Stray Suzanne Steele

My name is Striker Malone but that hasn't always been the case; I was forced to change it. Well, actually the state changed it when my father was imprisoned and killed after he was unjustly prosecuted for a string of serial murders.

Life wasn't great before that defining moment but it was majorly fucked beyond repair afterwards... and so was I. That guilty verdict, that decision, made me the man I am today.

I'm not a good man and whether or not I can blame that on nature, I'm not sure. I do not doubt, however, that it is based on nurture or, at least, the lack thereof.

I do not hold anyone but myself accountable for the decisions I have chosen to make. I do, however, blame the parties involved in my parents' deaths for putting me in the position to make those hard decisions. Had it not been for their deceitful lies, my life would have taken a much different course.

No man should be led down that path where he struggles with the choice of whether to stalk or kill. I suppose the fact that I have enjoyed stalking the daughter of the judge who sentenced my father does say something about my dark nature though. Perhaps that darkness within is a mixture of nature and nurture; I quit trying to figure it out long ago.

I've embraced my dark, sadistic nature. Like anything in life, it has been a journey and this is the documentation of that journey—a journey of revenge, murder, and my quest to avenge the death of my parents.

My choice was taken away years ago when my father was made a pawn in a game that the rich and elite played. Now, I'm the master of my own destiny and though they are unaware, I am now the master of theirs. Yes, I have to agree with that old saying. Revenge is most definitely a dish that's best served cold.

I give this book an A for effort.

I tried to enjoy this. I really did. But it was all over the freaking place. Nothing was cohesive. Nothing made sense. It was beyond unrealistic to me. I'm still flabbergasted as to what the freak I just read?!

It wasn't even hot. There was sex all over this book and none of it was sexy. NONE!! The suspenseful plot wasn't even grabbing me. I couldn't care less whodunit. I was so over this book from within the first few chapters. I think I'm going to have to break my promise and start DNFin books because I just cannot take it anymore!!

So I gave it two stars because I could see the potential for a good book. The story idea was great but the carry-through needed a lot of work.

Enjoy!

Dominant. Sexy. Dirty mouthed. Ruthless.

These words encircle the brutal Striker Malone. As an underground MMA fighter he came to know how to play without emotion, strike to shatter bones and triumph with the blood of his challengers soaking his skin. He is unmerciful. And he is a man with a single purpose. Revenge.

Every piece fall to place, except one. Claire. His merciful angel. And as a man with many hungers, there's no pleasure as devouring the beautiful, Claire and submitting her to his every filthy-dark-fantasy. As well carrying out his revenge. Call it, double diligence.

The story is dark, but fast paced and very easy to read. Striker is a very hard character and with his background story you get to know the why's and how's of his life. You get to see his demons and his reasons to achieve his goal. And the sex scenes are kinky and hot! (Wish they were longer!) Overall, it's a unique hot story!

?????????? 5 Sexy Revenge Stars ??????????

Oh Striker.....my sexy Striker. What can I say.....you top the list of walking sexiness!! Blunt and says exactly what he means.....my kind of man.Striker Malone is an upfront, this is how it is, MMA fighting, takes what he wants and you have no choice in the matter, walking sexiness of a man. His personality is dominating and in all control with no excuses for anything less than all in. If Striker grows to love you....WATCH OUT...it is over....no words need to be said to change his mind.

"You're marked now. You belong to me and if I find you anywhere near that pansy motherfucker I just kicked out, neither of you will be safe."

Miss Claire...you are one of my faves....Angel of Mercy. I love your fierceness and head strong demeanor. Just the type of strong woman I want to read about.Growing up with money and a protective daddy. Claire is the princess of the story. Although, if you call her princess....she may attack!!

This story of revenge is action packed and full of secrets that you don't see coming. Secrets, lies & sex = FANTASTIC!! Now if only I had another 300 pages of this one!!

Suzanne Steele is a definite fave! ??

Stray, is another quick enjoyable story with the super alphas turned up to ten. However, I must say that the heroine and the hero's roles are reversed when it came to the monetary wealth Striker and Claire, she was independently well off because of her success in real estate and striker was your average Joe money wise, but not so average in any other aspect.

I also like the fact that Claire was a strong take charge character, she in essence rescued Striker from himself, although the original reason for them coming to know one another was nothing like what actually happened in their relationship. Yes, Striker was an ultra-alpha to the bone but Claire made it very clear that she submitted only because that she wanted and she enjoyed giving up a part of her control in certain aspects of their relationship, but she would never cower for him and to Striker's credit he actually respected that about her and that made her even more attractive to him.

This was also a definite steamy read, and of course the recurring characters of Agent Turner and Renee are always a treat, but I'm definitely looking for Ms. Steele to actually give these two their own story, it's begging to be told through all of the glimpse of development shown when they are interwoven with the main

characters of other stories Ms. Steele has written.

This is a definite quick read that can be enjoyed and knocked out in about 1 ½ 2 hours, just enough time to decompress from a long day, I recommend this story for someone whose looking for a little heat, a little spice and a bit of suspense. Happy

Debbie says

I really gave this 3.5 stars because the story deserved it. I couldnt give it higher than that because it felt so rushed! The characters had no time to develop..the story had such potential and to have it suddenly appear so obvious to everyone and get solved so quick just ruined it for me. If this was spread over 2 books, i wouldve loved it! But with such an intense plot and such interesting characters, it was robbed of what it couldve been. Definitely a little disappointed

Ashleyjo says

I do like that the author tried to go outside the box and have a pouty, rich, successful female and the male be the scorned, underprivileged, and underemployed one. The cover is smoking! But, I just couldn't make myself continuing reading the nonsense.

Ill Conceived & Not Believable

Her dad is a high-profile judge. She's single and lives alone. She has a limited relationship of do-gooder for a guy, the MC, that sits in front of her building everyday and whom she assumes is homeless.

When she finds him all busted up, she just brings his ass home, offers him a job, & buys him everything from CK undies to Timberland boots. A day later, she's all 'hey, let's buy you Jeep Wrangler Rubicon Hard Rock 4x4.' Let's have unprotected sex. Let's 'assailant' role play with a knife as I'm internally questioning if your effing sane or not. Uhm, no, no, no!

She notes, but ignores, a "malevolent" feeling to his demeanor, the "ruthless sadism" on his face, etc etc. the magic pecker wins again over common sense. ~ sighs~

The whole thing feels weird and just unbelievable that any female of her standing would just being a street fighter home with her to just stay indefinitely because she's "an angel of mercy."

Btw wtf kind of sociopath calls himself a sociopath?!?

Dude all but tells her 'hey I'm a bad mfer planning to hurt you and fucking with your head' as he screws her... But, dont worry she's too busy organisming to pay it any mind; he's revenge secret is safe. Lol. <<< shit is just beyond believably.

Voices Mimic Internal Dialogue ...

He has internal thoughts about being a feral stray. A few paragraphs later she, too, uses the word feral to describe him. That would be fine if he had acted feral at that point, but he hadn't. Lol

Show Me Don't Tell Me

Everything from the sex scenes to the plot is 80% tell and 20% show. That's just not my flavor of writing:/'

DNF

I made it to 37%. I like the fast pace the author abides. I like the premise. Sadly, the writing 'telling' style isn't to my tastes. And the goomba revenge and romantic plot isn't to my standards.

I'd recommend a sample of this book before committing.

Kiley says

Suzanne Steele has YET to disappoint! I love the characters in all of her books, the storylines, the alpha male dominant rough around the edges take no crap male leads are the BEST by far!! I love how she gives you different viewpoints from different characters through out the book it gives you a more 360 degree view of what is going on in the story. I have read all of her books, and I can't wait for more!!!

Sinister_reader says

I kind of have a love hate relationship with this writer and I'm torn between a 3 and 4 stars. I love Suzanne's story line, each and every time she draws me in. however her stories lack so much detail and move a long far too fast. so, I keep reading because they are good, but they need so much more. Suzanne, take the time, write one story. detail it out, build it up, draw it out. make me fall in love, then make me want to submit. your stoutly storylines are great I just want to beg a little for the climate. you have a lot of stories out there and a lot of readers who love you. I just need one book from you that leaves me on the edge.

Pauline says

Addictive.

I loved this book, I got through it pretty quick but loved every minute of it.

The cover grabbed me and the story was great.

Nina says

Oh so good!!

"All those dirty, nasty, little secrets, that you work so hard to keep hidden" Striker- his dirty mouth is oh so

yummy and to top it all...he's a ruthless underground fighter. After a crap life growing up Strikers main focus is revenge, but then there's Claire.. Suzanne has a way with alpha men they aren't just possessive they are obsessed with their love and addiction and Striker is no different. She did a wonderful job with Strikers character. Claire is a strong female but submits to Strikers (and her) dirty little needs/fantasies. But then again, everyone has needs right? This is some what of a dark read with dual pov, and some smokin hot moments, oh and can't forget one sexy alpha male. If you don't like a little kink with possessive(sometimes) jerk alpha men I wouldn't recommend but if your looking for an awesome obsessed love.. this is one hell of a good read. Another great job Suzanne!

Kimberly Morrow howe says

nice!

I really liked the flow of this story! Striker and Claire and even the two FBI agents...loved that parallel. Interesting twist in the story that did make for a more captivating ending...thought the ending was rushed but really liked it too. Thank you!

Lin says

Great one, so far the best one I have read from this author . Striker was very alpha but also sweet to Claire. I could bring home this stray any day.

Julz says

dnf @ 37% this book was just way to 1 dimensional for me. I am just too bored to continue. its a pity as the cover looked so promising

Amy Collins says

Hot read, but I've never read a book that climaxed (no pun intended) so quickly. The real killer, the truth to why and FBI agents all come to a head on literally one page. Literally. End of story....
