Wow! This anthology for a great cause was beyond fantastic!! I was familiar with a lot of the authors and was introduced into some new ones as well. I'm looking forward to reading more from all of them. All the stories are great but some of my favorites are Corrupted Counterparts by Sapphire Knight, Summer Storm by L. Wilder, Storm by Nina Levine, Falling Star by Jani Kay, The Gift by River Savage, Infatuated by Autumn Jones Lake, and M.N. Forgy. This anthology is a definite must buy because you as a reader benefit from all the get stories and you're helping a great cause at the same time.

I highly recommend you get this collection of sexy hot stories that will make you want to look up the authors to read more of their books!! It's worth every penny and it goes to a good cause!! FIVE STAR FABULOUS

★★★★★

This anthology is an absolutely awesome read and it's for an even more awesome cause. That alone is a great reason to read it. It's an added bonus that the authors and their stories that are included are just as fabulous. There's a little something for everyone in here.

I enjoyed reading all of the stories, it's nice to have variety. You also get a small glimpse into different writing styles and find some really great authors you never knew about before. My author and book list definitely has new additions from this.

My absolute favorites in this anthology were The Gift by River Savage, Infatuated by Autumn Jones Lake and Storm by Nina Levine. I could kiss those ladies for giving me more of my favorite sexy men. I was like a

kid in a candy shop.

Not only is this anthology worth the read, it's for a great cause. BOOKS FOR BOOBIES Anthology benefits the National Breast Cancer Foundation.

Amy Howard says

This book was one of the most meaningful books I've read this year, but not just because of the plot, as the reason behind the creation of this book really struck a nerve with me what with it being compiled from epilogue-like stories from various authors to raise money in the fight against cancer. I love it when books have meanings whether it's because the author went through a really emotional time when writing it or if it was written in remembrance of someone, either way it really makes it worth reading. Finally, although the mini stories from the authors contributing to this book are based on characters from their previous books, I felt as though they could each still be read as standalones as you still get a feel for the characters and their situations. Congrats on an amazing book and my heart goes out to the authors who helped with this project!

Gi's Spot Reviews says

I only read,
-Light to my Shadow by Lani Lynn Vale
-Steeling Parker by M.D. Saperstein & Andria Large
since I read the original books for those couples, so my rating is only for these two.
Review to come...

This is packed full of some great short stories. It is also done for a great cause so you get the hotness while supporting a great cause, you can't go wrong. I had already read several of the authors in this anthology so I knew I would love their scenes and characters but be prepared you might end up like me, now I have a whole bunch of new to me authors and books on my TBR list so I can read more of their great characters/stories because I need more.

Veronica LaRoche says

I enjoyed these stories from the beginning to the last one. I hope everyone buys this not only to read but to support breast cancer awareness

This has got to be one of the best ideas for an anthology ever! An entire book dedicated to to such a worthy cause which is so important to many people - Breast Cancer. Every author who participated has done an amazing job! Not only is this a book for charity but it has given readers a chance to get a glimpse into the lives of some of their favorite characters (one of my favorites being Steeling Parker by M.D. Saperstein and Andria Large) and even introduce you to some that you've never read before (River Savage, you've created a new fan out of me). And can I just say that the tales told in here have got to be some of the most sizzling collections I've ever read! The romance, the men, and stories in general just ooze hotness and perfection!

I've become a fan of so many new authors and I can only say thank you to all of them for donating their time and brilliant minds to this great cause! Go read now! It's only \$.99 and you'll have the great honor of supporting such a noble charity!

Immensely entertaining! This is an anthology full of fun, sexy, and romantic stories that include a little bit of everything to satisfy every readers taste. It includes not only short stories but deleted and supplemental scenes from stories already familiar to us.

Best of all I'm thrilled to be supporting Tara Oakes foundation "Books for Boobies" which is an outlet to provide women in that situation with a fantasy distraction. AND, every cent from every sale will be going to The National Breast Cancer Foundation.
