With more than 9 million books sold, the My Weird School series really gets kids reading!

In this third book in the new My Weirdest School series, the Brain Games are coming to Ella Mentry School! Miss Brown will help the kids do creative projects, like building a bridge out of toothpicks and designing a remote control car. But the kids are up against some tough competition. They will have to compete against the students of Dirk School to win the grand prize: a free trip to PizzaWorld!

Perfect for reluctant readers and word lovers alike, Dan Gutman's hugely popular My Weird School series has something for everyone. Don't miss the hilarious adventures of A.J. and the gang.

Victoria Hall says

Miss Brown walks on her hands into the class. They have contests in the auditorium at Dirk School. They build cars and bridges made out of toothpicks.

Gail says

This one made the boy laugh several times: Brain Games, Death Machine with Rocket launcher, Fartmobile, etc.

Tyler says

This book was good and I vaguely remember it but it was one of my favorite books when I was in elementary school. Their teacher Miss Brown is an expert on creativity and the third grade builds a car and a bridge to compete in a Brain Games against Dirk School.

Shelli says

Dan Gutman understands young reader's humor and has created a fantastic book formula to draw in even the most reluctant of readers. The My Weird School series is perfect for students to practice their reading skills with its repetitive yet hysterical narrative and story lines. But don't mention that part to your kiddos, they might run away in fear they could learn something! A must have collection for any grade school library or classroom!

In this edition Miss Brown has walking into Elle Mentary's third grade classroom on her hands to get the students excited about creative ways of doing everything. Hopefully this creativity will help them win in the big competition against their rival school Dirk.

Luke Geddes says

Spoiler alert! The winner of the contest is no I won't tell, but you can probably guess. The contest is a brain game between Dirk school and Ella Mentary school. You'll never believe who won? I'm not going to tell you. Ok, ok, but you have to read the next chapter.-arlo jurves

Weird book

This story is a weird, but wild tale about being in school and having to use your brain in creative ways. I think this should be a required reading for all youths, it will help them think outside the box of normality!

Brielle McKenna says

This book is about a young boy named AJ who thinks it's lame to be smart even though he is in the Gifted and Talented program! His school goes against their rival school in s Brain Game Challenge!!! As AJ is elected one of the two presidents of their team, he and his partner Andrea (the know it all in the classroom) work together to answer random questions! They build a bridge and also a crazy car! They race to beat their rival school. Read to see which team will win!!! I would recommend this book to teachers and parents who have children who are so intelligent but think it is weird to be the smart kid in the class.
