsoever! Sophie's character got on my nerves and Brannon's personality was just blah! Nothing!

shakes head I so could have gone without reading this. It honestly just felt like it had no purpose whatsoever...

Sorry! :(

Duchess Nicole says

I can't even tell you how surprised I am at how much I liked this book. It's **holy shit-hot**. I mean really smoking, screaming sexy. Fairly quick read but with enough story added to the sexy that my heart was a little invested too. For those looking for something quick and steamy, this is perfection. With more books in the series that get better and better ratings. Yay, me!!
